The Church Impotent Leon J. Podles,1999 The current preoccupation with the role of women in the church obscures the more serious problem of the perennial absence of men This provocative book argues that Western churches have become women s clubs that the emasculation of Christianity is dangerous for the church and society and that a masculine presence can and must be restored After documenting the highly feminized state of Western Christianity Dr Podles identifies the masculine traits that once characterized the Christian life but are now commonly considered incompatible with it He contends that though masculinity has been marginalized within Christianity it cannot be expunged from human society If detached from Christianity it reappears as a substitute religion with unwholesome and even horrific consequences The church too is diminished by its emasculation Dr Podles concludes by considering how Christianity s virility might be restored In the otherwise stale and overworked field of gender studies *The Church Impotent* is the only book to confront the lopsidedly feminine cast of modern Christianity with a profound analysis of its historical and sociological roots

The Whole Works of the late ... Mr. Thomas Boston ... To which is subjoined The Marrow of Modern Divinity (by Edward Fisher), illustrated with ... notes by Mr. Boston. Edited by Alexander Colden and others Thomas BOSTON (the Elder.),1773 *First Things* ,1996 **Studies in Poetic Discourse** Hans-Jost Frey,1996 This study of four major poets Mallarme Baudelaire Rimbaud and Holderlin examines the self reflexivity of modern poetry exploring questions concerning what it means for a poem to be about its own process of saying What does it mean to read and understand a text that is focused not on its content but on its saying What kind of relation does a writer have to the language used in a text How are we to think about the relation of content to the saying In the chapter on Mallarme the author uses several close readings to investigate the referentiality of literature in general and the concept of undecidability in Mallarme For example in *A la nue accablante tu* he shows the way undecidability operates in syntax metaphorics sounds and plays on individual letters of the alphabet The chapter on Rimbaud explores the significance of the poet s famous statement *JE est un autre* I is an other leading to a meditation on the question of the control of the author the relationship between saying and that which is said the way in which language overwhelms the speaker In the Baudelaire chapter the author analyzes the themes of memory and imagination in Baudelaire s writings on painting and Victor Hugo showing how these themes reveal the writer s thoughts on artistic conception and execution The author then reads Holderlin s hymn *Der Rhein* with the fifth of Rousseau s

Reveries du promeneur solitaire showing how in Holderlin's poem and other texts the crucial issue is a paradoxical relationship between lack and fullness or perfection The final Holderlin chapter presents a sustained critique of Heidegger's exegesis of Holderlin opening new avenues in the discussions of both Holderlin and Heidegger Our Hope William Maude, 2023-12-13 Reprint of the original first published in 1875 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost **Dragon Drive** Wayne Dwight Richards, Wayne Richards, 2007-08 As birthrates continue to fall the survival of Diablo Keep is dependent on its herd of Tyrannobos fire breathing two and a half story tall omnivorous long horned cattle **True civilization an immediate necessity, and the last ground of hope for mankind, etc** Josiah WARREN, 1863 Hope in the Thought of Jacques Ellul Lawrence J. Terlizze, 2005-10-30 Hope expresses more than an area of concentration in Ellul's thought it is the central idea that binds his disparate elements together Ellul believed that at this moment of history the world since 1945 hope must preoccupy our thinking and lives To understand hope we must first comprehend its absence This entails discerning what causes the absence of hope namely the world's embrace of technique and the abandonment of God Ellul also rejected these as a positive affirmation He wanted to make a firm distinction between reality and truth He affirmed modern abandonment as a realistic fact as an accurate analysis of the present condition not as an affirmation of the truth Hope is truth in Jesus Christ but truth must be asserted against these harsh facts He used facts to incite hope in believers to shake their complacency and to realize their actual condition in the world The idea of hope in the thought of Jacques Ellul can only be properly understood in light of dialectic struggle between negatives which amount to factual representations of the modern world and positives through which hope exerts itself in the face of these facts From this tension will issue personal resolve Technique has brought the world to great collective heights and achievements but this has come at the expense of personal ends and meaning Ellul attempted to bridge this gap by asserting individual meaning against the aggregated progress of technique without destroying the gains made by collective advance This represents the central dilemma in Ellul's thought how does one maintain meaning and personal aims in a world founded on corporate necessity from the Introduction **A Practical Guide to Recovery-Oriented Practice: Tools for Transforming Mental Health Care** Larry Davidson, 2009 This book takes the lofty vision of recovery and of a life in the community for every adult with a mental illness promised by the U S President's New Freedom Commission and shows the reader what is entailed in making this vision a practical reality for people with mental illnesses and their families
