Creative Approaches In Foreign Language Teaching:

Creative Teaching, Sustainable Learning Ulrike Sievers, 2017-11-09 There are many books on foreign language teaching this book is different because it focuses on the learner and the learning process It starts from the social nature of interactive learning and locates learning in a community of learners one of whom is the teacher The conditions for lasting learning in the foreign language are the basis for the teaching methods These aim to provide a rich and shared learning context offer individualised support and scaffolding for learning and make the language the medium for learning what learners are interested in as developing persons It makes teachers into reflective researchers of their practice thus ensuring that teaching is an art a craft and a science The best learning occurs when teachers can read the effects of their teaching on the learning behaviour of the pupils and are able to adapt their approach to be inclusive of all learning types The approach carefully developed in this book takes foreign language teaching and learning to a new level Without losing touch with its origins in Waldorf pedagogy it also draws on contemporary learning theory Above all it is an authentic account of the learning journey of a committed and caring teacher

International Perspectives on Creativity in the Foreign Language Classrooms Isaak Papadopoulos, Eleni Griva, Evgenia Theodotou, 2020 The book titled International Perspectives on Creativity in the Foreign Language Classrooms

aspires to provide a reflective and descriptive account of creative practices as well as research related to creativity from an international perspective. In particular, through a collection of 12 studies conducted in various countries and continents, an attempt is made to provide readers with creative examples of teaching practice and research incentives as proposed and presented by the authors of this collected edition. The contributors of this book report and reflect on classroom practices that increase motivation, promote creative learning, heighten learners' creativity, enhance their learning potential, and their multicultural sensitivity. They discuss challenges of applications in diverse contexts based on playful activities and stories that develop a creative learning environment in a foreign language classroom. Some other studies focus on multiple intelligences theory, approach making students know and apply the appropriate behaviour, and they present creative ways and multisensory approaches of approaching dyslexic students in a language classroom. The authors provide perspectives from different angles on the above mentioned issues, demonstrating that multiliteracies practices, games, different art forms, popular culture texts, digital storytelling, and interactive activities could be effective tools in foreign language learning.
