Thank you for your interest in my new book In this my fourth book I will share all my insights and secrets about breakthrough leadership with you How you can create extraordinary and lasting breakthrough growth in top and bottom line performance simply by changing the way you lead the company From burning platform to burning ambition Most industries and companies have now adapted to the new world order of recession or the post recession zero growth environment This means that most companies no longer have to fight for their life on a day to day basis and the idea of using the burning platform is more or less gone The recession was a great chance to rethink redirect and reinvent the company If you utilized that opportunity I guess that your company is close to being in the best shape ever This means it is time to capitalize on the great additional potential in the marketplace and in the company by creating a burning ambition The concept of the burning platform is pain driven The situation is painful and you have got to run Where to does not really matter The alternative the concept of burning ambition is pleasure driven it is about a particularly attractive situation or state that you want to realize a place you want to go Most companies have a huge potential that can be liberated through breakthrough leadership It is not

unlikely that top and bottom line performance can be grown by 25 to 50 per cent year on year via breakthrough leadership It all starts with you believing in the additional potential If you do this in the right way the upside is fantastic and the potential downside is close to non existent This is the optimal situation and starting point for your transformation Join me on my breakthrough mission **InfoWorld** ,1991-03-18 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects **Breakthrough** Ab Klink,Ahmed Sheikh,Ahmed Qurei,Alan McKinnon,Amnon Lipkin-Shahak,Arne Solli,Colum Gorman,Denis A. The S.M.A.R.T. Goals Joshua Strachan, SMART Goals for the smart The mistake most people make every day is assuming that success is the product of hard work and consistency We can agree with the latter but hard work does not guarantee wealth Hard work will pay the bills and give you some comfort but it won t make you wealthy The most unfortunate part of working hard is you have to keep working in order to make money The rich get richer and the poor remain poor this is because the two groups are involved in different activities every day and these activities shape their lives in different ways While the poor man is trying to eat by looking for means to work and get paid the rich are thinking of a way to get richer by implementing and creating ways to make more profit The rich is a god over their business He doesn t work but makes the decisions meets the Connects and pays himself first before paying the people that work for him The price he paid to get to this position is nothing but SMARTNESS This was a choice he made a long time ago He chooses to learn and accumulate knowledge relevant to creating influence in his field rather than becoming a professional The concept of accumulating riches is not just about acquiring specific knowledge and developing yourself to be a master it is also about having the social intelligence and diligence to be able to command and put into place all the necessary ingredients to bring your idea into substance The SMART This book contains

several steps and blueprints that have worked for modern entrepreneurs to acquire wealth with a minimum amount of money and education You will also discover The in depth secret to social smartness The modern success scheme for 21st century money makers How to measure a specific success and the double down strategy How to be extremely relevant and get paid for it And many more If you want to discover new ways of accumulating success in your daily life this book is for you
