Reclaiming Modernity Larry Bennett, 2025-02-25 Why do we seek to return to the past or rescue pieces of the past that may have value in the present Why does nostalgia attach to an approach to the world social rules and material products that willfully rejected the past Larry Bennett explores the complexities of nostalgia with considerations of the historic preservation of brutalist architecture specifically Bertrand Goldberg's Prentice Women's Hospital in Chicago the memoirs and recollections of early and mid twentieth century Brooklyn and Detroit and the turntable's rebirth as a musical instrument alongside the vinyl LP's resurgence as a prized way of consuming music Bennett tracks modernity as expressed through ideas artistic products and widespread social practices His consideration of nostalgia focuses on our inclination to

rediscover value in people places and social habits diminished by the passage of time Provocative and multidisciplinary Reclaiming Modernity delves into the paradox of how we feel nostalgia for ideas and times that emerged from an impulse to shun nostalgia *Autobiography of Thomas Guthrie, D.D. and Memoir* Thomas Guthrie,David Kelley Guthrie, Lord Charles John Guthrie Guthrie,1877 *Psychotherapy for the Treatment of Substance Abuse* Marc Galanter,Herbert D. Kleber,2011 In *Psychotherapy for the Treatment of Substance Abuse* leading authorities on substance abuse treatment techniques review and illustrate the most common interventions for opioid related and alcohol related substance abuse disorders as well as crucial methodologies for testing and patient placement Methods reviewed include self help fellowships such as Alcoholics Anonymous cognitive behavioral and psychodynamic treatments motivational enhancement group and family therapy contingency management and the multimodal approach called Network Therapy which recruits the support of friends and family to prompt abstinence and prevent relapse Each chapter includes vivid case studies to illustrate the approach described as well as a review of the key clinical concepts and a list of essential readings Adapting a new clinically focused manual from their popular American Psychiatric Publishing Textbook of Substance Abuse Treatment now in its fourth edition Dr Galanter and Dr Kleber have designed *Psychotherapy for the Treatment of Substance Abuse* to be of practical application to both experienced clinicians and those new to the field The accompanying DVD demonstrates Network Therapy in practice and includes enlightening commentary on key issues that are relevant across the many modalities of substance abuse treatment discussed in the book *Getting Wasted* Thomas Vander Ven,2011 Vander Ven argues that college students rely on drunk support Contrary to most accounts of alcohol abuse as being a solitary problem of one person drinking to excess the college drinking scene is very much a social one where students support one another through nights of drinking games rituals and rites of passage *The Rockies in First Person* Ron McFarland,2014-01-10 The autobiography has not always been acknowledged as true literature Since 1970 however American memoirs have revealed themselves as a respectable literary genre distinct with an inimitable literary voice and a unique capacity to intersect narration and reflection This study focuses critical attention on ten memoirs from the northern U S Rockies including Utah Colorado Wyoming Montana and Idaho By comparing memoirs representing states that share similar demographic ecological and socio economic characteristics this historic and literary analysis reveals both commonalities and divergences among American Western memoirs Each chapter compares two books of similar thematic concerns ranging from regional values and rural evolution to dynamic landscapes and the experiences of American Indians *Addiction and Virtue* Kent Dunnington,2011-07-26 In this interdisciplinary work Kent Dunnington brings the neglected resources of philosophical and theological analysis to bear on the problem of addiction Drawing on the insights of Aristotle and Thomas Aquinas he formulates a compelling alternative to the two dominant models of addiction addiction as disease and addiction as choice *What Would You Do Alone in a Cage with Nothing But Cocaine?* Hanna Pickard,2026-01-06 A revolutionary new paradigm for understanding addiction Why do

people with addiction use drugs self destructively Why don t they quit out of self concern Why does the rat in the experiment alone in a cage press the lever again and again for cocaine to the point of death In this pathbreaking book Hanna Pickard proposes a new paradigm for understanding the puzzle of addiction For too long our thinking has been hostage to a false dichotomy either addiction is a brain disease or it is a moral failing Pickard argues that it is neither and that both models stifle addiction research and fail people who need help Drawing on her expertise as an academic philosopher and her clinical work in a therapeutic community Pickard explores the meaning of drugs for people with addiction and the diverse factors that keep them using despite the costs People use drugs to cope with suffering but also to self harm or even to die Some identify as addicts while others are in denial or struggle with cravings and self control Social cultural and economic circumstances are crucial to explaining addiction but brain pathology may also matter By integrating addiction science with philosophy clinical practice and the psychology and voices of people with addiction themselves Pickard shows why there is no one size fits all theory or ethics of addiction The result is a heterogeneous and humanistic paradigm for understanding and treating addiction and a fresh way of thinking about responsibility blame and relationships with people who use drugs
