The purpose of *A Catechism for Family Life* Insights from Catholic Teaching on Love Marriage Sex and Parenting is to present the teachings of the Catholic Church as they relate to specific questions in marriage and family life Many Catholics are under catechized and have trouble both understanding and articulating Church teaching on sexuality and marriage to an increasingly challenging culture Pope Francis along with the fathers of the two recent Synods on the Family have called for better formation for those who work in the area of marriage and family life see *Amoris Laetitia* 202 To address this need we gathered pertinent questions facing men women and pastoral workers in marriage and family life We then found passages relevant to these questions by researching Church documents on marriage and family from the past one hundred years These include papal encyclicals apostolic exhortations and addresses Vatican II documents and the Catechism of the Catholic Church Mainstream media coverage of Church events and Church teaching leads many to misunderstand Catholic positions on marriage and family life While the Catholic Church has developed a rich detailed and positive teaching on marriage family and sexuality many Catholics do not have access to this teaching buried as it is in lengthy Church documents which many find intimidating Finding the relevant teaching to address specific questions is not always a simple task either This book's main contribution is to present Church teaching relevant to marriage and family in one volume clearly organized by topic and question

Portals of Promise Debbie Pushor, the Parent Engagement Collaborative the Parent Engagement Collaborative, 2013-10-30 Working with parents is a significant aspect of educators' roles yet it is rare to find curriculum in teacher education programs designed to prepare individuals to consider in philosophical theoretical and pedagogical ways who they will be in relationship with parents and why Schools therefore remain hierarchical structures in which parents are marginalized in relation to decisions affecting teaching and learning This book begins with Pushor's conceptualization of a curriculum of parents a curriculum which explores beliefs and

assumptions about parents a vision for education in which educators work alongside parents and family members in the learning and care of children and a desire for reform She describes a curriculum of parents in the form of three graduate teacher education courses which she lived out in relationship with students Graduate students then capture their experiences immersed in this curriculum what they each took up how it shaped their knowledge attitudes and practices and how they lived it out as they returned to their classrooms schools and early learning centres This book is a storied account of their intense immersion in a curriculum of parents and the resulting impact living that curriculum has had on who they are in relation to parents and families It is an honest and vulnerable account of their shared and individual journeys They puzzle over the complexities and the successes of their work and the resulting impact This is not a book of best practice but an invitation to other educators to consider as they did what they do and how it could be different
