Egypt in the Eastern Mediterranean

During the Old Kingdom Karin Sowada, 2009 This study presents a revised view of Egyptian foreign relations in the eastern Mediterranean during the Old Kingdom 3rd 6th Dynasties based on an extensive analysis of old and new archaeological data and its relationship to the well known textual sources The material demonstrates that while Egypt's most important relationships were with Byblos and the Lebanese coast generally it was an active participant in the geo political and economic affairs of the Levant throughout much of the third millennium BCE The archaeological data shows that the foundation of these relationships was established at the beginning of the Early Dynastic Period and essentially continued until the end of the 6th Dynasty with ebbs flows and changes of geographical and political emphasis It is argued that despite the paucity of textual data the 4th Dynasty represents the apogee of Egypt's engagement in the region a time when the centralised state was at the height of its power and control of human and economic capital More broadly this study shows that Egyptian interaction in the eastern Mediterranean fits the pattern of state to state contact between ruling elites which was underpinned by official expeditions engaged in gift and commodity exchange diplomatic endeavours and military incursions

The Abu Bakr Cemetery at Giza Edward Brovarski, Tohfa Handoussa, 2021-07-31 The present volume reflects the work of the joint expedition of Cairo University and Brown University to record and publish the tombs uncovered on behalf of Cairo University by Prof Abdel Moneim Abu Bakr from 1949 through 1953 but never published The loss of field records and lack of a map of the site meant that new salvage excavation had to be undertaken A total of six seasons from 2000 2006 resulted in the clearing remapping and recording of the monuments in the cemetery Abu Bakr Cemetery is of particular interest because the majority of mastaba tombs belong to relatively low ranking individuals Thus they have the potential to shed light on the social status of Egypt's working classes

Chronological Developments in the Old Kingdom Tombs in the Necropoleis of Giza, Saqqara and Abusir Leo Roeten, 2016-11-07 This study suggests through investigations of the tombs in the necropolis of Giza that economic decline attributed to the collapse of the Old Kingdom had already started in the early dynastic period

Signs, Language, and Culture: The Semograms of the Pyramid Texts between Iconicity and Referential Reality Josep Cervelló Autuori, Marc Orriols-Llonch, 2025-04-17 The signs of Egyptian hieroglyphic writing are pictograms i.e. images that represent beings and objects of reality The main characteristic of pictograms is their iconicity An icon conveys meaning through the image which distinctly refers to a real referent by depicting several of its defining features This volume focuses on semograms which are lexical or semantic pictograms meaning the image itself participates directly in the encoding of the linguistic message The Pyramid Texts of the late 3rd millennium BCE constitute the oldest corpus of funerary texts in Egyptian and human history Their semograms iconically reflect cultural realities of Old Kingdom Egypt and

perhaps earlier The studies you will find in this book are devoted to the dialectics between text sign iconicity and referential reality *Toponymy on the Periphery* Julien Cooper, 2020-08-03 In *Toponymy on the Periphery* Julien Charles Cooper conducts a study of the rich geographies preserved in Egyptian texts relating to the desert regions east of Egypt These regions filled with mines quarries nomadic camps and harbours are often considered as an unimportant hinterland of the Egyptian state but this work reveals the wide explorations and awareness Egyptians had of the Red Sea and its adjacent deserts from the Sinai in the north to Punt in the south The book attempts to locate many of the placenames present in Egyptian texts and analyse their etymology in light of Egyptian linguistics and the various foreign languages spoken in the adjacent deserts and distant shores of the Red Sea
