Olive, Peter C. West, 1999-07-08 This is the first systematic introduction to electromagnetic duality and its generalisations The authors are the leading figures in this exciting new area of mathematical physics and their lectures have been organised not only to link with each other but also to describe the fundamental ideas the latest developments and some earlier work whose significance has only recently become apparent This will be essential reading for all those working in mathematical physics *Duality Theory for Some Commutative Semigroups* Charles Ward Austin, 1962 **Duality for Automorphisms on a Compact C* -dynamical System** David E. chapter of examples from algebra and topology including a detailed construction for the example of cobordisms
