Davis, 2005 Since a new sensitivity and orientation to victims of injustice arose in the 1960s categories of victimization have proliferated Large numbers of people are now characterized and characterize themselves as sufferers of psychological injury caused by the actions of others In contrast with the familiar critiques of victim culture Accounts of Innocence offers a new and empirically rich perspective on the question of why we now place such psychological significance on victimization in people s lives Focusing on the case of adult survivors of childhood sexual abuse Joseph E Davis shows how the idea of innocence shaped the emergence of trauma psychology and continues to inform accounts of the past and hopes for the future in therapy with survivor clients His findings shed new light on the ongoing debate over recovered memories of abuse They challenge the notion that victim accounts are an evasion of personal responsibility And they suggest important ways in which trauma psychology has had unintended and negative consequences for how victims see themselves and for how others relate to them An important intervention in the study of victimization in our culture Accounts of Innocence will

Renzi, 2019-09-01 Offers a feminist theory of ignorance that sheds light on the misunderstood or overlooked epistemic practices of women in literature An Ethic of Innocence examines representations of women in American and British fin de siècle and modern literature who seem not to know things These naïve fools Pollyannaish dupes obedient traditionalists or regressive anti feminists have been dismissed by critics as conservative backward and out of sync with even threatening to modern feminist goals Grounded in the late nineteenth century's changing political and generic representations of women this book provides a novel interpretative framework for reconsidering the epistemic claims of these women Kristen L Renzi analyzes characters from works by Henry James Frank Norris Ann Petry Rebecca West Edith Wharton Virginia Woolf and others to argue that these feminine figures who choose not to know actually represent and model crucial pragmatic strategies by which modern and contemporary subjects navigate survive and even oppose gender oppression An Ethic of Innocence recalibrates the critical landscape revealing blind spots in contemporary models for thinking about knowledge and agency within a feminine context The author builds a persuasive case from powerful close readings of texts which invite readers to question their assumptions I cannot now imagine the field of feminist modernist studies without the interventions of this project Barbara Green author of Feminist Periodicals and Daily Life Women and Modernity in British Culture This is a fascinating and very interesting intervention about the construction of knowledge innocence within the field of literary studies Anyone teaching or studying this period will find it of great use Stephanie A Smith author of Conceived by Liberty Maternal Figures and Nineteenth Century American Literature      Elusive Innocence Dean Tong, 2002 With the rise in divorce and child custody battles child abuse charges have become a weapon of choice often times false and it is these accusations that are tearing apart lives affecting all involved The Child Welfare system supposedly designed to help children is actually helping children to destroy their lives This book affords those falsely accused and their defence attorneys who often find themselves in a 3 ring circus juvenile family and or criminal courts a vehicle for countering and defeating abuse allegations The book is a life jacket for the falsely accused parent and inexperienced attorney Dean Tong is an internationally known forensic consultant on related child
