Drugtakers in an English Town Martin A. Plant, 1975 A study of drugtakers in Cheltenham Field Research Robert G. Burgess, 2003-09-02 For this the fourth volume in the successful Contemporary Social Research series Robert Burgess has provided a new resource text which will prove invaluable to those engaged in field research The material he has chosen is drawn both from sociology and social anthropology and the readings come from experienced researchers both in the USA and Europe In addition Burgess draws upon the work of historians for a special section on the use of historical materials in field research The focus is upon the strategies processes and problems of work in the field Chapters by distinguished social scientists cover gaining entry note taking interviewing and observing Material on data collection is complemented by discussion of data analysis and theorising The readings themselves are subdivided into nine sections The first essay in each section is written by Burgess himself in order to locate the articles in a broader context and to highlight the key issues and the important questions Burgess has also provided a review of some of the major traditions in field research and a series of brief guides to further reading on the major topics covered in each of the sections Particular attention has been paid to the use of annotated reading lists and the preparation of a very full bibliography *Field Research A Sourcebook and Field Manual* will be an essential textbook for students of social research or field research at both the undergraduate and post graduate levels In addition it will provide valuable guidance for workers in the social sciences engaged in research in the field

Twentieth-Century Mass Society in Britain and the Netherlands Bob Moore, Henk van Nierop, 2006-12-26 From the beginning of the nineteenth century Western Europe witnessed the emergence of a mass society Grand social processes such as urbanization industrialization and democratization blurred the previous sharp distinctions that had divided society This massive transformation is central to our understanding of modern society Comparing the British and Dutch experience of mass society in the twentieth century this book considers five major areas politics welfare media leisure and youth culture In each section two well known specialists one from each country examine the conditions behind the rise of a mass society and show how these conditions were distinctively British or Dutch Drawing on history cultural studies and sociology the authors bring new insight into the development of modern European society *Illegal Drug Use Through The Lifecourse* David Moxon, Jaime Waters, 2016-10-04 Hidden older illegal drug users are a seldom researched group most research on illegal drug users instead focusses on the young or the institutionalised To counter this trend this book reports on a study of current hidden users of illegal drugs aged 40 and over These are individuals who have sustained illegal drug use over the long term largely away from the gaze of the authorities whilst living otherwise conventional lives holding down jobs raising families and so on Thus they have much to tell us about how illegal substances can be integrated into life over the long term how that integration intersects with other aspects of one's existence and how illegal drug use is ultimately shaped by changes in personal circumstances and wider social contexts Utilising insights from the life course perspective the development of the

participants use over their lives is analysed and placed in social context The book also details the nature of their current drug use Thus the book illustrates the place of illegal drugs in the lives of the participants and how this came to be over the decades as they also juggled work family and the everyday minutiae of life with their use The result is a unique look at the illegal drug use of an often ignored group of older drug users which charts the changing role that illegal drugs have played and continue to play in their lives Risk-Takers Moira Plant,2002-09-11 Risk Takers gives a comprehensive view of youthful involvement with drinking smoking drug use and sex It provides a challenging assessment of health education for young people showing that despite the threat of AIDS and HIV infection risk taking remains a feature of normal adolescent behaviour difficult to restrain or curb National Library of Medicine Current Catalog National Library of Medicine (U.S.),1971 First multi year cumulation covers six years 1965 70 **Cumulated Index Medicus** ,1975 *Manual of Drug and Alcohol Abuse* A. Arif,J. Westermeyer,2012-12-06 During the last few centuries and particularly in recent decades problems result ing from the excessive use of drugs and alcohol have spread virtually as an epidemic to every country in the world and to almost every community Abuse of alcohol and drugs is related to numerous other health problems such as the spread of acquired immune deficiency syndrome AIDS on all continents Health and social services today cannot afford to ignore this crisis since it affects all levels of society and manifests itself in diverse health and social problems In recent years the World Health Organization has received numerous requests for training material for physicians in this field This manual therefore meets an urgent need The availability of new data and the dearth of suitable textbooks have made its preparation mandatory The influence of sociocultural factors on drug dependence and alcohol related problems on their cause development and consequences as well as on their treatment and prevention has been taken into account in the preparation of this manual in order to ensure that its usefulness is not limited to one country or region It has been prepared primarily for the teaching of physicians and medical students although much of it is relevant to the training of nurses midwives health educators primary care workers medical social workers counselors and psychologists In fact suggestions have been included for adapting the manual for use in the training of such varied groups of students **DACAS** ,1975 **Drugs and British Society** Susanne MacGregor,2025-05-01 First published in 1989 Drugs and British Society now with a new preface by Susanne MacGregor provides information on the drugs problem in Britain in the 1980s based on extensive research and experience and places it in its international and historical context The contributors to this book are all experts in this field and are drawn from a range of disciplines including epidemiology sociology social psychiatry social policy anthropology and history They share a social rather than a narrowly medical or individualistic perspective on drugs stressing that policy and practice about drugs must be based not on prejudice alarm or outdated ideas but on clear reliable and detailed evidence and the informed judgements of people who have a thorough understanding of the issues They explain the problem by referring it to its social and political context from the level of the local community and local services to the wider national and structural

levels **Handbook of Psychopharmacology** Leslie Iversen, 2012-12-06 The first six volumes of the Handbook reviewed basic neuropharmacology drawing on expertise in biochemistry pharmacology and electrophysiology The next three volumes focus attention on the functional importance of these basic neuropharmacological mechanisms for normal behavior In order to study this interface in the intact functioning organism appropriate methods for describing and quantifying behavior must be developed The past twenty years have witnessed a revolution in the study of behavior which has taken us away from the often fruitless theoretical arguments to descriptive behaviorism Technical achievements in the design of apparatus and the recording of behavior played an important role in these developments and the resultant behavioral methods have been accepted and found useful in studying the effects of drugs The development of psycho pharmacology as a discipline owes as much to these behavioral methods as it does to the basic neuropharmacological techniques pioneered for in vitro studies In the first section of Volume 7 an effort has been made to provide reviews both of theory and practice in behavioral science Milner s chapter deals with the concept of motivation in a theoretical framework By contrast the chapters by Morse et al and Dews and DeWeese provide a more descriptive view of the various ways in which aversive stimuli control behavior and the importance of schedules of reinforcement in determining the profile of responding in the animal The equal importance of observational behavioral methods is well illustrated by Mackintosh et al *Friendly Relations?* Pamela Cotterill, 2005-08-16 Power relationships between men and women have been discussed extensively in feminist literature but power relationships between women the significance of in law relationships between women has largely been overlooked There is very little positive imagery surrounding the role of the mother in law Why do myths about interfering mothers in law predominate Why are mother in law relationships seen as fraught with conflict and not expected to go well What gives rise to these ideas how are they maintained and how do they effect family life *Friendly Relations* examines the popular imagery expressed in mother in law jokes and demonstrates how daughters in law come to hold the balance of power in the relationship and are able to control it in ways not available to mothers in law The book explores how these relationships are supported and maintained within the context of private and public Notions Family Life It Traces The Development Of The Relationship through the life course demonstrating the influence of significant events such as divorce cohabitation grandparenting ageing and widowhood The book tackles areas of private life which are often Difficult To Talk About And Negative Emotions Such As Jealousy And possessiveness However the author refutes the idea that the relationship is always fraught with tension and conflict and examines opportunities for friendship and support in affinal women **Culture, Media, Language** Stuart Hall, Dorothy Hobson, Andrew Lowe, Paul Willis, 2003-09-02 First published in 2004 A collection of the pioneering work from The Centre for Contemporary Cultural Studies **Working with Young Homeless People** Phil Robinson, 2008-06-15 This accessible guide provides information and advice on how to understand the needs of these young people and how to ensure they are supported effectively It combines the latest research and practice to establish what works best when helping young homeless

people and provides insights into their world through diary excerpts and interviews **Alcoholism and Drug Dependence**
J. Madden,2012-12-06 It is for me as President of the Merseyside Lancashire first that those taking part in the conference can study at leisure and in depth the transactions of the conference and secondly that those who were unable to attend might benefit from the most recent views of international experts in the diverse facets of one of the major current problems in world health LORD COHEN OF BIRKENBEAD CH PRSH MD DSc ScD LLD DCL FRCP DL JPo CONTENTS Introduction

The Sociology of Youth Culture and Youth Subcultures (Routledge Revivals) Michael Brake,2013-10-08 First published in 1980 this book argues that subcultures are formed in defence of collectively experienced problems that arise from defects and contradictions in social structures Mike Brake looks at the development of post war youth culture in a sociological context and considers the class base of youth subcultures showing that they generate a form of collective identity from which an individual identity can be achieved outside that ascribed by class education or occupation Black youth and young females are two groups given special attention here since Brake notes they are prone to particular problems resulting from the racism and sexism inherent in much youth culture A Bibliography of British History, 1914-1989 Keith

Robbins,American Historical Association,Royal Historical Society (Great Britain),1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index **Alcohol Problems in the Community** Larry Harrison,2002-05-03 Community surveys reveal that about 6% of the adult male and 1% of the adult female population in England and Wales are drinking at high risk levels Alcohol Problems in the Community examines the implications of recent community care legislation for government policy on alcohol The first part of the book begins with a report on recent US research on the role of alcohol in the perpetration of child abuse and recent research on young people s drinking problems This is followed by a study on the prevalence of drinking problems amongst older people which has been underestimated In the second half of the book empirical evidence is presented on the particular difficulties faced by ethnic migrant and homeless groups and this emphasis on the centrality of social disadvantage leads on to a consideration of a specific social work role in the assessment and management of alcohol related problems

Alcohol Problems in the Community is aimed at social work practitioners and students on prequalifying qualifying and postqualifying social work courses and it addresses key social work issues in relation to poverty homelessness discrimination and drinking problems Illegal Leisure Judith Aldridge,Fiona Measham,Howard Parker,2013-10-23 Illegal Leisure offers a unique insight into the role drug use now plays in British youth culture The authors present the results of a five year longitudinal study into young people and drug taking They argue that drugs are no longer used as a form of rebellious behaviour but have been subsumed into wider acceptable leisure activities The new generation of drug user can no longer be seen as mad or bad or from subcultural worlds they are ordinary and everywhere Illustrated throughout with interview

material Illegal Leisure shows how drug consumption has become normalised and provides a well informed analysis of the current debate **Abstracts on Criminology and Penology** ,1976 Bimonthly Abstracts of journal articles and monographs
Covers material from psychiatric literature as well as from criminological sources Entries arranged in classified order Author subject indexes
