Aces Airplanes Of Ww One:

Reconnaissance and Bomber Aces of World War 1 Jon Guttman, 2015-01-20 Many fighter aces began their careers in two seaters but a surprising number of British French and German aircrews managed to achieve aceship in those not so helpless workhorses too This is their story Often overshadowed by the fighters that either protected or threatened them two seater reconnaissance aircraft performed the oldest and most strategically vital aerial task of World War 1 a task that required them to return with the intelligence they gathered at all costs Bomber sorties were equally important and dangerous and the very nature of both types of mission required going in harm s way A remarkable number of British French and German two seater teams managed to attain or exceed the five victories needed to achieve the aceship popularly associated with their single seat nemeses and in this book with rich illustrations and first hand accounts of the veterans themselves they receive their long overdue recognition Many high scoring single seat fighter aces also began their careers in two seaters particularly in the early stages of the conflict and their exploits as either pilots or observers are detailed here too **German Fighter**

Aces of World War One Terry C. Treadwell, Alan C. Wood, 2003 German side included Manfred Freiherr von Richthofen the Red Baron Ernst Udet and Hermann Goring later to play a prominent part in World War Two Terry C Treadwell and Alan C Wood recount the stories of the Aces of the Imperial German Air Services as well as providing accounts of the manufacturers and their aircraft Book jacket

Fighter Aces of the Luftwaffe in World War II Philip Kaplan, 2007-03-22 This book examines the reality behind the myths of the legendary German fighter aces of World War II It explains why only a small minority of pilots those in whom the desire for combat overrode everything accounted for so large a proportion of the victories It surveys the skills that a successful fighter pilot must have a natural aptitude for flying marksmanship keen eyesight and the way in which fighter tactics have developed The book examines the history of the classic fighter aircraft that were flown such as the Messerschmitt Bf 109 and the Focke Wulf Fw 190 and examines each type s characteristics advantages and disadvantages in combat The accounts of the experiences of fighter pilots are based on archival research diaries letters published and unpublished memoirs and personal interviews with veterans The pilots included are Werner Molders Gunther Rall Adolf Galland Erich Hartmann and Johannes Steinhoff *World War II Dispatch* , 1994

Austro-Hungarian Aces of World War 1 Chris Chant, 2012-12-20 Featuring illustrations throughout a detailed exploration of the unlikely aces among the Austro Hungarians Starting the war with only 35 aircraft Austro Hungarian industry went on to produce only moderate numbers of poor quality aircraft The fliers of the Austro Hungarian Empire operating on the Serbian and Russian fronts were fortunate at first finding themselves faced by small numbers of aircraft yet more obsolescent than their own Serbia fell in 1915 but when Italy declared war the Austro Hungarians were still faced with a two front war a static front against Italy and a far more fluid one against Russia As Christopher Chant explains in this compact volume Austro Hungarian fighter pilots performed bravely and often very effectively under extremely difficult

geographic climatic and operational conditions **Austro-Hungarian Albatros Aces of World War 1** Paolo Varriale, 2012-12-20 A detailed account of how aces of the calibre of Brumowski Kiss and Linke Crawford did their best in their Albatros fighters which often sported colourful and fanciful insignias. Austro-Hungarian industry produced a series of poor fighter types such as the Phönix D I and Hansa Brandenburg D I during the early stages of the war and it was not until licence-built examples of the battle-proven Albatros D II and D III began to reach Fliegerkompagnien or Fliks in May 1917 that the fortunes of pilots began to look up. Unlike the German-built Albatrosen, the Oeffag aircraft were far more robust than German D IIs and D IIIs. They also displayed superior speed, climb, manoeuvrability and infinitely safer flight characteristics. The careful cross-checking of Allied sources with Austrian and German records forms the basis for a detailed reconstruction of the dogfights fought by the leading aces. It will also chart the careers of the Austro-Hungarian aces that flew the D II and D III, their successes and their defeats, with additional information about their personal background and their post-war lives in the nations born from the collapse of the Hapsburg Empire *Soviet Lend-Lease Fighter Aces of World War 2* George Mellinger, 2012-10-20 The Soviet government tried to minimize the importance of Lend-lease fighters well into the 1980s. Only in recent years have these pilots felt free to admit what they flew and now the fascinating story of these men can emerge. By the end of 1941 the Soviet Union was near collapse and its air force almost annihilated, leaving large numbers of surviving pilots with no aircraft to fly. To help prevent this collapse the UK eventually supplied a total of 4300 Hurricanes and Spitfires to the USSR. After the United States entered the war the Americans extended Lend-lease to include direct supply to the Soviets as well as the British and among the aircraft sent were almost 10 000 fighters. Although the aircraft were outdated and often unsuitable to Russian conditions they served when they were needed and this book tells how a number of Russian pilots became Heroes of the Soviet Union flying Lend-lease aircraft *LIFE*, 1952-07-07 *LIFE* Magazine is the treasured photographic magazine that chronicled the 20th Century. It now lives on at LIFE.com, the largest most amazing collection of professional photography on the internet. Users can browse, search and view photos of today's people and events. The Extraordinary Story of a World War II Ace* is the incredible true life story of Robert S. Johnson, one of America's leading fighter pilot aces in World War II.
