The Voice of Creation J. Hudson Mitchell, 2016-02-16 This book is a compendium of insights from sermons and books of great preachers of the Word of God It illuminates how God created the world in six days following His blueprint It reveals that man is created in the image of God It explains the significance of the nation of Israel in God s divine program It discloses the origin and effect of sin on all of humanity It disputes the atheistic opinions of the existence of God It concludes with the fulfillment of God s plan as the King of Kings of the combined heaven and earth in the New Jerusalem This book was written with the guidance of the Holy Spirit to bring some light to this darkening world As Perry Como s song goes It is better to light just one little candle than to stumble in the dark

Origins Derrick McCarter, 2015-12-10 The creation story has been hijacked The subtle deceptions of the Serpent have caused skeptics and even believers to look upon the opening chapters of Genesis with a cynical eye As a result many believe that Earth is a cosmic accident and that humanity is merely a product of time matter and chance However Derrick McCarter counters the critics of the Bible with powerful new evidence from the world of astronomy microbiology and physics which all point to the undeniable fact that we are here by Divine design In *Origins* you will be challenged with fascinating information that confirms Genesis 1:1 and following Content Includes Deep space discoveries which reveal the first moments of creation Wonders of the universe which point to a super intelligent Creator The reason why evil and suffering entered the world DNA the language of God The amazing ingenuity of Noah s Ark

God's Existence: Truth or Fiction? The Answer Revealed Gary R. Lindberg, 2021-03-04 God s Existence Truth or Fiction The Answer Revealed By Gary R Lindberg Studying the existence of God Lindberg takes a different approach by

investigating science as well as Christian research Lindberg s unique approach suggests that both science and the Bible were created by God and as a result the two say the same thing Lindberg s message will show that science itself proves the existence of God because of the evidence presented

Evolution or Creation? Albert J. DeBenedictis, 2011-08-26 Have you ever wondered how the universe originated or whether the universe always existed Have you ever wondered how life began on earth Have you ever heard others discuss origins but felt unable to contribute to the conversation Would you like to defend your views but feel unequipped or inadequate to do so Are you unsure about what to believe Would you like to learn more about the subject of origins If so this book will be a help to you The subject of evolution and creation often causes much contention and controversy The question that may be asked is Why is there so much tension and animosity between those who hold to opposing views regarding the subject of origins Others may ask What do those of opposing views base their beliefs upon Is there any reconciling of the different views The differences I believe in part are due to ones perceptions regarding science and theology This book is not about Christians versus atheists This book is more about creation versus evolution than about Creationism versus Evolutionism This book is about comparing various views opinions and evidence related to evolution and creation Some of the information being presented may be new to you and may take some time to digest Evolutionists generally view creation in the same way that creationists generally view evolution Opposing views are rarely taken seriously as they are a contradiction to ones own bias Whatever your current views are regarding the origins of the universe and life or level of knowledge of origins this book is about considering various sides of the issue of evolution In this book we will be comparing the evidence and arguments and then weighing the pros and cons in an attempt to determine the validity of each view You will however be left to make your own decisions about each subject that is presented This book may either strengthen your current views of origins or may cause you to re think what you currently believe about origins Whatever your views are regarding the origins of the universe and life this book is about considering various sides of the issue of evolution In this book the evidence and arguments will be presented for the reader to determine the validity of each view Subjects such as the origin of the universe the age of the universe the fossil evidence the possibilities of a global flood the origins of life Stanley Millers Experiment of 1953 the fossils in the strata of the earth the components of evolution Natural Selection Adaptation Mutations Speciation and Genetic Drift Punctuated Equilibrium Haeckels Embryos and Recapitulation Vestiges Pseudogenes Biological Complexity and Intelligent Design Comparing biological similarities and differences between Chimpanzee and human genome Comparing the Human and Ape Fossil Evidence will be examined Multiple top resources of various professions have been included in this book to provide information on the many different subjects discussed Although this book is an in depth study of evolution it was written on the level so that the average teenager or adult will be able to understand what is being presented Difficult words and terms are explained so that you will not need to consult a dictionary every time an unknown word or term appears I attempted to present the subject matter on a

level that most people will be able to easily understand The various views and arguments are presented in a manner similar to having a debate The aim of this book is to help either strengthen your current views of origins or cause you to re think what you currently believe It is hoped that at least you will develop a better appreciation for the opposing views and will better understand why those who believe in the opposing views believe as they do I sincerely hope that this book will be beneficial to you whether you are se

The Numerical Structure of the Holy Bible Charles Stockford Jr.,2016-12-22 Most Bible students are aware of the use of numbers in scripture The number 7 is a prime example with its connotations of perfection and completeness The study of numbers as used in the Bible is infrequent and the Lord s people therefore miss some of that which is profitable for correction and instruction in the Word of God This volume goes a long way toward correcting the deficiency by providing a great introduction to the subject and showing that these patterns provide proof of the completeness and inspiration of the Holy Scriptures The reader will find profit as well as inspiration from this intriguing study

God Marty Williamson,Bobby Linkous,2008-05 Williamson and Linkous present a 40 day theological study on the topic of whoGod is

Hearing God's Voice Vern Heidebrecht,2010-01-01 We all know we ought to be listening to the voice of God but how do we hear it Hearing God s Voice identifies ways in which God speaks to his people This book will introduce you to a simple yet profound way of recording your walk with God and how to recognize God s wonders and miracles in your life Eight helpful principles will show you how you can test whether you are hearing the voice of God or simply responding to thoughts and circumstances in which you find yourself And having heard God s voice you ll find yourself entering each day with new radiance and God given confidence

Nietzsche Was Probably Right: A Postcritical Assessment of the Christian Paradigm and Its Deity Steven Malinak,2014-07-13 For a variety of reasons recent literature that focuses on the rationality of belief in God and the viability of the Christian worldview fails to stimulate critical thinking in the general population of believers Nietzsche Was Probably Right succeeds where many of these other works miss the mark It educates rather than coerces it focuses on issues critically relevant to the vast majority of Christians most importantly it does not preach to the choir but instead offers a balanced objective comprehensive overview of the issues Its tone and inclusive unbiased approach welcomes nonbelievers and believers into this important conversation offering a perspective that will satisfy anyone seeking a critical understanding of the Christian faith and its deity

The Greatness of God Charles Frank Thompson,2016-02-08 With each passing day our world seems to drift further and further away from the God of the Bible divine creation and Christian belief This societal shift toward postmodernism and secularism is not a new development however the expanding and intensifying revolt against the biblical God and Christianity traces its roots back to the modern philosophies of the Enlightenment and Romanticism which have given rise to many divergent views during the past three centuries and become even more extreme in recent postmodernism The Greatness of God How God Is the Foundation of All Reality Truth Love Goodness Beauty and Purpose stands as an intellectual counterweight to the prevailing winds of a secular postmodern world

Author Charles Frank Thompson argues that the consequences of this rejection of God and divine creation have not been benign. He traces the modern revolution in detail and describes its deleterious consequences including the loss of the ultimate basis for universal truth, knowledge, meaning, and purpose. In *The Greatness of God*, Thompson explores a wide range of topics including Christian theology, metaphysical philosophy, and an analysis of modern thought and art. He examines the rich history of Christian poetry, prose, and art, and takes a look at recent scientific discoveries that help us understand Christian teachings about God's creation. He concludes with an exploration of the millennium, the eternal kingdom of God, and the spiritual state of America and Europe today.

God Did It Durwood B. Hatch, 2010-06 Have you been looking for a scientific resource that wasn't afraid to admit the truth, whatever that truth might be? Have you been searching for someone knowledgeable about cosmology and biology, yet still a believer in the God of the Bible? In *God Did It*, author Durwood Hatch offers readers a fair-minded approach to the sciences. Why do so many begin scientific inquiry with assumptions that have no grounds? With an emphasis on cosmology and biology, Durwood candidly discusses the errors inherent in current scientific worldviews. With a keen understanding of the sciences, he offers clear and innovative answers to some of science's most difficult problems. By not dismissing the idea of God before he begins, he shows readers many deep questions in science that overwhelmingly point to an intelligent designer. Find out more about red shifts, distance triangulation techniques, microwave radiation, evolutionary biology, important legal cases regarding science, and more.

Does God Still Want Me? Gord Mann, 2012-01-17 Gord has been concerned by the stagnation of people that claim to have a relationship with God. Many people are spinning their wheels or playing church without knowing it. *Does God still want me* is a book that will open your eyes to the truth of finding and walking with God. God wants to direct your heart so that your desire will be to focus on people. For an example, your heart will be burdened for your friends, your neighbors, your school friends, fellow employees, and even the suffering people in the world.

The KODA Religion Ama K. H. Tokan, 2025-07-10 The KODA Religion embodies the esteemed teachings of the Lamaholot ancestors, centered on the belief in Alapet Rera Wulan Tana Ekan, the Divine. This indigenous faith system elucidates the intricate relationships between humanity and the Divine, among individuals and between humanity and the entire cosmos and its contents. This ancient and unique belief system is adhered to by the Ata Lamaholot people and has been passed down through generations via koda. These oral traditions consist of sequences of words and sentences that convey messages and profound wisdom. Consequently, the Lamaholot community lives by the principle of moripet di koda, matanet di koda, signifying that their lives and deaths are intrinsically guided by the koda.

God Is! A. Arthur Pinno, 2011 GOD IS why evolution isn't demonstrates how the nature character of GOD is the death knell to the modern mythology of evolution, as it is to all human mythologies. There is much confusion among Christians and the general public regarding creation and evolution, and what each implies about the nature of GOD. This book by A. Arthur Pinno seeks to bring Biblical clarity to many of the questions that people have in this area. Does the universe testify to the

glory of GOD Is GOD s signature found in every cell GOD vs Nothing Where do you think everything came from Are humans mutated apes How does dinosaur blood reveal a young earth How does the relativity of time impact the age of the universe Is evolution a massive worldwide conspiracy of scientists Is theistic evolution a bridge between Christianity and science What are the basic assumptions of evolution What are the fruits of the evolutionary tree Were Adam and Eve real people What did JESUS believe about creation and the flood Who is GOD and how can anyone actually know Him Could a GOD of love create hell A Arthur Pinno is the director of Ends of the Earth Courier for CHRIST a ministry dedicated to sharing the grace and truth of CHRIST in word and deed in Canada Russia India Burundi and other ends of the earth where GOD leads He has been a pastor for over twenty five years serving in both Canada and the United States For the past six years he has also served as president of the Association of Free Lutheran Congregations Canada He and his wife Dorothy have been blessed with four children and presently live in Vernon British Columbia Canada **Light at the End of the Tunnel** Paul Hellyer,2010 Argues that the human species is headed for extinction in the near future and presents three principal elements the author believes are needed to put the Earth on the road to recovery including the availability of reliable sources of energy to replace fossil fuels a world culture of cooperation and a monetary and banking system that gives government the financial flexibility to make the transition from an oil economy to something quite different **Hitting the Wall** David Payne,2011 Hitting the Wall is an inevitable component of the passage of life and a necessary ingredient in the journey of faith Each wall is unique and embraces such words as brokenness and pain But each wall carries the potential of positive change in your life When life stops working and you lie broken and confused at the wall this book will open your heart to a profound hope in a loving all knowing God Hitting the Wall will open up a new perspective that will empower you to begin to move forward again There is usually no quick fix for the wall Rather you have to begin a slow steady growth over it This book will nourish that growth Many words describe David Payne Husband Father Grandparent Pastor Teacher Historian David brings with him thirty four years of pastoral experience He is the lead and founding pastor of The Campus a growing multi site church in Aurora Ontario He has pastored this same church for twenty six years David draws from his own personal journey to the wall He recounts authentic stories of woundedness and recovery that will resonate with you You will walk in the footsteps of biblical characters and vividly encounter their walls with them David draws from a lifetime of Bible study as well as extensive travel in biblical lands studying the sites people and culture He shares insights and perspective that will help you along your faith journey when you hit that inevitable wall A must read Thanks to David Payne for providing compassionate insight into the amazing ways God uses the walls of human failure and brokenness for His glory Hitting the Wall will breathe grace and hope into the weary hearts of Christians who are immobilized with brokenness and confusion Amy Shelor editor *Find Your Peace* Rodica Malos,2020 Your best prescription goes beyond science This book will help transform your way of thinking and give you tools to change your life and even your eternity It will help you cope with stress and others and change the world

Intelligent Design: The Witness of Creation Series Volume One Billy Crone, 2017-10-05 Over ninety years ago the Scopes Monkey trial seemed to become the driving force where evolutionary teachings were eventually put into our schools and prayer and Bible reading were taken out At this time the evolutionists claimed that Biblical Creationists were being intellectually bigoted by excluding evolutionary teachings But now we actually have this premise in reverse Evolutionists truly are being intellectually bigoted by excluding the scientific facts of Biblical Creationism Therefore the stage is once again set to for the battle of our origins and our minds Some are even calling it the modern day Scopes Monkey trial It s the battle over Intelligent Design Therefore this book *Intelligent Design* takes a look at the hardcore scientific data that logically reveals how all of life was intelligently designed implying an Intelligent Designer namely God

In Defense of Religious Moderation William Egginton, 2011 William Egginton laments the current debate over religion in America in which religious fundamentalists have set the tone of political discourse no one can get elected without advertising a personal relation to God for example and prominent atheists treat religious belief as the root of all evil Neither of these positions Egginton argues adequately represents the attitudes of a majority of Americans who while identifying as Christian Jewish or Muslim do not find fault with those who support different faiths and philosophies In fact Egginton goes so far as to question whether fundamentalists and atheists truly oppose each other united as they are in their commitment to a code of codes Fundamentalists and stringent atheists unconsciously believe that the methods we use to understand the world are all versions of an underlying master code This code of codes represents an ultimate truth explaining everything The moderately religious with their inherent skepticism toward a master code are best suited to protect science politics and other diverse strains of knowledge from fundamentalist attack and to promote a worldview based on the compatibility between religious faith and scientific method
