SMS Communication Louise-Amélie Cougnon, Cédric Fairon, 2014-07-15 The media often point an accusatory finger at new technologies they suggest that there is always a loss of information or quality or even that computer mediated communication is destroying language Most linguists on the contrary are firmly convinced that it is better to consider language as an evolving and changing entity From this point of view language is a social tool that has to be studied in depth through the prism of objectivity as a process in motion which is influenced by new social and technological stakes rather than as a fading organism In this volume we study and describe the societal phenomenon of SMS writing in its full complexity The aim of this volume is threefold to present recent linguistic research in the field of SMS communication to inform the reader about existing large SMS corpora and processing tools and finally to display the many linguistic aspects that can be studied via a corpus of text messages These articles were previously published in *Linguisticae Investigationes* Vol 35 2 2012

Spellbound James Essinger, 2006 Following the continued success of a wave of spelling and punctuation titles published in the past eighteen months James Essinger's *Spellbound* is an

engagingly written unique and comprehensive account of why the English language is riddled with words that are difficult to spell With a close look at the origins and history of the English language the book tells the intriguing story of how the spelling of words has evolved over the centuries from runes to Anglo Saxon Middle English to the early dictionaries and up to the mobile phone text messaging of today Spellbound reveals answers to the mystery of why many words are on the face of it spelled in such an irrational chaotic and illogical manner Explaining why we should care about spelling the book is an entertaining and practical guide to effective communication as well as an original historical study of one of the most curious linguistic phenomena in the world
