Drunken King Or The Origin Of The State:

The Drunken King Or The Origin of the State, 1982 **Roi ivre, ou, L'origine de l'Etat** Luc de Heusch, 1982-07-22
de Heusch has achieved a significant advance over L vi Strauss s formulations A landmark contribution to anthropological theory historical methodology structural analysis and African studies Choice A major work that modifies and extends L vi Straussian myth analysis in profound and exciting ways Roy Willis s masterful translation makes technical terms accessible to the general reader *A History of African Societies to 1870* Elizabeth Isichei, 1997-04-13 This comprehensive and detailed exploration of the African past from prehistory to approximately 1870 is intended to provide a fully up to date complement to the Cambridge History of Africa Reflecting several emphases in recent scholarship it focusses on the changing modes of production on gender relations and on ecology laying particular stress on viewing history from below A distinctive theme is to be found in its analyses of cognitive history The work falls into three sections The first comprises a historiographic analysis and covers the period from the dawn of prehistory to the end of the Early Iron Age The second and third sections are for the most part organised on regional lines the second section ends in the sixteenth century the third carries the story on to 1870 A second volume now in preparation will cover the period from 1870 to 1995 This book attempts a more rounded view of African history than most of the other textbooks on the subject addressed to a largely undergraduate level student Earlier histories have tended to ignore some of the current foci in the scholarly literature on Africa generally not reflected in the textbooks these include discussions of topical issues like ecology and gender Isichei s book is also more radical **Social Transformations in Archaeology** Kristian Kristiansen, Michael Rowlands, 2005-10-05 Social Transformations in Archaeology explores the relevance of archaeology to the study of long term change and to the understanding of our contemporary world The articles are divided into broader theoretical issues post colonial issues in a wide range of contexts archaeological examination of colonialism with case studies from the Mediterranean in the first millenium BC and historical Africa **Invisible Agents** David M. Gordon, 2012-11-26 Invisible Agents shows how personal and deeply felt spiritual beliefs can inspire social movements and influence historical change Conventional historiography concentrates on the secular materialist or moral sources of political agency Instead David M Gordon argues when people perceive spirits as exerting power in the visible world these beliefs form the basis for individual and collective actions Focusing on the history of the south central African country of Zambia during the nineteenth and twentieth centuries his analysis invites reflection on political and religious realms of action in other parts of the world and complicates the post Enlightenment divide of sacred and profane The book combines theoretical insights with attention to local detail and remarkable historical sweep from oral narratives communicated across slave trading routes during the nineteenth century through the violent conflicts inspired by Christian and nationalist prophets during colonial times and ending with the spirits of Pentecostal rebirth during the neoliberal order of the late twentieth century To gain access to the details of historical change and personal spiritual beliefs

across this long historical period Gordon employs all the tools of the African historian His own interviews and extensive fieldwork experience in Zambia provide texture and understanding to the narrative He also critically interprets a diverse range of other sources including oral traditions fieldnotes of anthropologists missionary writings and correspondence unpublished state records vernacular publications and Zambian newspapers Invisible Agents will challenge scholars and students alike to think in new ways about the political imagination and the invisible sources of human action and historical change

Experiments in Holism Ton Otto, Nils Bubandt, 2010-10-25 Experiments in Holism Experiments in Holism Theory and Practice in Contemporary Anthropology presents a series of essays that critically examine the ongoing relevance of holism and its theoretical and methodological potential in today s world Contributions from a diverse collection of leading anthropologists reveal how recent critiques of the holistic approach have not led to its wholesale rejection but rather to a panoply of experiments that critically reassess and reemploy holism The essays focus on aspects of holism including its utilization in current ethnographic research holistic considerations in cultural anthropology the French structuralist tradition the predominantly English tradition of social anthropology and many others Collectively the essays show how holism is simultaneously central to and problematically a part of the theory and practice of anthropology Experiments in Holism

reveals how contemporary attempts to rescale and retool anthropology entail new ways of coming to terms with anthropology's heritage of holism seeking to obviate its current excesses while recapturing its critical potential to meet the challenges of our contemporary world The Oxford Handbook of Religion and Violence Mark Juergensmeyer, Margo Kitts, Michael K.

Jerryson, 2015-11 Violence has always played a part in the religious imagination from symbols and myths to legendary battles from colossal wars to the theater of terrorism The Oxford Handbook of Religion and Violence surveys intersections between religion and violence throughout history and around the world The forty original essays in this volume include overviews of major religious traditions showing how violence is justified within the literary and theological foundations of the tradition how it is used symbolically and in ritual practice and how social acts of violence and warfare have been justified by religious ideas The essays also examine patterns and themes relating to religious violence such as sacrifice and martyrdom which are explored in cross disciplinary or regional analyses and offer major analytic approaches from literary to social scientific studies The contributors to this volume innovative thinkers who are forging new directions in theory and analysis related to religion and violence provide novel insights into this important field of studies By mapping out the whole field of religion and violence The Oxford Handbook of Religion and Violence will prove an authoritative source for students and scholars for years to come **Sovereign Bodies** Thomas Blom Hansen, Finn Stepputat, 2009-01-13 9 11 and its aftermath have shown that our

ideas about what constitutes sovereign power lag dangerously behind the burgeoning claims to rights and recognition within and across national boundaries New configurations of sovereignty are at the heart of political and cultural transformations globally Sovereign Bodies shifts the debate on sovereign power away from territoriality and external recognition of state power toward the shaping of sovereign power through the exercise of violence over human bodies and populations In this volume sovereign power whether exercised by a nation state or by a local despotic power or community is understood and scrutinized as something tentative and unstable whose efficacy depends less on formal rules than on repeated acts of violence Following the editors introduction are fourteen essays by leading scholars from around the globe that analyze cultural meanings of sovereign power and violence as well as practices of citizenship and belonging in South Africa Peru India Mexico Cyprus Norway and also among transnational Chinese and Indian populations Sovereign Bodies enriches our understanding of power and sovereignty in the postcolonial world and in the West while opening new conceptual fields in the anthropology of politics The contributors are Ana Mar a Alonso Lars Buur Partha Chatterjee Jean Comaroff and John L Comaroff Oivind Fuglerud Thomas Blom Hansen Barry Hindess Steffen Jensen Achille Mbembe Aihwa Ong Finn Stepputat Simon Turner Peter van der Veer and Yael Navaro Yashin Shakespeare's Early History Plays Dominique

Goy-Blanquet, 2003 Like many of his fellow playwrights Shakespeare turned to national history for inspiration In this study Dominique Goy Blanquet provides a close comparison of the Henry VI plays and Richard III with their historical and theatrical sources demonstrating how Shakespeare was able to meet not only the ideological but also the technical problems

of turning history into drama how by cutting carving shaping casting his unwieldy material into performable plays he matured into the most influential dramatist and historian of his time Recent criticism of Shakespeare s history plays has often consisted of fierce arguments over their ideological import and Shakespeare s position on the spectrum of current political opinions This book however stems from the belief that a more constructive starting point for research is the exploration of the technical problems raised by turning heavy narratives into performable plays rather than the political motives that could inspire a playwright s representation of national history Illuminating and instructive Shakespeare s Early History Plays includes not only close investigation of the verbal poetic and political texture of the plays but also provides a broad overview of the wider sixteenth century historiographical contexts of the plays and their significance to Shakespeare s oeuvre more generally

Beyond Rationalism Bruce Kapferer,2003-02-01 This book seeks a reconsideration of the phenomenon of sorcery and related categories The contributors to the volume explore the different perspectives on human sociality and social and political constitution that practices typically understood as sorcery magic and ritual reveal In doing so the authors are concerned to break away from the dictates of a western externalist rationalist understanding of these phenomena without falling into the trap of mysticism The articles address a diversity of ethnographic contexts in Africa Asia the Pacific and the Americas

Inconsistencies in Greek and Roman Religion H. S. Versnel,1990 This second volume of a two part collection of studies on inconsistencies in Greek and Roman religion focuses on the ambiguities in myth and ritual of transition and reversal

A History of West Central Africa to 1850 John K. Thornton,2020-03-26 An accessible interpretative history of West Central Africa from earliest times to 1852 with comprehensive and in depth coverage of the region

The Creation of Tribalism in Southern Africa Leroy Vail,1991-01-07 Despite a quarter century of nation building most African states are still driven by ethnic particularism commonly known as tribalism The stubborn persistence of tribal ideologies despite the profound changes associated with modernization has puzzled scholars and African leaders alike The bloody hostilities between the tribally oriented Zulu Inkhata movement and supporters of the African National Congress are but the most recent example of tribalism s tenacity The studies in this volume offer a new historical model for the growth and endurance of such ideologies in southern Africa

River of Blood J. M. Schoffeleers,1992 The culmination of years of fieldwork in

southern Malawi River of Blood reconstructs the beginnings of the Mbona martyr cult follows its history to the present day and reveals the fascinating intersections of an indigenous belief system with European Christianity In the cult of Mbona the central African mythology of the snake that is beheaded to make the rains come has been combined with a more spiritual interpretation the snake has been transformed into a human martyr and redeemer According to the cult the rainmaker Mbona was tracked down by his enemies they cut off his head and his blood formed the River of Blood Mbona returned as a storm wind and asked that a shrine be dedicated in his name J Matthew Schoffeleers recounts how the Portuguese presence in Zambezia in the period 1590 1622 led to more than three decades of internecine warfare and caused the people of southern Malawi tremendous suffering In response to this political oppression and social upheaval Schoffeleers shows the people looked to Mbona their black Jesus for redemption Beyond reconstructing the cult s genesis Schoffeleers traces its recent history particularly in political context He provides texts of seven cult myths from different historical periods in both Chimanga and English His analysis presents the Mbona myth as a continuous social construction and deconstruction Emphasizing the impact of political and spiritual oppression on the cult he distinguishes between the differing versions of the myth preserved by the aristocracy and by the commonalty and demonstrates how these disparate views unite to preserve historical information In so doing he shows that cults serve as valuable repositories for historical information
