Fisher,Nancy A. Roget,2009 This collection provides authoritative coverage of neurobiology of addiction models of addiction sociocultural perspectives on drug use family and community factors prevention theories and techniques professional issues the criminal justice system and substance abuse assessment and diagnosis and more *Parents, Help Your Child Say No to Drugs* Norman Leibrock,2002-08-07 Books are like people each one has its own story My book is a story about teenagers with an addiction for drugs and the adverse effects these addictions have on their parents My hope is that this book will present a picture of the many changes that can present themselves in the lives of young people and parents in their battle with mind altering drugs Many parents unfortunately are lost in the complexities of our everyday busy lives and their minds are clouded to the problems that are developing before them Many of us are either oblivious to the problem of drugs or are too afraid to admit to ourselves that we do not know what to do if it happens in our families Parents are sadly convinced that drug addiction can never happen to their children My wife Jane and I had to face that sudden realization that drugs were destroying the life of our son I believe that my book when read in its entirety will give you the guidance and insight to help all parents and their children to fight drug addiction and to render proper guidance to those already in the grip of mind altering drugs This book will help to illuminate those hidden changes that drugs can bring into the lives of our children and teenagers and with it the effects it will have on those around them I hope and pray that the sharing of this valuable information along with my own experiences will be a positive force in the thinking of our teenagers and their loving parents My fellow parents it is of the utmost importance that no matter what happens and how tough it may get remember there is no other way but up Wherever you are and whatever the problem don t ever stop the fight against drug addiction I am aware that in the hard nosed world we live in there are a multitude of self help books and numerous concepts and scientific theories on how to successfully face your problems and bring about changes in your life But I have written my book for this reason that parents can be hopeful in a time of adversity suffering from a family drug addiction problem Let faith and understanding change your life around As parents we often read about drugs and the effects they have upon our children Invariably our many conversations will drift to the topic of drug addiction and whether our children are in fact using drugs and what we can do about it I remember sitting with a group of parents discussing drugs Although we all agreed that the rapid introduction of mind altering substances was a critical problem to our children not everyone was in agreement what we should and could do about this problem if it affects our family Some parents told us our family is very content since all our children are young this problem doesn t pertain to us at this time Some parents sat back and told me that their teenage children have never taken drugs They never had to discuss drugs with their children because they knew they would never touch them A third group of

parents were honest enough to admit that their teenage son was a drug addict for years and they didn't know it and when they found out about it they didn't know what to do about it Parents do these statements sound familiar Perhaps something you have heard before but shrugged it off as something you would never have to worry about I realize that this is a sad scenario but very true Too many parents are not taking the time to talk to their children and establish a drug free family when they are young and vulnerable The result has been too many young people becoming drug addicts Some of them could have been prevented or helped at a young age That initial help must come from us as their parents We must have a constant sense of awareness of this problem facing our children today Remember parents we cannot change the nature of the drug addict or his addiction but we can help

Drugs and Drug Policy Clayton J. Mosher, Scott Akins, 2007 Drugs and Drug Policy The Control of Consciousness Alteration provides a cross national perspective on the regulation of drug use by examining and critiquing drug policies in the United States and abroad in terms of their scope goals and effectiveness In this engaging text authors Clayton J Mosher and Scott Akins discuss the physiological psychological and behavioral effects of legal and illicit drugs the patterns and correlates of use and theories of the causes of drug use Key Features Offers more coverage of drug policy issues than competitive books This book addresses the number of significant developments over the last few decades that suggest the dynamics of drug use and policies to deal with drug use are at a critical juncture The book also considers the issue of American exceptionalism with respect to drug policies through a detailed analysis of emerging drug policies in other Western nations Makes explicit comparisons between legal and illegal drugs Due to their prevalence of use this book devotes considerable attention to the use and regulation of legal drugs in society The book illustrates that commonly prescribed medications are similar to drugs that are among the most feared and harshly punished in society and that drug related problems do not necessarily result from particular drugs but from how drugs are used Includes many pedagogical tools With chapter opening photos and more photos throughout this text presents material in a student friendly fashion Highlight boxes provide interesting examples for readers encourage further emphasis on issues and serve as important topics for in class writing exercises In addition Internet exercises and review questions reinforce key points made in the chapter and prompt classroom discussion Intended Audience This core textbook is designed for any advanced undergraduate or graduate course examining drug use abuse and policy in the departments of Sociology Criminal Justice Political Science Social Work Psychology and Public Health It is also an excellent supplemental text in Political Science and Public Administration courses focusing on public policy as well as a perfect resource for anyone interested in policy issues and drugs in particular
