Essays in Legal and Moral Philosophy H. Kelsen, 2012-12-06 In his choice of texts the Editor has been faced with the difficult task of selecting from among the author's more than 600 publications those of the greatest philosophical interest It is chiefly the topics of value relativism and the logic of norms that have been kept in view The

selection has also been guided by the endeavour to reprint so far as possible texts which have not hitherto appeared in English At times however this aim has had to be discarded in order to include works of key importance and also the latest expressions of Kelsen's view In addition to the two topics already mentioned the Editor has considered Kelsen's discussions of the causal principle to be so far worthy of philosophical attention that some writings on causality and accountability have been included in this collection of philosophical studies
