Understanding Elder Abuse in Minority Populations Toshio Tatara,2021-10-30 First published in 1999 Research on elder abuse in the United States has made great strides in recent years As a result we have been able to define and discover the causes of elder abuse design tools to assess the risk of abuse develop and implement treatment and prevention strategies and evaluate programs for victims and perpetrators However this research has been derived from studies whose subjects were primarily Caucasian This is not because elder abuse does not take place in minority communities but rather because researchers wanted first to study the issue in its broadest sense

Old Age Abuse Mervyn Eastman, Age Concern England (Organization),2013-11-11 Age Concern always seeks to be at the forefront in raising issues of importance as part of our continuing fight to improve the quality of life of older people To this end we are privileged in being able to draw on the skills of people with the commitment expertise and enthusiasm to press for much needed change When some years ago we published a book by Mervyn Eastman on old age abuse the subject was largely unrecognized He played a pioneering role in drawing attention to this difficult and sensitive topic classifying the various types of abuse analysing their causes their tragic effects and the different contexts in which they were likely to occur Earlier when I joined Age Concern I had been struck by the paucity of knowledge of old age abuse My previous work with children and young people provided me with stark reminders of how much more developed both policy and practice were in dealing with the abuse of children Even in that field there was still much to learn and subsequent legislation policy guidelines and codes of practice have taken us further down the road by constructing clear lines of accountability and by protecting and representing children at risk by helping potential abusers and developing practice that avoids punishing victims through removing them from their homes

subjects It also looks at problems in determination of a report s reliability and the role of physicians EMTs and others who are among the first to recognize situations of mistreatment Elder Mistreatment in an Aging America will be of interest to anyone concerned about the elderly and ways to intervene when abuse is suspected including family members caregivers and advocates for the elderly It will also be of interest to researchers research sponsors and policy makers who need to know how to advance our knowledge of this problem *The Clinical Management of Elder Abuse* Georgia J Anetzberger,2012-12-06
