When Things Get Back to Normal and Other Stories Constance Pierce, 1986. In a tone at once comic gothic and deceptively pastoral, the stories in this collection continue the tradition of Hawthorne, Poe, and James. Americans pursuing a dialectic with Europe but in a late 20th century context, Constance Pierce's characters with their fetishes for food and property, hide their eyes with daydreams, hallucinations, and enormous feats of rationale in their longing to return to the happy normal state they tell themselves they once enjoyed but which likely never existed at all. Subtly questioning their characters' illusions and nostalgia, these stories set in such territory as World War II Germany, the French countryside, and Long Island Sound, address the often nebulous relationships between private and public life, old and new ideas, fantasy and reality.

Storytelling in Early Childhood
 Teresa Cremin, Rosie Flewitt, Ben Mardell, Joan Swann, 2016-12-08. Storytelling in Early Childhood is a captivating book which explores the multiple dimensions of storytelling and story acting and shows how they enrich language and literacy learning in the early years. Foregrounding the power of children's own stories in the early and primary years, it provides evidence that storytelling and story acting, a pedagogic approach first developed by Vivian Gussin Paley, affords rich opportunities to foster learning within a play-based and language-rich curriculum. The book explores a number of themes and topics, including the role of imaginary play and its dynamic relationship to narrative, how socially situated symbolic actions enrich the emotional, cognitive, and social development of children, how the interrelated practices of storytelling and dramatisation enhance language and literacy learning, and contribute to an inclusive classroom culture. The challenges practitioners face in aligning their understanding of child literacy and learning with a narrow mandated curriculum which focuses on measurable outcomes. Driven by an international approach and based on new empirical studies, this volume further advances the field, offering new theoretical and practical analyses of storytelling and story acting from complementary disciplinary perspectives. This book is a potent and engaging read for anyone intrigued by Paley's storytelling and story acting curriculum, as well as those practitioners and students with a vested interest in early years literacy and language learning. With contributions from Vivian Gussin Paley, Patricia Patsy Cooper, Dorothy Faulkner, Natalia Kucirkova, Gillian Dowley McNamee, and Ageliki Nicolopoulou.
