

Drugs and Crime

- Drug use has led to an increase in criminal activity ranging from abuse, corruption and murder.
- 50-75% of those arrested test positive for drugs
- Some credit the “get tough” approach to drugs and the increasing pressure on crack cocaine for the decrease of crime in the 1990s.

[An Economic Analysis of Alcohol, Drugs, and Violent Crime in the National Crime Victimization Survey](#) Sara Markowitz, 2000 The purpose of this paper is to examine the direct relationship between the prices of alcohol and drugs and the incidence of criminal violence in a nationally representative sample of individuals in the United States The positive association between substance use and violence is well documented as is the negative relationship between the quantity of alcohol or drugs consumed and their prices These two relationships together form the principal hypothesis examining whether increases in substance prices will directly decrease the incidence of criminal violence Violence is measured by assault rape sexual assault and robbery Measures of alcohol or drug involved violent crimes are also considered The data come from the 1992 1993 and 1994 National Crime Victimization Surveys A reduced form model is estimated in which the probability of being a victim of a violent crime is determined by the full prices of alcohol and illegal drugs the arrest rates for violent crimes and characteristics of the respondent Individual level fixed effects are also employed in some models Results from the preferred specifications indicate that higher beer taxes lead to a lower incidence of assault but not rape or robbery Higher beer taxes will also lead to lower probabilities of alcohol or drug involved assault Decriminalizing marijuana will result in a higher incidence of assault and robbery while higher cocaine prices will decrease these crimes

and behavioral scientists Reviews current knowledge in the field including key research findings theoretical developments and methodological debates Identifies ongoing controversies in the field emergent topics and areas in need of further inquiry Discusses individual drugs as well as topics like physiological theories of drug use and abuse public health implications of drugs patterns of drugs and crime international drug trade and trafficking and designer drugs *The Legalization of Drugs* Doug Husak, Peter de Marneffe, 2005-08-29 In the United States today the use or possession of many drugs is a criminal offense Can these criminal laws be justified What are the best reasons to punish or not to punish drug users These are the fundamental issues debated in this book by two prominent philosophers of law Douglas Husak argues in favor of drug decriminalization by clarifying the meaning of crucial terms such as legalize decriminalize and drugs and by identifying the standards by which alternative drug policies should be assessed He critically examines the reasons typically offered in favor of our current approach and explains why decriminalization is preferable Peter de Marneffe argues against drug legalization demonstrating why drug prohibition especially the prohibition of heroin is necessary to protect young people from self destructive drug use If the empirical assumptions of this argument are sound he reasons drug prohibition is perfectly compatible with our rights to liberty **Drugs, Crime, and Justice** Larry K. Gaines, Janine Kremling, 2013-12-11 The twenty six articles in this edited volume provide perspective on the interrelated issues surrounding the use of drugs in society Although drugs have long been a social problem the importance of the issue and the involvement of the criminal justice system have varied across time Public concern has typically centered on illegal drugs but the drug issue today is even more complex given the impact of prescription drugs Exaggeration has been a constant theme in the history of public policy on drugs usually playing on public fear to demonize specific drugs and users Some drugs are more dangerous than others The variations in effects impact enforcement prevention and treatment If we are going to criminalize drugs and drug usage policies and penalties should be based on the relative dangerousness of a drug or class of drugs Policies can reduce harm create harm or both Our current drug policies attempt to reduce harm through law enforcement We arrest anyone involved in drug activities under the premise of protecting society These same policies however result in the incarceration of large numbers of people they are expensive they overburden the criminal justice system and they have lasting consequences for those caught up in the drug war no matter how minor their offenses Drug policies should be weighed carefully implementing those that result in the least amount of harm to society The editors have collected timely articles that provide perspective and a foundation for an informed approach to addressing problems associated with drug use **Violent Crime** Allison Lassieur, 2013 Accessible yet sophisticated book that encourages readers to think critically about why violent crime occurs and what the best ways might be to curb it **Drugs and Crime** Richard Hammersley, 2008-08-04 This book argues that much current thinking about drugs and crime is simplistic and misguided because it fails to take into account the complex social and psychological contexts that underpin the relationship between drug or alcohol problems and crime In clear and

accessible language it reviews existing explanations of the links between drugs and crime and assesses the practical approaches currently being taken to tackle the problems involved This textbook will be of great value to advanced undergraduate and graduate students across the social sciences and in health and social care including those studying criminology psychology medical sociology social policy social work or criminal justice It will also be of interest to academics practitioners and policy makers in these fields BOOK JACKET *Oklahoma's Drug and Violent Crime Control Strategy*, 1989
