New perspectives in the study of group dynamics Irene Messina,Cristina Marogna,Sigmund Wiggen Karterud,2023-03-03 *Organization Management - Dynamic Creative Team Coordination* Stavros Georgiades,2022-05-19 This open access book through an in depth process study of the interactions of two creative groups film production crew in temporary organizations during two media projects explores how a team developmental process unfolds and proposes a model illustrating how the groups repeatedly change formation so that individuals can manage job interdependencies and new issues arising while developing building up and synthesizing new ideas into a final creative solution This theory on creative group dynamic coordination builds theory on how and why creative groups coordinate challenges assumptions about the role of formal structures and informal practices by demonstrating how the two dynamically interact and complement each other to facilitate coordination via the emergence of what one would expect to be un coordinated methods and provides an alternative perspective to the stages the groups have to go through by emphasizing a cyclical and not a linear team developmental process

Multidisciplinary Perspectives on Team Sports:

Contextualizing Training and Competition Demands Miguel-Angel Gomez-Ruano, Pierpaolo Sansone, Vincenzo Rago, 2024-12-04 Team sports performance is determined by the complex non linear interaction of several factors including physical and physiological aspects technical tactical constraints mental demands perceptual and emotional aspects and contextual and environmental factors The influence of each of these aspects has been previously investigated However studies have often employed monodimensional perspectives looking at one or only a few different domains concurrently In football and rugby extensive efforts have been produced to contextualize the demands of training and competition based on players characteristics tactical constraints and contextual factors This information facilitates coaches in selecting the most appropriate training and competition strategies based on a number of different factors including the team and the opponents characteristics technical tactical abilities fitness status and considering contextual factors Differently there is a lack of information on contextualized competition demands in other team sports such as basketball handball futsal and volleyball Furthermore the mental demands and psychological and emotional implications of team sports have received little or monodimensional attention limiting the applicability of findings in real life scenarios where a multitude of factors belonging to different disciplines e g physiology psychology training science social sciences need to be taken into account
