Accommodating Spouse:

Identity and Intimacy in Marriage Susan Krauss Whitbourne, Joyce B. Ebmeyer, 2013-11-11 Through the research on which this book reports we have been given the unique opportunity to explore the complex nature of two of the most important issues in the lives of adults identity and intimacy It is with deep gratitude that we give credit to the 80 individuals in our sample who allowed us to explore these processes in their lives Our purpose in writing this book was in some ways a modest one Both of us believed that research on the Eriksonian concept of intimacy was deficient in that it was limited to the reports of individuals about them selves We maintained that this kind of research could provide only a narrow and probably biased view of the intimacy development of individuals By obtaining complementary responses to the intimacy interview from both partners in a marital relationship we hope to pave a new path that future researchers in this area will follow Beyond this methodological advance we intended that this book's theoretical focus could put a new perspective on the well trodden path of research on marriage This more ambitious goal is one that we faced with some trepidation The literature on marital adjustment and satisfaction is vast and potentially overwhelming

An Accommodating Spouse Elizabeth Jolley, 2010-01-04 A fantastic book in all senses of that word Sydney Morning Herald The Professor is married to Hazel a diligent and generous but rather plain woman She is so close to her twin Chloe that both women live under one roof with the Professor Back from an overseas trip come their daughters triplets ready to celebrate their twenty first birthday Family life in the otherwise peaceful house swells to a chaotic crescendo on the evening of the party as the Professor feels the tender sting of his wife's accommodating ways This is vintage Jolley filled with quiet wit and keen observations of human relationships and their frailties

Language Choice in Interracial Marriages: The Case of Filipino-Malaysian Couples Francisco Perlas Dumanig, 2010-10-19 Language choice has become a common phenomenon in interracial encounters in which speakers are always faced with the challenge of choosing an appropriate language in various domains of communication In multilingual and multiracial societies language choice can sometimes be crucial because of its social political and economic impact on the speakers Even in the smallest unit of a society which is the family language choice plays an important role particularly in interactions between husbands and wives who come from different linguistic and cultural backgrounds It is therefore the objective of this research to examine the language choice in interracial couples communication More specifically this research examines the language choice accommodation strategies and code switching

patterns in verbal communication of Filipino Malaysian couples in the home domain Furthermore this study explores the occurrence of language choice in relation to ethnicity first language and gender To carry out the study 60 spouses consisting of Filipino Malay Filipino Malaysian Chinese and Filipino Malaysian Indian couples were interviewed and given questionnaires which include the socio demographic profile language choice and accommodation strategies used Data were collected using the qualitative approach by interviewing and recording the conversations of Filipino Malaysian couples To support the qualitative findings a quantitative approach based on the questionnaire results was also used The findings of the study reveal that Filipino Malaysian couples prefer English as their medium of communication at home with some switching to Bahasa Malaysia Chinese and Filipino languages The couples preference of English is prevalent although none of them considered English as their first language Their mother tongue becomes the secondary preference which is evident in the use of code switching The findings further reveal that couples language choice is influenced by ethnicity first language and gender On the other hand the use of accommodation strategies such as approximation interpretability discourse management and interpersonal control accommodation strategies occurs in many interactions The findings of the study support Giles and Powesland s 1978 Communication Accommodation Theory CAT that in interracial couples communication spouses tend to accommodate each other by using a range of accommodation strategies which include code switching

A Roadmap for Couple Therapy Arthur C. Nielsen, 2016-06-17. A Roadmap for Couple Therapy offers a comprehensive, flexible, and user-friendly template for conducting couple therapy. Grounded in an in-depth review of the clinical and research literature and drawing on the author's 40 plus years of experience, it describes the three main approaches to conceptualizing couple distress and treatment: systemic, psychodynamic, and behavioral, and shows how they can be integrated into a model that draws on the best of each. Unlike multi-authored texts in which each chapter presents a distinct brand of couple therapy, this book simultaneously engages multiple viewpoints and synthesizes them into a coherent model. Covering fundamentals and advanced techniques, it speaks to both beginning therapists and experienced clinicians. Therapists will find A Roadmap for Couple Therapy an invaluable resource as they help distressed couples repair and revitalize their relationships.

Exceptional Relationships Brian And Marcia Gleason LCSWs, 2012-09. The idea that partners in committed relationships elicit strong reactions in each other is self-evident. That these passions are often overlooked in the therapy room is equally a reality. In this ground-breaking book, you will discover an innovative system for helping couples discover all of who they are. The Gleasons ask you to reconsider what it means to trust your intuition, make room for strong energies, work with the body, bring sexuality into the therapy room, and to elicit full emotional expression. Here you will learn to welcome the passionate, erotic, chaotic truths that are often kept under wraps in the therapy room. **Exceptional Couples Transformation Through Embodied Couples Work** synthesizes modern developmental theories with the wisdom of somatic psychotherapy and reveals how embodying is fundamental to helping couples break their patterns of vitality-destroying habits of interacting. The Gleasons invite you on a journey of the highest magnitude where couples can come fully alive. They generously open the door to their practice room, sharing in-depth case examples and effective strategies they've developed over the course of their careers. They ask you to come along with them and live in the mystery of yet-to-be-discovered places in every relationship. The Gleasons met in 1976 in clinical social work graduate school. They have devoted their lives to exploring how couples, including themselves, can have exceptional beyond-the-ordinary relationships. www.exceptionalmarriage.com

To defer or differ: Experimental evidence on the role of cash transfers on Nigerian couples' decision-making Bakhtiar, M. Mehrab, Fafchamps, Marcel, Goldstein, Markus, Leonard, Kenneth L., Papineni, Sreelakshmi, 2024-10-02. We conduct an original lab-in-the-field experiment on the decision-making process of married couples over the allocation of rival and non-rival household goods. The experiment measures individual preferences over

allocations and traces the process of deferral consultation communication and accommodation by which couples implement these preferences We find few differences in individual preferences over allocations of goods However wives and husbands have strong preferences over process women prefer to defer decisions to their husbands even when deferral is costly and is not observed by the husband men rarely defer under any condition Our study follows a randomized controlled trial that ended a year earlier and gave large cash transfers over eighteen months to half of the women in the study We estimate the effect of treatment on the demand for agency among women and find that the receipt of cash transfers does not change women s bargaining process except in a secret condition when the decision to defer is shrouded from her husband This suggests that the cash transfer to women increases their demand for agency but does not change the intra household balance of power enough to allow them to express it publicly
