Norbert Haukenfrers, 2016-05-09 Fire Water and Wind explores the forming of a healthy sense of personal identity The impetus for Fire Water and Wind was the observation that people are searching for meaning and identity are dissatisfied with their current situations and many are actively seeking escape from their current life experiences This is evidenced by the number of people involved in high risk activities be it drug or alcohol abuse gambling prostitution multiple sex partners smoking or violent crimes But does it have to be this way Following the finding in the fields of psychology and neuroscience that narrative plays a key role within the context of identity formation Fire Water and Wind offers an understanding of identity formation that is grounded in the biblical narrative that enables and equips one to face the varied challenges of life Concluding that a narrative understanding of one's identity and ongoing formation as a follower of Jesus incorporates an integration of heart and mind body and soul that requires the nurturing of a biblical imagination and unconscious looking at the signs symbols and metaphors encouraging one's life wholly alive Enabling one to answer the What should I live for question The Addicted Lawyer Brian Cuban, 2017-08-29 Brian Cuban was living a lie With a famous last name and a

Drug Addiction Treatment Yulia Basharova, 2025-01-30
Annotation This book provides detailed instructions on how to get a patient to treat you Voluntary compulsory using pressure and leverage We will explain to you specifically what to do what to say how to respond to any manipulation by the patient Examples of all the dialogues that take place between a drug addict denying the disease and his family are given The book is written from the words of a psychiatrist with 30 years of experience Maxim Malyavin This is the second book in the Self help guide for smart drug addicts series The series consists of three books The first book is about the nature of drug addiction and the psychology of patients The second is about how to treat and the third is lessons for home treatment This is not just a book it is a full fledged treatment at home independently The course is designed for 3 months of home isolation Our method guarantees recovery if you follow all the recommendations in the book and do not engage in amateur activities Drug addiction is definitely curable do not even doubt it And do not believe those who claim the opposite We offer a scientific working approach to treatment based on psychiatry There are no psychological guesses and unnecessary reasoning This book is psychotherapy in itself Reading it the patient recognizes himself in different situations and his self deception disappears he begins to think sensibly and a great desire to quit appears Quotes From the Book You don t know believe me If you did your addict would have quit as soon as he started using But if you couldn t stop him don t argue But this opinion is quite CONVENIENT for lay doctors who thanks to it have much greater chances for a positive treatment result And if in this case the result is negative you can always say Well that means he didn t really want By softening things up you won t help him You ll only be doing him a disservice and helping him deceive himself which means you ll just hurt him As long as there is AT LEAST ONE person in the family who covers for him and is susceptible to manipulation he will not quit drugs Don t under any circumstances bring in psychologists favorite tricks here such as personal boundaries desire to control he s an adult codependency etc This has absolutely nothing to do with your situation Your child is sick just as if he had contracted something else that was incompatible with life He is not his own master now and is not an adult at all chemistry is stronger than personality and reason Also do not believe those who claim that a drug addict must reach the bottom himself They say that he will then push off from it and swim out This is not so believe me Only a few emerge but tens of thousands go to the grave If we use common sense it becomes obvious that the role of parents in a child s drug addiction is generally insignificant

Neither the upbringing nor the environment of the child nor the moral climate in the family matter You have to try everything in life Seriously Then try poop Why not What did poop do to deserve not being on the list Or try changing your gender You haven't tried sex as a woman yet have you Try it You can also try jumping from the roof Some people fly from roofs You should know that drug addiction has an ugly face It is cruel merciless it will insult you with the worst words it will convince you of your madness it will spit on all the good that you try to do and will turn it over in the light of condemnation of you But if you've taken on a task don't say you can't handle it If you've started treatment and taken even one step there's no turning back You'll do harm And you'll confuse the sick person completely If you don't feel sorry for other people and the addict's comfort is more important to you then think about the fact that he can also crash and become disabled Are you sure that being bedridden for life after an accident he won't thank you for this disservice Or if he gets put in jail for a long time for hitting a person will you be happy Drug addicts are difficult people You need to learn to thoroughly understand their sick logic You need to be able to predict the motives of their actions and statements You must be stronger than them in knowledge of the subject You must be able to hit the ball of any of their manipulations You must not give in to provocations And you must have the levers of control over them But the end of this fairy tale is usually sad The addict breaks down within the first week as soon as he arrives home A couple of months at most And the parents realize that they have paid a million for hotel services and a couple of excursions It's a fact They think like that Their megalomania is a symptom of illness The loss of criticism is a symptom of illness What day are we talking about They have only one bottom the one that is two meters below in the ground They have no other bottom

All About Drug Addicts Yulia Basharova, 2025-01-30 Annotation This is not just a book it is a full fledged treatment at home independently and free of charge The course is designed for 3 months of home isolation Our method guarantees recovery if you follow all the recommendations in the book and do not engage in amateur activities Drug addiction is definitely curable do not even doubt it And do not believe those who claim the opposite This is the first book in the Self Help Guide for Smart Drug Addicts series The series consists of 3 books The first book is about the nature of drug addiction and the psychology of patients The second is about how to treat and the third is 120 lessons for home treatment We offer a scientific working approach to treatment based on psychiatry There are no psychological guesses and unnecessary reasoning The book is written from the words of psychiatrist Maxim Malyavin who has 30 years of experience working in a psychiatric hospital This book is psychotherapy in itself Reading it the patient recognizes himself in different situations and his self deception disappears he begins to think sensibly and a great desire to quit appears But Desire alone is not enough Therefore the book provides tools for relatives with the help of which they can force the patient to undergo treatment Voluntarily compulsorily Otherwise it is impossible with such patients Giving them the right to choose is tantamount to pushing them into the grave Drug addiction has an ugly face and you cannot believe everything you see and hear from a drug addict Almost every one of them is sure that everything is fine with them and they

can quit at any moment But it is not so If they could quit there would be no drug addicts and alcoholics We won't tell you that treating a drug addict at home is easy No it's difficult and exhausting But it's guaranteed to work The method has many conditions and restrictions For example organize home isolation get rid of your mobile phone provide yourself with a sober relative for control etc This is not just our whim it is really necessary and you must treat these moments very responsibly And the most important thing we want to convey to you Do not disown your children and spouses Be merciful This is a disease not a whim And this disease is treatable that's the main thing After treatment your relative will become the same as you remembered him before Quotes Therefore be reasonable And do not overestimate yourself By the way overestimating your strengths is what brought you to drug addiction Remember this Can you expect a patient with a disorder of desire to have a reasonable attitude towards his life The behavior of such patients is no different from that of patients who are delirious Alcoholics do not think about treatment until they have caused a lot of trouble with their own hands All means are justified for this purpose Sometimes it is necessary to contact the patient's boss sometimes it is necessary to involve his family It also makes sense to contact people who have authority for the patient colleagues friends A drug addict cannot be considered less dangerous than a person who has a venereal disease or is infected and there is a risk of infecting others In all these cases treatment is necessary which does not depend on the patient's decision If you ask any person who is not involved in drugs how he feels about drug addicts he will wrinkle his nose in disgust be surprised and say Not at all They don't concern me Drug addicts don't understand why society rejects them so much After all each of them as everyone knows is not at all like these losers And a drug addict almost never lies that's the worst thing When he promises something he's 100% sure that he'll do it He believes in it
