Mental Illness and Neuropsychiatry of the Homeless: Psychosis, Personality, Drug Abuse, and Other Brain Disorders João Gama Marques,Joana

Henriques-Calado ,Martin M. Schumacher,2024-07-12 Homeless people with mental disorders and neuropsychiatric diseases are ubiquitous in space and time in mankind s history Psychosis personality disorders drug abuse and other brain illnesses represent a true challenge to medicine and society Homeless people could be indeed brought to the attention of marontology an unborn specialty of medicine already suggested after the Greek word marontos which means unwanted Homelessness is one of the most critically important issues of the contemporaneous world without a solution in sight so more research in areas such as psychiatry psychology and human neuroscience is needed for a better understanding of the phenomenon

The Human Context Paul A. Senft,2013-03-14 **U.S. Environmental Protection Agency Library System Book Catalog Holdings as of July 1973** United States. Environmental Protection Agency. Library Systems Branch,1974 *NIH Library Booklist* ,1968 Early Identification of Children at Risk R.N. Emde,W.K. Frankenburg,J. Sullivan,2013-12-01 This volume contains contributions that are interdisciplinary and inter national The editors believe this is an especially timely and promising enterprise for both sources of diversity are needed for improving our abilities to identify the young child at risk and to prevent disability In terms of diSciplines the volume brings together papers by health care providers such as pediatricians and public health nurses as well as educators and psychologists Each of these groups works in dissimilar settings and faces dissimilar problems Health care providers seek sim ple identification procedures for use in busy primary care settings psy chologists emphasize well constructed research designs and educators reflect the need for early identification and education Each of these spe cialist groups has something to offer the other but too often each tends to limit its publications and readings to its own discipline thus failing to capitalize on a wider scope of knowledge and practice We hope that this selection of papers will allow all readers addressing the early iden tification of children at risk to generate a more integrated interdiscipli nary perspective We also hope this volume reflects the sense of excitement that we feel from a sharing of international perspectives There is no single ap proach to the early identification of children at risk that is

universally applicable to all countries In addition approaches within each country vary because of availability of financial and human resources and differing expectations of local communities *Marxism in a Lost Century* Gary Roth, 2014-12-22

Marxism in a Lost Century retells the history of the radical left during the twentieth century through the words and deeds of Paul Mattick An adolescent during the German revolutions that followed World War I he was also a recent migr to the United States during the 1930s Great Depression when the unemployed groups in which he participated were among the most dynamic manifestations of social unrest Three biographical themes receive special attention the self taught nature of left wing activity Mattick s experiences with publishing and the nexus of men politics and friendship Mattick found a wide audience during the 1960s because of his emphasis on the economy s dysfunctional aspects and his advocacy of workplace councils a popularity mirrored in the cyclical nature of the global economy Looking Back to See Ahead Helen Harris Perlman, 1989-10-02 In over sixty years of involvement in social work as practitioner supervisor teacher consultant and author Helen Harris Perlman has become all but a legend She has served on national policy committees lectured around the world and participated in pioneering social work programs and research Her wide ranging experiences enrich her vision of the social work profession typically she is able to see the forest and the trees Grounded in psychodynamic and social theory lucid forthright and compassionate her writings serve to inspire and guide experienced practitioners teachers and present day students Looking Back to See Ahead offers pieces chosen for their centrality to Perlman s thinking on some of the major problems of social work practice and education To each essay she has added her current informal comments Refreshingly original is the section After Hours in which she captures in sketches and verse the humor and heartache that are inevitable in any profession that deals with hurt and troubled people **Social Work Practice** Carel B. Germain, 1979 Social Work Practice People and Environments advances a theory that embraces every aspect of the field that the psychosocial distress social workers must alleviate can most usefully be seen as an inharmonious fit between the individual or group and the physical and social environments This ecological viewpoint is gaining wide acceptance not only in social work but also in the academic disciplines and in the human service professions of psychiatry nursing education and psychology As a comprehensive guide to the ecological viewpoint Social Work Practice can serve as a basic text for graduate and undergraduate courses in social work practice Carel B Germain and the fourteen contributors to this volume contend that social work practice comprises two complementary functions These are to help clients develop their capacities for growth and adaptation and to help them reshape their environment for a better fit with their needs and aspirations Fourteen case studies illustrate the application of the ecological view in health mental health and child welfare settings and in work with families the aged and delinquent youth Psychodynamics of Drug Dependence National Institute on Drug Abuse.
