Creation Of Patriarchy:

The Creation of Patriarchy Gerda Lerner, 1986 A radical reinterpretation of Western civilization argues that male dominance has resulted from and can be ended by historical process and identifies key developments

Women and History: The creation of patriarchy Gerda Lerner, 1986 When precisely did the ideas symbols and metaphors of patriarchy take hold of Western civilization When were women so central to the creation of society moved on to the sidelines Where is the evidence to support the notion that male dominance over women is a natural state of things Gerda Lerner's radical review of Western civilization shows that male dominance over women has nothing to do with biology and everything to do with cultural and historical habits Dr Lerner draws her evidence from a host of archaeological literary and artistic sources using them to pinpoint the critical turning points in the allocation of women's roles in society She draws especially on archaeological evidence of the cultures of ancient Hebrew and Mesopotamian societies cultures from which modern Western civilization has largely derived This approach enables her to trace the ways in which men and women have been classified as essentially separate creatures from ancient Greek philosophy onwards and also to examine ways in which their experience of society differs through the structures and symbols of class and religion Most of all by showing patriarchy as the result of an historical process Lerner produces an irresistible argument that it can be altered and ended by similar means In *The Creation of Feminist Consciousness* the eagerly awaited concluding volume of *Women and History* Lerner documents the twelve hundred year struggle of women to free their minds from patriarchal thought to create *Women's History* and to achieve a feminist consciousness In a richly documented narrative filled with inspiring portraits of women Lerner ranges from the Middle Ages to the late 19th century tracing several important ways by which women strove for autonomy and equality One of the most remarkable sections examines over twelve hundred years of feminist Bible criticism Since objections to women's thinking teaching and speaking in public were based on biblical authority most notably passages from Genesis and the writings of St Paul women returned again and again to these texts in an attempt to subvert patriarchal dominance and establish their equality with men This survey of biblical criticism allows Lerner to illustrate her most important insight the discontinuity of women's history She describes how women's history was not passed on from generation to generation forcing women in effect to reinvent the wheel over and over again In a series of fascinating portraits of individual women who resisted patriarchal indoctrination Lerner discusses women mystics such as Hildegard of Bingen Julian of Norwich and later Protestant mystics and brings to life the many women of great literary talent from Christine de Pisan to Louise Labe to Emily Dickinson who simply bypassed patriarchal thought and created alternate worlds for themselves

The Creation of Patriarchy: The creation of feminist consciousness Gerda Lerner, 1986 A major new work by a leading historian and pioneer in women's studies *The Creation of Patriarchy* is a radical reconceptualization of Western civilization that makes gender central to its analysis Gerda Lerner argues that male dominance over women is not natural or biological but the

product of an historical development begun in the second millennium B C in the Ancient Near East As patriarchy as a system of organizing society was established historically she contends it can also be ended by the historical process Focusing on the contradiction between women s central role in creating society and their marginality in the meaning giving process of definition and interpretation Lerner explores such fascinating questions as What can account for women s exclusion from the historical process What could explain the long delay more than 3 500 years in women s coming to consciousness of their own subordinate position She goes back to the cultures of the earliest known civilizations those of the ancient Near East to discover the origins of the major gender metaphors of Western civilization Using historical literary archaeological and artistic evidence she then traces the development of these ideas symbols and metaphors and their incorporation into Western civilization as the basis of patriarchal gender relations Publisher description **Women and History** Gerda Lerner,1986

Resisting Injustice and the Feminist Ethics of Care in the Age of Obama David A.J. Richards,2014-02-05 David A J Richards s Resisting Injustice and The Feminist Ethics of Care in The Age of Obama Suddenly All The Truth Was Coming Out builds on his and Carol Gilligan s The Deepening Darkness to examine the roots of the resistance movements of the 1960s the political psychology behind contemporary conservatism and President Obama s present day appeal as well as the reasons for the reactionary politics against him Richards begins by laying out the basics of the ethics of care and proposing an alternative basis for ethics relationality which is based in convergent findings in infant research neuroscience and evolutionary psychology He critically analyzes patriarchal politics and states that they are rooted in a reactionary psychology that attacks human relationality and ethics From there the book examines the 1960s resistance movements and argues that they were fundamentally oriented around challenging patriarchy Richards asserts that the reactionary politics in America from the 1960s to the present are in service of an American patriarchy threatened by the resistance movements ranging from the 1960s civil rights movements to the present gay rights movement Reactionary politics intend to marginalize and even reverse the ethical achievements accomplished by resistance movements creating in effect a system of patriarchy hiding in democracy Richards consequently argues that Obama s appeal is connected to his challenge to this system of patriarchy and will examine both Obama s appeal and the reactions against him in light of the 2012 presidential election This book positions recent American political development in a broad analysis of the role of patriarchy in human oppression throughout history and argues that a feminist based ethics of care is necessary to form a more humane and inclusive democratic politics **The**

s history Covering a broad sweep of history from colonial to contemporary times and ranging over the fields of Matriarchy and the Creation of Patriarchy Renée Gerlich, 2021 Overview of history from the Big Bang to the present day in bite sized chunks Because the series brings together the work of feminist historians to help address questions that many girls and women carry around unanswered for too long I call it a herstory Matriarchy and the creation of patriarchy explores matriarchal cultures from around the world and the stages by which patriarchy was first created Understanding this herstory helps us to see ourselves and the world we live in with greater clarity so that we can walk a path that is freedom making

Back cover **Popularizing the Past** Nick Witham, 2023-07-26 Popularizing the Past tells the stories of five postwar historians who changed the way ordinary Americans thought about their nation's history What's the matter with history For decades critics of the discipline have argued that the historical profession is dominated by scholars unable or perhaps even unwilling to write for the public In Popularizing the Past Nick Witham challenges this interpretation by telling the stories of five historians Richard Hofstadter Daniel Boorstin John Hope Franklin Howard Zinn and Gerda Lerner who in the decades after World War II published widely read books of national history Witham compellingly argues that we should understand historians' efforts to engage with the reading public as a vital part of their postwar identity and mission He shows how the lives and writings of these five authors were fundamentally shaped by their desire to write histories that captivated both scholars and the elusive general reader He also reveals how these authors' efforts could not have succeeded without a publishing industry and a reading public hungry to engage with the cutting edge ideas then emerging from American universities As Witham's book makes clear before we can properly understand the heated controversies about American history so prominent in today's political culture we must first understand the postwar effort to popularize the past

The Rise of Gay Rights and the Fall of the British Empire David A. J. Richards, 2013-04-22 This book argues that there is an important connection between ethical resistance to British imperialism and the ethical discovery of gay rights It examines the roots of liberal resistance in Britain and resistance to patriarchy in the USA showing the importance of fighting the demands of patriarchal manhood and womanhood to countering imperialism Advocates of feminism and gay rights are key because they resist the gender binary's role in rationalizing sexism and homophobia The connection between the rise of gay rights and the fall of empire illuminates questions of the meaning of democracy and universal human rights as shared human values

that have appeared since World War II The book casts doubt on the thesis that arguments for gay rights must be extrinsic to democracy and reflect Western values To the contrary gay rights arise from within liberal democracy and its critics polemically use such opposition to cover and rationalize their own failures of democracy *The Emergence of Feminism in India, 1850-1920* Padma Anagol,2005 This pioneering and innovative study paces women in India at the height of colonial rule at the centre of analysis Drawing upon rare English and Marathi archival materials Padma Anagol makes a compelling case for the birth of Indian feminism before the coming of Gandhi by also illustrating how collective movements to improve the status of women in India were based upon a consciousness of the inequalities in gender relations **Living on the**

Development Report 2023 Indira Hirway,2024-01-20 This report highlights that gender inequalities and women's subordination in India are caused by two formidable macro structures patriarchy and the exclusion of unpaid work from the

macro economy Both these structures reinforce each other and negatively impact women s empowerment Patriarchy imposes subordination on women and forces a disproportionately higher share of unpaid domestic services and unpaid care onto them This is unfair and unjust a violation of basic human rights Other structures like race religion and caste cut across these main structures The selected papers in this report show how patriarchy causes gender inequalities in all critical dimensions of women s life on the one hand and how unpaid domestic services and unpaid care sustains the macro economy and its growth on the other The contributors discuss pathways to integrate unpaid work with the macro economy such that the strength of patriarchy declines and at the same time gender equality is promoted To put it differently unless the structures are addressed by integrating unpaid work inequalities cannot be addressed effectively The report emphasizes that this is the only way to move to real macroeconomics The papers have explored pathways to break these structures gradually to achieve gender equality and empower women Though the path is challenging it is feasible to reach the goal of pervasive gender equality

bringing a feminist perspective to bear on the contradictions and paradoxes surrounding women and contract and the relation between the sexes she is able to shed new light on the fundamental problems of freedom and subordination The Sexual Contract will become a classic text in the politics of gender and will be of major interest to students of social and political theory and philosophy women s studies sociology and jurisprudence
