Fundamentals of Agriculture (Vol. 1-2) R.L. Arya, Sonam Arya, Renu Arya, Janardhan Kumar, 2020-02-18

Fundamentals of Agriculture for competitive exams in agriculture discipline contains 6 chapters in volume I and 7 chapters in volume II covering all disciplines of agriculture. The chapters included General Agriculture, Agricultural Climatology, Genetics, Plant Breeding, Biotechnology, Plant Physiology, Biochemistry, Seed Technology and Agronomy in volume I and Soil Science, Agricultural Microbiology, Horticulture, Entomology, Plant Pathology, Agriculture Extension, Agriculture Economics and Agriculture Statistics in Volume II have given due importance and whole syllabus is covered as per ICAR SAUs syllabus and guidelines. Each chapter contains very short types of descriptive questions. Recent precise information and development in the field of agriculture have been incorporated in the book. For the overall benefit of the student in the discipline of agriculture we have made this book exclusively in such a way that it hands out not only solutions but also detailed explanations. Though these detailed and thorough explanation student can learn the concepts which will enhance their thinking and learning ability. Thus this book may be useful not only to students but also teachers, researchers, extension workers and development officers for reference and easy answering of many complicated questions of all related disciplines of agriculture. Fundamentals of Agriculture covers the course contents of competitive examinations like IAS, IFS, PCS, ARS, Banking services, B Sc, M Sc, Ph D, Ag admission states and national levels of different competitions in agriculture. The entire book is prepared in most simple clear talking language, comprehensive and short descriptive types of questions so that the concepts could be easily understood by the readers in short times. Hence this book can serve as a single platform for preparation of different competitive examinations in agriculture.

Designing and Implementing Health Care Provider Payment Systems Jack Langenbrunner, Cheryl Cashin, Sheila O'Dougherty, 2009-01-01 Strategic purchasing of health services involves a continuous search for the best ways to maximize health system performance by deciding which interventions should be purchased from whom these should be purchased and how to pay for them. In such an arrangement the passive cashier is replaced by an intelligent purchaser that can focus scarce resources on existing and emerging priorities rather than continuing entrenched historical spending patterns. Having experimented with different ways of paying

providers of health care services countries increasingly want to know not only what to do when paying providers but also how to do it particularly how to design manage and implement the transition from current to reformed systems Designing and Implementing Health Care Provider Payment Systems How To Manuals addresses this need The book has chapters on three of the most effective provider payment systems primary care per capita capitation payment case based hospital payment and hospital global budgets It also includes a primer on a second policy lever used by purchasers namely contracting This primer can be especially useful with one provider payment method hospital global budgets The volume s final chapter provides an outline for designing launching and running a health management information system as well as the necessary infrastructure for strategic purchasing
