Umit Kucuk,2023-03-21 This book focuses on marketing graphics figures and visual artifacts discussed in marketing theory in order to explain and discuss marketing concepts visually and open a door to future predictions of the evolution of such marketing concepts Marketing concepts are by nature abstract and there is a need for approaches that provide a clear picture of such concepts along with concrete and hands on knowledge tools to students scholars and practitioners Furthermore the recent rising importance and popularity of digital marketing tools and marketing metrics make visualization of such important marketing phenomena possible Visualizing or concretizing of marketing data is more important than ever as the usage and presentation of such enormous amounts of data requires visual representation Whereas the first edition focused on traditional marketing elements namely the 4Ps or marketing mix elements this edition includes a new section focusing on digital marketing which introduces the 4Cs defined as Connectivity Content Community and Commitment Consequently this edition provides a broader view of
