Crazy Talk Stupid Talk Delta:

A Lexicon of Lunacy Thomas Szasz, 2017-07-12 Thomas Szasz is renowned for his critical exploration of the literal language of psychiatry and his rejection of officially sanctioned definitions of mental illness. His work has initiated a continuing debate in the psychiatric community whose essence is often misunderstood. Szasz's critique of the established view of mental illness is rooted in an insistent distinction between disease and behavior. In his view, psychiatrists have misapplied the vocabulary of disease as metaphorical figures to denote a range of deviant behaviors from the merely eccentric to the criminal. In *A Lexicon of Lunacy*, Szasz extends his analysis of psychiatric language to show how its misuse has resulted in a medicalized view of life that denies the reality of free will and responsibility. Szasz documents the extraordinary extent to which modern diagnosis of mental illness is subject to shifting social attitudes and values. He shows how economic, personal, legal, and political factors have come to play an increasingly powerful role in the diagnostic process with consequences of blurring the distinction between cultural and scientific standards. Broadened definitions of mental illness have had a corrosive effect on the criminal justice system in undercutting traditional conceptions of criminal behavior and have encouraged state-sanctioned coercive interventions that bestow special privileges and impose special hardships on persons diagnosed as mentally ill. Lucidly written and powerfully argued and now available in paperback, this provocative and challenging volume will be of interest to psychologists, criminologists, and sociologists. Power Speak Dorothy

Leeds, 2025-09-12 What is the secret to being a captivating and credible speaker? Never be boring. If you are boring, people will not listen. The central message and focus of *PowerSpeak* is the importance of engaging, stimulating, and maintaining an audience's attention. The Language of Politics Michael L. Geis, 2012-12-06 This study is the second of two I have done concerning how language is used to persuade others to believe things and to do things The first published by Academic Press was *The Language of Television Advertising* and was concerned with how advertisers use language in their efforts to sell products and services and how consumers could be expected to understand it In this study the focus is on how politicians use language to win elections and get others to accept their policies and programs and on how journalists report the persuasive efforts of politicians I combine an interest in the language of political reporting with an interest in the language of politics for a number of reasons First much of the persuasive rhetoric of politicians is filtered through the minds of political journalists before it reaches the citizenry and we can be reasonably sure that this rhetoric does not come out the way it went in Second the press plays a significant role in determining the nation's political agenda through its choices of what issues will be presented to the public how these issues will be presented and which voices will be heard speaking out on these issues Third political reporting can be persuasive in effect if not in intent and it will be useful I think to understand how this is so

Cruel Compassion Thomas Szasz, 1998-02-01 *Cruel Compassion* is the capstone of Thomas Szasz's critique of psychiatric practices Reexamining psychiatric interventions from a cultural historical and political economic perspective Szasz demonstrates that the main problem that faces mental health policy makers today is adult dependency Millions of Americans diagnosed as mentally ill are drugged and confined by doctors for noncriminal conduct go legally unpunished for the crimes they commit and are supported by the state not because they are sick but because they are unproductive and unwanted Obsessed with the twin beliefs that misbehavior is a medical disorder and that the duty of the state is to protect adults from themselves we have replaced criminal punitive sentences with civil therapeutic programs The result is the relentless loss of individual liberty erosion of personal responsibility and destruction of the security of persons and property symptoms of the transformation of a Constitutional Republic into a Therapeutic State unconstrained by the rule of law Szasz shows convincingly that not until we separate therapy from coercion much as the founders separated theology from coercion shall we be able to get a handle on our seemingly intractable psychiatric and social problems No contemporary thinker has done more than Thomas Szasz to expose the myths and misconceptions surrounding insanity and the practice of psychiatry Now in *Cruel Compassion* he gives us a sobering look at some of our most cherished notions about our humane treatment of society's unwanted and perhaps more importantly about ourselves as a compassionate and democratic people
