Case Studies in Couples Therapy David K. Carson, Montserrat Casado-Kehoe, 2013-06-19 This up to date highly readable theory based and application oriented book fills a crucial void in literature on couple therapy Few books in the couple therapy market bridge the gap between theory and practice texts tend to lean in one direction or the other either emphasizing theory and research with little practical application or taking a cookbook approach that describes specific techniques and interventions that are divorced from any conceptual or theoretical base However couples therapy requires a high degree of abstract conceptual thinking as well as ingenuity inventiveness and skill on the part of the therapist Case Studies in Couples Therapy blends the best of all worlds clinical applications with challenging and diverse couples that have been derived from the most influential theories and models in couples and family therapy all written by highly experienced and respected voices in the field In Case Studies in Couples Therapy readers will grasp the essentials of major theories and approaches in a few pages and then see how concepts and principles are applied in the work of well known clinicians The case studies incorporate a wide variety of couples from diverse backgrounds in a number of different life situations It is simultaneously narrow including specific processes and interventions applied with real clients and broad clearly outlining a broad array of theories and concepts in scope and the interventions in it are directly linked to theoretical perspectives in a clear and systematic way Students and clinicians alike will find the theoretical overview sections of each chapter clear and easy to follow and each chapter s thorough descriptions of effective practical interventions will give readers a strong sense of the connections between theory and practice

The Quick Theory Reference Guide Karin Jordan, 2007 Since the beginning of the concepts of family therapy mental health professionals have known that the family the system is a powerful source of support for change or a powerful force for resistance to change Some professionals work with individuals some with families and some with groups However all work with the context of the systems family group community country etc Students especially beginning students are overwhelmed and confused at the variety of approaches to working with clients Many programs introduce students to individual as well as systems concepts in the course of training Students need assistance in learning this variety of theories They need to be able to compare and contrast theories and techniques to determine when and where to utilise the best skills in order to facilitate client change Dr Karin Jordan has compiled a comprehensive text that enables the students to discover each theory as it is presented in its purist form The text is accessible yet the content provides comprehensive knowledge of each theory Dr Jordan has brought

together the master educators and clinicians in our fields to write about their particular expertise *Handbook of Serious Emotional Disturbance in Children and Adolescents* Diane T. Marsh, Mary A.
