[The Future of Resource Sharing](#) Shirley K. Baker, Mary E. Jackson, 2019-12-06 This book first published in 1995 addresses the key issue facing libraries on how to survive in an age of interdependence Increasingly individual libraries must act as if each is part of a world library Instead of being self sufficient each library from the small public library to the large research library must find ways to put materials from this world library into the hands of its patrons and must stand ready to supply materials from its own collection to others both quickly and cost effectively through interlibrary loan It explores the critical questions for making resource sharing work with particular emphasis on

Magowan, 2007-02-13 Beginning in the early 1980s readers advisory services were a widely discussed topic in North American public libraries By 2005 almost every public library in the United States and Canada offered some form of readers advisory service The services offered have changed significantly in ways perhaps disadvantageous to adult North American library patrons This book provides a critical history of readers advisory philosophy and offers a new perspective on the evolution of the service The book analyzes the debate that shaped readers advisory and discusses how the service has assumed its present form The study follows readers advisory through its three prominent stages of development beginning with the period 1870 to 1916 when the service was still a subject of much crucial debate about its meaning and purpose During the second phase 1917 to 1962 readers advisory systematically committed itself to meaningful adult education through serious and purposeful reading The book argues however that during the most recent phase of readers advisory from 1963 until the present contemporary public libraries have turned their backs on the rich heritage of readers advisory services by valorizing the reading of entertainment oriented and commodified genre titles and bestsellers Historical analysis case studies and statistical charts augment the book's central argument *The Reference Librarian and Implications of Mediation* M.
