The Traditional Crafts of Egypt Menha el-Batraoui, Minḥah Baṭrāwī, 2016 Many traditional crafts practiced in contemporary Egypt can be traced back hundreds if not thousands of years Scenes inscribed on the walls of ancient temples and tombs depict the earliest Egyptians making pottery and papyrus and working with stone wood and other materials The eleven chapters of this volume explore these and other crafts that continue to flourish in Egypt From copper and glass works to jewelry woodwork and hand woven carpets and fabric each chapter offers an in depth look at one material or craft and the artisans who keep its traditions alive The authors drawing on historical sources and documentary research sketch the evolution of each craft looking into its origins the development of tools and methods used in the craft and the diverse influences that have shaped the form and function of craft items produced today ranging widely through the pharaonic Coptic Islamic and modern periods This historical examination is complemented by extensive field research and interviews with craftsmen and women which serve to set these crafts into a living cultural context and offer a window into the modern craft economy the lives of craftspeople and the local communities and traditions they express and sustain The volume is amply illustrated with vivid photographs of contemporary craft items and artisans at work from the coastal town of Damietta to the far flung deserts and the ancient alleyways of Cairo It is a narrative and visual tour that provides valuable insight into contemporary Egypt as seen through its material culture and the legions of unsung artists who nourish and enrich it

Egypt W. M. Flinders Petrie, 2018-10-05 This present handbook is intended to aid in the understanding of Egyptian art and the illustrations and descriptions are selected for that purpose only The history of the art would require a far greater range of examples in order to illustrate the growth and decay of each of the great periods whereas here only the most striking works of each period are shown in order to contrast the different civilisations The origins and connections of the art in each age are scarcely touched and the technical details are only such as are needed to see the conditions of the art The archaeology of the subject would need as wide a treatment as the history and these subjects can only appear here incidentally It should be noticed that the divisions of artistic periods are often not the same as those of political history Politically the history divides at the XVIIth dynasty with the fall of the Hyksos and at the XXIInd dynasty with the rise of the Delta government But artistically the changes are under Tahutmes I when Syrian influences broke in and under the XXVIth dynasty when the classical Greeks began to dominate the art
