High Courts and Economic Governance in Argentina and Brazil Diana Kapiszewski,2012-09-24 This study analyzes how elected leaders and high courts in Argentina and Brazil interact over economic governance The Value of Aesthetics Alanna Cant,2019-09-01 Unlike many other handicrafts in the Mexican state of Oaxaca which have long cultural and historical trajectories Oaxacan woodcarving began in the second half of the twentieth century and has always been done for the commercial market In The Value of Aesthetics Alanna Cant explores how one family s workshop in the village of San Mart n Tilcajete has become the most critically and economically successful surpassing those of neighbors who use similar materials and techniques The dominance of this family is tied to their ability to produce a new aesthetic that appeals to three key economies of culture the tourist market for souvenirs the national market for traditional Mexican artesan as and the international market for indigenous art Offering a new analytical model by which anthropologists can approach visual aesthetics and conceptualize the power of artworks as socially active objects The Value of Aesthetics shows how aesthetic practices produce and redefine social and political relationships By investigating the links between aesthetics and issues of production authorship ownership and identity Cant shows aesthetic change to be a process that ultimately repackages everyday life into commodified objects in Oaxaca **Women in Mexican Folk Art** Eli Bartra,2013-12-15 The aim of this book is to engender Mexican folk art and locate women at its centre by studying the processes of creation distribution and consumption as well as examining iconographic aspects and elements of class and ethnicity from the perspective of gender

The author will demonstrate that the topic provides unique insights into Mexican culture and has enormous relevance within and without the country given the fact that much folk art is made for the United States and Europe either in terms of the tourists who buy it on coming to Mexico or that which is exported

Rugs, Guitars, and Fiddling Chris Goertzen, 2022-10-21 What do exotic area rugs handcrafted steel string guitars and fiddling have in common today Many contemporary tradition bearers embrace complexity in form and content They construct objects and performances that draw on the past and evoke nostalgia effectively but also reward close attention In *Rugs Guitars and Fiddling* Intensification and the Rich Modern Lives of Traditional Arts author Chris Goertzen argues that this entails three types of change that can be

grouped under an umbrella term intensification First traditional creativity can be intensified through virtuosity through doing hard things extra fluently Second performances can be intensified through addition by packing increased amounts of traditional materials into the conventionally sized packages Third in intensification through selection artistic impact can grow even if amount of information recedes by emphasizing compelling ideas e g crafting a red and black viper poised to strike rather than a pretty duck decoy featuring more colors and contours Rugs handwoven in southern Mexico luthier made guitars and southern US fiddle styles experience parallel changes all absorbing just enough of the complex flavors dynamics and rhythms of modern life to translate inherited folklore into traditions that can be widely celebrated today New mosaics of details and skeins of nuances don t transform craft into esoteric fine art but rather enlist the twists and turns and endless variety of the contemporary world therapeutically helping transform our daily chaos into parades of negotiable jigsaw puzzles Intensification helps make crafts and traditional performances more accessible and understandable and thus more effective bringing past and present closer together helping folk arts continue to perform their magic today Presence of the Cross in Public Spaces Marta Ordon,Piotr Stanis,Michał Zawisław,2017-03-07 The judgments of the European Court of Human Rights in the case of Lautsi vs Italy 3 November 2009 and 18 March 2011 served as a catalyst for the debate on the presence of the cross in the public space in a number of European states What are the effects of this debate What is the meaning attributed to so called negative religious freedom viewed in relation to the right to manifest religion and protect tradition and culture Answers to these and related questions are provided in this volume by experienced contributors who adopt diversified research perspectives and viewpoints The analyses presented here concern not only the established democracies of Western Europe but also post communist states Owing to the multifaceted approach thus offered the book will prove to be helpful in distinguishing the implications of respect for the freedom of thought conscience and religion from the consequences of diversified constitutional norms adopted in individual states and also from subjective expectations
