Drumsense Volume 1:

Drumsense Colin Woolway, 2003-06 The idea of Drumsense is to provide a support system to bring together like minded teachers from all over the United Kingdom and training them to use the same programme This programme will determine a standard of teaching and a diploma will be created to recognise this standard The teachers are required to fly the Drumsense flag in order to achieve this diploma Its approach to beginners The programme is based on the Drumsense books which take the complete novice through the basics of drumkit playing like a foundation course It is this programme that sets the contemporary standard for drumkit teaching which will be used by modern teachers across the country It is also the first programme to be aimed at private and peripatetic schools teachers If a Drumkit student is having lessons at school using the Drumsense books but decides to switch to private lessons he or she simply looks for a teacher using the Drumsense programme and continues from where they left off with the new teacher Or if a students is having private lessons in Southampton and decides to move home to Glasgow lessons can continue with a Drumsense teacher in that area then a teacher trained in the Drumsense programme could fill in without any problem Teachers could even train their own deputies to take over in emergencies

Freedom Within Structure James Sharp, 2025-02-12 The aim of this book is to show how a defined structure in this case an 8 or 4 bar pattern can provide a solid platform for playing with freedom on the drum set There is no set order as such with which to use the studies I have deliberately avoided grading the studies in terms of difficulty as they all offer something to players of all ages abilities and styles The studies are written with a 4 piece set in mind but can easily be adapted to much larger setups
