book is a major new account of the most intensely creative years of Luther s career The Making of Martin Luther takes a provocative look at the intellectual emergence of one of the most original and influential minds of the sixteenth century Richard Rex traces how in a concentrated burst of creative energy in the few years surrounding his excommunication by Pope Leo X in 1521 this lecturer at an obscure German university developed a startling new interpretation of the Christian faith that brought to an end the dominance of the Catholic Church in Europe Luther s personal psychology and cultural context played their parts in the whirlwind of change he unleashed But for the man himself it was always about the ideas the truth and the Gospel Focusing on the most intensely important years of Luther s career Rex teases out the threads of his often paradoxical and counterintuitive ideas from the tangled thickets of his writings explaining their significance their

interconnections and the astonishing appeal they so rapidly developed Yet Rex also sets these ideas firmly in the context of Luther's personal life the cultural landscape that shaped him and the traditions of medieval Catholic thought from which his ideas burst forth Lucidly argued and elegantly written *The Making of Martin Luther* is a splendid work of intellectual history that renders Luther's earthshaking yet sometimes challenging ideas accessible to a new generation of readers
