The Development Trajectory of Communism in Poland Bartłomiej Kapica, 2025-06-30 Charting the life and writings of Władysław Biegański, a leading politician and writer in communist Poland and sometime right-hand man and ideologue of the Polish leader Władysław Gomułka, this book outlines the shifts in the nature of communism in Poland throughout the period of communist rule. It considers the shaping of Biegański's ideas in eastern Poland, later occupied by the Soviet Union, during the economic depression, the development of his great hopes for socialist socio-economic transformation as the right way forward, and his attempts as Gomułka's aide to enact people's democracy and socialist humanism in the period 1945 to 1948, attempts which failed. Stalinist repression coming to the fore instead, this book further discusses Biegański's role as a minister in the period following Stalin's death, when Biegański was a leading revisionist, warning of the dangers of the petrification of the system and explaining how, with a sense of shattered hopes, he resigned from power and became a dissident, publicly critical of the regime. This book concludes by examining Biegański's writings in late communist times, when now just an observer, he continued to reflect on and write about the future of socialism. Overall, the book demonstrates to what extent communism in Eastern Europe was flexible and adaptable and not rigidly monolithic as it is often portrayed. The book will be of interest to academics and scholars interested in the history of communism and Europe.
