Accidental Century:

The Accidental Century Michael Harrington, 1967 *The Accidental Republic* John Fabian Witt, 2009-07-01 Witt argues that experiments in accident law at the turn of the 20th century arose out of competing views of the loose network of ideas and institutions that historians call the ideology of free labor These experiments a century ago shaped 20th and 21st century American accident law and laid the foundations of the American administrative state *The Roman and Byzantine Graves and Human Remains* Joseph L. Rife, 2012-06-01 This study describes and interprets the graves and human remains of Roman and Byzantine date recovered by excavation between 1954 and 1976 in several locales around the Isthmian Sanctuary and the succeeding fortifications This material provides important evidence for both death and life in the Greek countryside during the Late Roman to Early Byzantine periods Examination of burial within the local settlement comparative study of mortuary behavior and analysis of skeletal morphology ancient demography oral health and paleopathology all contribute to a picture of the rural Corinthians over this transitional era as interactive resilient and modestly innovative Winner of the 2012 2013 CAMWS Outstanding Publication Award *A Sudden Clash of Thunder* Osho, 2023-03-25 In the Buddhist terminology Buddha is equivalent to truth They don't talk much about truth they talk much more about Buddha That too is significant because when you become a Buddha Buddha means when you become Awakened truth is so why talk about truth Just ask what awakening is Just ask what awareness is because when you are aware truth is there when you are not aware truth is not there **Accidents in History**, 2020-01-29 There is now an extensive literature on the social and environmental consequences of living in the risk society Studies of trauma are also increasingly prominent But scant attention has been paid to perceptions of risk and danger in the past in particular to the history of accidents and the meanings of the accidental This collection of interdisciplinary essays addresses this lacuna providing a theoretically informed historical sociology of the accident and risk It explores the social and cultural contexts in which acts of God calamities catastrophes disasters injuries casualties and other category of mishaps were experienced conceptualized and responded to Drawing on the skills of British European and North American scholars *Accidents in History* combines philosophical sociological and ecological overviews with in depth historical case studies It spans the period from the eighteenth century to the present probing the epistemological social and political roots of the accidental The authors differentiate between industrial and other forms of injury trace the origins of the normalization of accidents and analyze the interactions and gendered discrepancies between domestic and non domestic mishaps They also investigate the medicalization of sudden injury and discuss the emergence of new socio medical and humanitarian discourses around the organization of relief for victims **Signs and Symptoms** Peter L. Cooper, 2024-03-29 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand

technology This title was originally published in 1983 **Jacqueline Kahanoff** David Ohana, 2023-11-07 Jacqueline Kahanoff A Levantine Woman is the first intellectual biography of this remarkable Egyptian Jewish intellectual whose work has secured her place in literary pantheon as a herald of Levantine Mediterranean and transnational culture Growing up Jewish in cosmopolitan Egypt in the 1920s and 1930s Jacqueline Kahanoff experienced a bustling Middle East enriched by diverse languages religions and peoples who nonetheless were deeply connected to each other through history business daily practices and shared landscape At the age of twenty four Kahanoff immigrated to the United States Her stories essays and short autobiographical novel attest to her penchant to cross boundaries generations social classes sexes and Western and Eastern constructs After immigrating to Israel in the early 1950s she critically addressed the country's provinciality and ethnic nationalism as seen through her conception of a transnational Levantine culture Through many writings Kahanoff set forth her distinctive vision of Israel as a Mediterranean country with a broad multicultural Levantine identity Drawing on an extensive array of sources ranging from interviews with Jacqueline Kahanoff's acquaintances and contemporaries to unpublished writings David Ohana explores her fascinating life and intellectual journey from Cairo to Tel Aviv The encompassing vision of a Levantine Israel made Kahanoff the initiator of a different cultural possibility more extensive than that offered in her time and also perhaps than is offered today **Southern Writers at Century's End** Jeffrey J. Folks, James A. Perkins, 2014-10-17 Since the end of World War II the South has experienced a greater awareness of growth and of its accompanying tensions than other regions of the United States The rapid change that climaxed with the war in Vietnam the Cold War civil rights demonstrations and Watergate has forced the traditional South to come to terms with social upheaval As the essays collected in Southern Writers at Century's End point out southern writing since 1975 reflects the confusion and violence that have characterized late twentieth century public culture These essays consider the work of twenty one of the foremost southern writers whose most important fiction has appeared in the last quarter of this century As the region's contemporary writers have begun to gain a wide audience critics have begun to distinguish what Hugh Holman has called the fresh the vital and the new in southern literary culture Southern Writers at Century's End is the first volume to take an extensive look at the current generation of southern writers Authors considered include James Lee Burke Fred Chappell Robert Drake Andre Dubus Clyde Edgerton Richard Ford Kaye Gibbons John Grisham Barry Hannah Mary Hood Josephine Humphreys Randall Kenan Richard Marius Bobbie Ann Mason Cormac McCarthy Tim McLaurin T R Pearson Lee Smith Anne Tyler Alice Walker and James Wilcox *Glorious, Accursed Europe* Jehuda Reinharz & Yaacov Shavit, 2010-07-31 This volume offers a fascinating look at the complex relationship between Jews and Europe during the past two hundred years and how the European Jewish and non Jewish intelligentsia interpreted the modern Jewish experience primarily in Germany Russia and Central and Eastern Europe Beginning with premodern European attitudes toward Jews Reinharz and Shavit move quickly to the glorious nineteenth century a period in which Jewish dreams of true assimilation

came up against modern antisemitism Later chapters explore the fin de siècle crisis of modernity the myth of the modern European Jew expectations and fears in the interwar period differences between European nations in their attitude toward Jews the views of Zionists and early settlers of Palestine and Israel toward the Europe left behind and views of contemporary Israeli intellectuals toward Europe including its new Muslim population the latest incarnation of the Jewish Question in Europe

Transformations of Contemporary Capitalism David Evans, 2023-10-02 In recent decades there has been many attempts to describe explore and explain the new post modern capitalism of the twenty first century In this context this book looks at one of the most exciting strands of this research in the late twentieth century the flexible specialisation research programme FSRP Drawing on the history of ideas discourse and literature on capitalism of the last four decades this book shows that although flexible specialisation anticipated some of the ways in which capitalism was being transformed in the late twentieth century they underestimated and failed to anticipate the forms of creative destruction and corporate digital control which were becoming embedded in the global capitalist accumulation dynamic itself The sudden disappearance of the Soviet Union and the end of history failed to open up the pathway for new forms of modern social democracy but gave rise instead to the new digital Behemoths Today the classical tendencies of capitalism as anticipated by Marx are all too present and despite talk of post capitalism and digital techno feudalism the landscape of monopolyfinance capital has consolidated itself The book counterposes the FSRP with the various Marxist interpretations of the capitalist transition together with the wider social and economic theories that emerged in the first decades for the twenty first century around for example the great acceleration de growth and post growth This book will be of interest to all readers concerned with heterodox political economy critical social theory intellectual history and above all the prospects for social transformation leading to social justice and an egalitarian enlightenment

Christian Critics Eugene McCarraher, 2000 While all supported movements for the rights of labor racial minorities and women some endorsed the military industrial order that established the professional managerial class as a dominant national force while others favored a decentralized political economy of worker self management At the same time McCarraher recasts the debate about the therapeutic ethic by tracing a shift not from religion to therapy but from religious to secular conceptions of selfhood

The City in Literature Richard Lehan, 2023-09-01 This sweeping literary encounter with the Western idea of the city moves from the early novel in England to the apocalyptic cityscapes of Thomas Pynchon Along the way Richard Lehan gathers a rich entourage that includes Daniel Defoe Charles Dickens Emile Zola Bram Stoker Rider Haggard Joseph Conrad James Joyce Theodore Dreiser F Scott Fitzgerald and Raymond Chandler The European city is read against the decline of feudalism and the rise of empire and totalitarianism the American city against the phenomenon of the wilderness the frontier and the rise of the megalopolis and the decentered discontinuous city that followed Throughout this book Lehan pursues a dialectic of order and disorder of cities seeking to impose their presence on the surrounding chaos Rooted in Enlightenment yearnings for reason his journey

goes from east to west from Europe to America In the United States the movement is also westward and terminates in Los Angeles a kind of land s end of the imagination in Lehan s words He charts a narrative continuum full of constructs that represent a cycle of hope and despair of historical optimism and pessimism Lehan presents sharply etched portrayals of the correlation between rationalism and capitalism of the rise of the city the decline of the landed estate and the formation of the gothic and of the emergence of the city and the appearance of other genres such as detective narrative and fantasy literature He also mines disciplines such as urban studies architecture economics and philosophy uncovering material that makes his study a lively read not only for those interested in literature but for anyone intrigued by the meanings and mysteries of urban life This sweeping literary encounter with the Western idea of the city moves from the early novel in England to the apocalyptic cityscapes of Thomas Pynchon Along the way Richard Lehan gathers a rich entourage that includes Daniel Defoe Charles Dickens Em

Michael Harrington Robert Gorman,2021-12-24 In this provocative biographical portrait Robert A Gorman examines the political and intellectual life of this engaging radical thinker while looking ahead to the ways in which the work and example he has left us can affect political life in the twenty first century Michael Harrington s major attempt to Americanize socialism plays a big part in Gorman s analysis He tells readers how it is possible to be both radical and patriotic and how an unjust system can be transformed without being destroyed

Crisis in Consciousness Greg Johnson,1993 Though this collection deals with a range of disturbing issues the AIDS epidemic aging suicide psychological aberration and the violence of contemporary America it is rich with the aid and comfort of compassion truth and a language of survival Immersed in the shared experience of sorrow the poems rise above mere confessions of grief to speak in a voice of dignity and hard earned wisdom

Missouri Biographical Dictionary Jan Onofrio,2001-01-01 Missouri Biographical Dictionary contains biographies on hundreds of persons from diverse vocations that were either born achieved notoriety and or died in the state of Missouri Prominent persons in addition to the less eminent that have played noteworthy roles are included in this resource When people are recognized from your state or locale it brings a sense of pride to the residents of the entire state

No Place for Truth David F. Wells,1994-12-20 Has something indeed happened to evangelical theology and to evangelical churches According to David Wells the evidence indicates that evangelical pastors have abandoned their traditional role as ministers of the Word to become therapists and managers of the small enterprises we call churches Along with their parishioners they have abandoned genuine Christianity and biblical truth in favor of the sort of inner directed experiential religion that now pervades Western society Specifically Wells explores the wholesale disappearance of theology in the church the academy and modern culture Western culture as a whole argues Wells has been transformed by modernity and the church has simply gone with the flow The new environment in which we live with its huge cities triumphant capitalism invasive technology and pervasive amusements has vanquished and homogenized the entire world While the modern world has produced astonishing abundance it has also taken a toll on the human spirit emptying it of enduring meaning and

morality Seeking respite from the acids of modernity people today have increasingly turned to religions and therapies centered on the self And whether consciously or not evangelicals have taken the same path refashioning their faith into a religion of the self They have been coopted by modernity have sold their soul for a mess of pottage According to Wells they have lost the truth that God stands outside all human experience that he still summons sinners to repentance and belief regardless of their self image and that he calls his church to stand fast in his truth against the blandishments of a godless world The first of three volumes meant to encourage renewal in evangelical theology the other two to be written by Cornelius Plantinga Jr and Mark Noll No Place for Truth is a contemporary jeremiad a clarion call to all evangelicals to note well what a pass they have come to in capitulating to modernity what a risk they are running by abandoning historic orthodoxy It is provocative reading for scholars ministers seminary students and all theologically concerned individuals *Social Decay and Transformation* Samuel Farber,2000-01-01 In *Social Decay and Transformation* social and political critic Samuel Farber presents an analysis of social decline that has been missing from the contemporary scene a view from the Left one which draws from the ideas and traditions of the Enlightenment s left wing Using a comparative approach to situate his theoretical conclusions in historical circumstances Farber looks at the working class and temperance movements civil rights rebellions and the Black Panthers and the cultural revolutions of 1920s Russia and the Bolsheviks Providing carefully reasoned interrogations of contemporary thinkers such as James C Scott and Robin D G Kelley Farber clarifies the discussions on social decay currently taking place adding an important voice of the Left to the current debate Americas Jews Chaim Waxman,1983 Surveying American Jewry from its beginnings in 1654 through the early 1980s Waxman reviews earlier studies and offers a fresh analysis from a survivalist rather than assimilationist perspective He argues that while American Jews have been successful in their quest to integrate into the American social system recent developments show that this ethno religious group is confronting challenges to its continuity and is manifesting survivalist strengths not apparent earlier Topics covered include educational occupational income and political patterns of American Jews the American Jewish family anti semitism the relation between American Jews and Israel and the immigration of Soviet Israeli and Iranian Jews to the United States ISBN 0 87722 321 1 24 95 ISBN 0 87722 329 7 pbk 9 95 **Socialism** Michael Harrington,2011-11-01 On learning his cancer was inoperable renowned intellectual Michael Harrington simply asked the doctors to keep him alive long enough to complete a summary statement of the themes I had thought of throughout an activist life And they did *Socialism Past and Future* is prominent thinker Michael Harrington s final contribution a thoughtful intelligent and compassionate treatise on the role of socialism both past and present in modern society He is convincing in his application of classic socialist theory to current economic situations and modern political systems and he examines the validity of the idea of visionary gradualism in bringing about a socialist agenda He believes that if freedom and justice are to survive into the next century the socialist movement will be a critical factor This is the definitive text on the role of socialism throughout history which

Publishers Weekly calls succinct readable and the New York Times says has a lively air of optimism and boldly challenges traditional ideas In this passionate book the late Michael Harrington draws on a lifetime of thinking and politicking to reject much that has passed for socialism and to define the new forms that will make it the only hope for human freedom and justice Foreign Affairs in the twenty first century Redeeming Democracy in America Wilson Carey

McWilliams,2011-05-24 Wherever we turn in America today we see angry citizens disparaging government distrusting each other avoiding civic life and professing a hatred of politics and politicians of all stripes Is our situation hopeless Wilson Carey McWilliams wouldn't think so McWilliams one of the preeminent political theorists of the twentieth century was closely identified with an ambitious intellectual enterprise to reclaim and restore democracy as a source of national veneration inspiration and salvation Better than most of his contemporaries he understood and illuminated the major sources of the political malaise that afflicts our nation's citizens For him the key to reinvigorating our republic depends on our ability to reclaim the second voice of American politics the one that emanates from our literature churches families and schools and speaks out on behalf of community and civic responsibility The writings gathered here cohere into McWilliams's most mature and most developed philosophical statement the distillation of a distinguished career of thinking about the American experiment From insights into The Framers and the Constitution to reflections on America as Technological Republic he shares a love for an older tradition of democracy one based upon the active self rule of self governing citizens Protestant Prudence and Natural Rights and On Equality as the Moral Foundation for Community may force readers to adjust their understandings of American politics while Democracy and the Citizen and Political Parties as Civic Associations will resound for observers of the current political scene regardless of party Carey McWilliams not only offers a prescient analysis of the current crisis in American citizenship and governance but also shows us what sources within the American tradition might exist to save us from our worst selves His broad and iconoclastic approach to American politics should appeal to both conservatives and liberals to anyone in fact who cares about the state of democracy in America
