Drei Manner Im Schnee:

Drei Männer im Schnee Erich Kästner, 1934 *Das verschwiegene Werk* Stefan Neuhaus, 2000 **Erich Kästner,**
Moralist mit doppeltem Boden Andreas Drouve, 1999 **Klang der Berge?** L. Roman Duffner, Thomas
Krettenauer, Carolin Stahrenberg, 2025 Seit der späten Neuzeit stellen die Alpen einen Anziehungspunkt für
Erholungssuchende und sportliche Extremleistungen dar. Sie gelten als verkörperter Ort des einfachen und harten Lebens, der
physischen Herausforderung, aber auch als Sinnbild für das Unberührte, Berührende und Ursprüngliche. Mit der touristischen
Erschließung der Alpen etablierten sich diese mitsamt ihrer vielfältigen Zuschreibungen auch als Schauplatz auf
Musiktheaterbühnen und in Musikfilmen, wobei ihnen aufgrund von fremd anmutenden Traditionen und
sprachlich-musikalischen Idiomen oft auch etwas Exotisches anhaftete. Der vorliegende Sammelband behandelt diese
Verarbeitung des Alpen-Topos aus zwei Perspektiven. Zum einen werden weniger bekannte Bühnenwerke wie Operetten und
Musicals hinsichtlich alpiner Lebens- und Erfahrungswelten analysiert. Zum anderen richtet sich der Blick auf Themen und
Inszenierungsformen von Musikfilmen, in denen das Alpine in bildklangliche Narrationen eingeflochten wurde oder der
alpine Raum den Handlungsort darstellt. Dabei werden auch transmediale Prozesse zwischen Textvorlage, Bühnenwerk und
Film berücksichtigt. Abgerundet wird diese Auseinandersetzung durch Einblicke in Praxiserfahrungen von Ausbildungs- und
Spielstätten, die sich im voralpinen Raum befinden. [The Complete Index to Literary Sources in Film](#) Alan

The History of German Literature on Film Christiane

Schönfeld, 2023-06-15 A 2024 CHOICE OUTSTANDING ACADEMIC TITLE This book tells the story of German language literature on film beginning with pioneering motion picture adaptations of Faust in 1897 and early debates focused on high art as mass culture It explores analyzes and contextualizes the so called golden age of silent cinema in the 1920s the impact of sound on adaptation practices the abuse of literary heritage by Nazi filmmakers and traces the role of German language literature in exile and postwar films across ideological boundaries in divided Germany in New German Cinema and in remakes and movies for cinema as well as television and streaming services in the 21st century Having provided the narrative core to thousands of films since the late 19th century many of German cinema's most influential masterpieces were inspired by canonical texts popular plays and even children's literature Not being restricted to German adaptations however this book also traces the role of literature originally written in German in international film productions which sheds light on the interrelation between cinema and key historical events It outlines how processes of adaptation are shaped by global catastrophes and the emergence of nations by materialist conditions liberal economies and capitalist imperatives political agendas the mobility of individuals and sometimes by the desire to create reflective surfaces and perhaps even art Commercial cinema's adaptation practices have foregrounded economic interest but numerous filmmakers throughout cinema history have turned to German language literature not simply to entertain but as a creative contribution to the public sphere marking adaptation practice at least potentially as a form of active citizenship
