TAC Attack ,1984      *Meeting the Demands of Reason* Jay Bergman,2011-03-15 The Soviet physicist dissident and human rights activist Andrei Sakharov 1921 1989 was awarded the Nobel Peace Prize in 1975 The first Russian to have been so recognized Sakharov in his Nobel lecture held that humanity had a sacred endeavor to create a life worthy of its potential that we must make good the demands of reason by confronting the dangers threatening the world both then and now nuclear annihilation famine pollution and the denial of human rights *Meeting the Demands of Reason* provides a comprehensive account of Sakharov s life and intellectual development focusing on his political thought and the effect his ideas had on Soviet society Jay Bergman places Sakharov s dissidence squarely within the ethical legacy of the nineteenth century Russian intelligentsia inculcated by his father and other family members from an early age In 1948 one year after receiving his doctoral candidate s degree in physics Sakharov began work on the Soviet hydrogen bomb and later received both the Stalin and the Lenin prizes for his efforts Although as a nuclear physicist he had firsthand experience of honors and privileges inaccessible to ordinary citizens Sakharov became critical of certain policies of the Soviet government in the late 1950s He never renounced his work on nuclear weaponry but eventually grew concerned about the environmental consequences of testing and feared unrestrained nuclear proliferation Bergman shows that these issues led Sakharov to see the connection between his work in science and his responsibilities to the political life of his country In the late 1960s Sakharov began to condemn the Soviet system as a whole in the name of universal human rights By the 1970s he had become with Alexander Solzhenitsyn the most recognized Soviet dissident in the West which afforded him a measure of protection from the authorities In 1980 however he was exiled to the closed city of Gorky for protesting the Soviet invasion of Afghanistan In 1986 the new Gorbachev regime allowed him to return to Moscow where he played a central role as both supporter and critic in the years of perestroika Two years after Sakharov s death the Soviet Union collapsed and in the courageous example of his unyielding commitment to human rights skillfully recounted by Bergman Sakharov remains an enduring inspiration for all those who would tell truth to power      **The EC Archives: Modern Love** Al Feldstein,2019-12-24 The complete EC series *Modern Love* collected here contains stories of forbidden love betrayed lovers and strange romances Collects the complete *Modern Love* series 1 8 this volume features in fully remastered digital color the work of comic book greats Al Feldstein Bill Gaines Graham Ingels Wally Wood and more      **Walking Through the Beast** Brenda J. Gray,2010-02      **Common Scents** Janice Carlisle,2004-02-19 Who smells Surveying nearly eighty novels written in the 1860s to answer that impolite question *Common Scents* provides a new reading of Victorian values particularly as they assess the relative merits of men and women spirit and matter In depictions of comparative encounters the commonplace meetings of everyday life such fiction often registers the inequalities that distinguish one individual from another by marking one of them with a smell In a surprisingly consistent fashion these references constitute what cultural anthropologists call an osmology a system of

differentiations that reveals the status within a particular culture of the persons and things associated with specific odors. Featuring often innocuous and even potentially pleasing aromas emanating from food, flowers and certain kinds of labor, novels of the 1860s array their characters into distinct categories, finding in some rather than others olfactory proof of their materiality. Central to this osmology is the difference between characters who give off odors and those who do not, and this study draws upon the work of Victorian psychophysiologists and popular commentators on the senses to establish the subtlety with which fictional representations make that distinction. By exploring the far-reaching implications of this osmology in specific novels by Dickens, Eliot, Meredith, Oliphant, Trollope and Yonge, Common Scents argues that the strikingly similar plots and characterizations typical of the 1860s respond as they do to the economic and political concerns of the decade, reconfigure conventional understandings of the relations between men and women. Determining who smells reveals what Victorian culture at its epitome takes for granted as a deeply embedded common sense, the recognition of whose self-evident truth seems to be as instinctive and automatic as a response to an odor.
