*AC/Shelby Cobra* Glen Smale,2015-09-15 Part time racer and chicken farmer Carroll Shelby ordered a chassis from AC Cars in England in 1961 and asked them to install a Ford V8 engine in it The AC Ace was fitted with the same rear diff as that used in the Jaguar E type and so when the car arrived in the Shelby workshop it proved easy to modify thanks to the simple AC layout *AC & Cobra 1962-2011* R.M. Clarke,2011-09-01 The Cobra was Carroll Shelby s brainchild He contacted AC in 1961 and secured promises of the Ford V8s and finance for racing AC Shelby and Ford were soon in business The Cobra s development was rapid but there were teething problems and international success did not come easily Much later AC cars were bought by Alan Lubinsky and many changes were introduced aimed at making the business profitable The 55 articles in this portfolio give a full and comprehensive picture of the history of AC and Cobra cars [The First Three Shelby Cobras](#) Gordon Bruce,2018-04-17 The First Three Shelby Cobras the third book in the acclaimed Exceptional Cars series tells the story of three remarkable cars the first AC Cobras created by the legendary Carroll Shelby in 1962 and now favorites of sports car enthusiasts throughout the world The prototype CSX2000 has been described as the most important American car although it was built on a British AC Ace chassis with an American Ford V8 engine It was retained by the Shelby family until

2016 when it sold at auction for a record 13.75 million. CSX2001 was the first production Cobra and was delivered to American racing driver Ed Hugus. It was later sold to Frenchman Jean Marie Vincent who raced in the Tour de France and in numerous European hillclimbs. CSX2002 was the first Cobra to race and nearly won its inaugural outing at Riverside driven by Bill Krause until sidelined by a broken rear hub. It did take the first ever Cobra win with Dave MacDonald at Tucson in March 1963. Its success led to a series of competition wins that made Shelby's Cobras famous and admired across the globe. All three cars are now the pride of car collections in the United States of America. CSX2000 and CSX2002 are part of the Larry Miller Collection and CSX2001 belongs to California based motorsport aficionado Bruce Meyer.

**AC Cobra** Brian Laban, 1991-01-01 A detailed technical analysis of the Cobra and the compelling story of the *Cobra - The Real Thing!* Trevor Legate, 2015 The extraordinary marriage of a classic British AC Ace sportscar to a large capacity American V8 engine was the idea of America's larger than life Carroll Shelby. Called the Cobra, the resulting car had shattering performance allied to timeless beauty and has become a motoring icon. Originals have become hugely valuable, replicas abound and today the Cobra is once more in production. Out of print for 10 years, here is the original and best Cobra history in fully updated and beautifully produced form. A lasting tribute to one of the world's greatest cars. *Cobra* Trevor Legate, 2006 This book tells the complex saga of a sports car that was created in the early 1960s as a result of an unlikely collaboration between a plain talking ex-racing driver from Texas and a conservative British automobile manufacturer funded by one of the giants of the industry, the Ford Motor Company. Carroll Shelby, AC Cars and Ford came together to create a car called the Cobra based on the AC Ace roadster that had been in production since 1954. When the Shelby Cobra was created, it was far from state of the art, but the use of a new series of Ford V8 engines saw the lightweight car annihilate the Chevrolet Corvette in American sports car racing. By adding aerodynamic bodywork, the Daytona Cobra Coupe arrived in Europe to contest the FIA World Championship and took victory in the GT category in 1965, making Shelby American the first and only USA based manufacturer to achieve this feat. In order to capitalize on this success, even greater power was required and the car was developed to take a huge 7-liter engine that proved to be a triumph of horsepower over handling, thus the 427 Cobra became an overnight legend, establishing new performance records and creating a reputation for being more than a little tricky to drive. The era of the Cobra was brief; production ended at Shelby American during 1966 and at AC Cars in 1968 where they built their own final version, the AC289 Sports. Just over 1000 Cobras were built during that time, but the final cars proved difficult to sell; their vintage qualities deterring potential owners. Carroll Shelby closed his company and went to Africa while AC developed other models, but the Cobra was not quite finished yet. Within a matter of a few years, a new market for the car was created as the demand for affordable kit cars grew. The most popular model by far was the Cobra and many thousands were built, with the result that both AC Cars and Carroll Shelby put their own versions back into production. And then the arguments really started. If it was an improbable car over forty years ago, it is even more implausible today, but the

remarkable Cobra in one form or another is still with us It may be dead but it just won't lie down      **A to Z of Sports Cars, 1945-1990** Mike Lawrence,1996 More than 1 000 photographs in b w and color illustrate the extraordinary variety of sports cars that have been offered to the public All the great names are featured including cars from Israel Egypt Spain Switzerland Norway and Brazil      **The Complete Book of Shelby Automobiles** Colin Comer,2009      [AC Cobra, 1962-1969](#) R.
