Creation Myths Of America:

Creation Myths of Primitive America Karl Kroeber, 2002-11-05 The remarkably accurate original translations of Native American myths from one of 19th century America's foremost linguists Native American mythology shows vestiges of religious concepts already old when the Egyptians evolved their form of worship This volume offers an unusual collection of myths from two Native American cultures the Wintu and Yana recorded and translated in the 1880s by Jeremiah Curtin one of the outstanding American linguists of the later 19th century Because Curtin sought out storytellers who were not influenced by other cultures his translations offer remarkably accurate accounts of the fundamental beliefs of Native Americans In his introduction Curtin explains the profound antiquity of these myths of creation which preserve some of the earliest religious expression He also provides an unflinching account of the appalling genocidal attacks on the peaceful Yana by white Californians in the 1860s Because the Yana became extinct Curtin's rendering of some of their important myths is an especially valuable contribution to contemporary understanding of Native American mythology

Creation Myths of Primitive America Jeremiah Curtin, 2014-02 THE creation myths of America form a complete system they give a detailed and circumstantial account of the origin of this world and of all things and creatures contained in it In the course of the various narratives which compose this myth system an earlier world is described to us with an order of existence and a method of conduct on which the life of primitive man in America was patterned That earlier world had two periods of duration one of complete and perfect harmony another of violence collision and conflict The result and outcome of the second period was the creation of all that is animated on earth except man Man in the American scheme of creation stands apart and separate he is quite alone peculiar and special Above all he belongs to this continent The white man was unknown to American myth makers as were also men of every other race and of every region outside of the Western Hemisphere Described briefly and by an Indian the American myth system is as follows There was a world before this one in which we are living at present that was the world of the first people who were different from us altogether Those people were very numerous so numerous that if a count could be made of all the stars in the sky all the feathers on birds all the hairs and fur on animals all the hairs of our own heads they would not be so numerous as the first people

Creation Myths of Primitive America Jeremiah Curtin, 2022-09-04 In *Creation Myths of Primitive America* Jeremiah Curtin transcends mere collection to interweave a rich tapestry of indigenous cosmogonies His exploration into the dawn narratives of Native American tribes captures both the primal pulse of mythology and its evolution within the collective psyche of diverse cultures His literary craftsmanship renders each tale with meticulous respect and scholarly detail placing them within the wider canvas of religious history and humanity's intellectual ascent Delicate in its portrayal of ancient beliefs and formidable in its anthological scope Curtin's work is a benchmark of ethno literary studies that resonates with echoes of the timeless quest for understanding the origins of existence Jeremiah Curtin was a man notably steeped in the lore of language and mythology his

life's work dedicated to the intersection of culture and narrative. An ardent ethnographer and philologist, Curtin's passion for capturing the oral traditions of ethnic groups led him through a labyrinth of languages and lore culminating in this compendium of creation myths. The seeds of this book were sown from his broader objectives to reveal the universality of mankind's myth-making impulse and to showcase the peculiar beauty inherent to each cultural representation of the genesis of life. *Recreation Myths of Primitive America* beckons to the connoisseurs of myth, the students of anthropology and the lovers of literature alike. Curtin's masterwork serves not only as a bridge to a past where stories were the sinews of culture but also as a mirror reflecting our enduring fascination with the question of our beginnings. To engage with this volume is to walk in the footsteps of humanity's most ancient philosophers, caretakers of the questions that have moved us since time immemorial. This seminal collection is an essential addition to the bookshelf of anyone seeking to comprehend the rich and varied tapestry of human thought as expressed through the sacred art of storytelling.

American Indian Creation Myths Teresa Pijoan PhD, 2012-07-25 Myths tell us much about a people. And all cultures have creation myths. The myths collected by the author in this book tell us about the rich and varied lives and imagination of the first Americans. They vary from simple to complex and all attempt to answer the question of human origin. Native Americans are of profound beginnings. Each Tribe, Group, or Pueblo holds their beginning to be truths unique from one another. The beliefs in this book are only a sampling of the many that still exist today. In collecting these tales, the author says no tape recorder was used and no notes were taken during the telling. Immediately after the session, copious notes were taken and later expanded into a recreation of the myth. Subjects were located through word of mouth and after a short time, people started coming forward and volunteering their stories. The people hold the stories. May they continue to tell and share with their families, communities, and the outsiders. We have much to learn from Creation from each other and from the holders of the stories.

TERESA PIJOAN was raised on the San Juan Pueblo Indian Reservation in New Mexico and later her family moved to the Nambe Indian Reservation. She is a national lecturer, storyteller, research writer, college professor, and teacher. She has lectured throughout Central Europe, Mexico, and the United States. Creation Myths of Primitive America In relation to the Religious History and Mental Development of Mankind Jeremiah Curtin, 2020-09-28 The American creation myths as far as we know them form simply a series of accounts of the conflicts happenings and various methods by which the first world was changed into the world now existing This change was effected in various ways In the myths of certain tribes or nations it is mainly by struggles between hostile personages One god of great power and character overcomes a vast number of opponents and changes each into some beast bird plant or insect but always the resultant beast or other creature corresponds in some power of mind or in some leading quality of character with the god from whose position it has fallen In certain single cases opponents are closely matched they are nearly equal in combat the struggle between them is long uncertain and difficult At last when one side is triumphant the victor says Hereafter you will be nothing but a and he tells what the vanquished is to be But at this point the vanquished turns on the victor and sends his retort like a Parthian arrow You will be nothing but a and he declares what his enemy is to be The metamorphosis takes place immediately on both sides and each departs in the form which the enemy seemed to impose but which really belonged to him There are cases in which the hero transforms numerous and mighty enemies indirectly through a special wish which he possesses For example a certain myth hero brings it about that a large company of the first people are invited to a feast and while all are eating with great relish he slips out unnoted walks around the house and utters as he goes the magic formula I wish the walls of this house to be flint the roof also Next moment the whole house is flint walled the roof is flint also After that he says I wish this house to be red hot It is red hot immediately His enemies inside are in a dreadful predicament they rush about wildly they roar they look for an opening there is none they see no escape they find no issue Their heads burst from heat Out of one head

springs an owl and flies away through the smoke hole out of another a buzzard which escapes through the same place out of the third comes a hawk which follows the other two out of a fourth some other bird Thus the action continues till every head in the flint house bursts open and lets out its occupant All fly away and thus the whole company is metamorphosed Each turns into that which his qualities called for which his nature demanded he becomes outwardly and visibly that which before he had been internally and in secret
