Reinberger, Elizabeth McLean, 2015-10-21 A highly readable beautifully illustrated study of the homes built by elite colonial Philadelphians as retreats which balanced English models with developing local taste Colonial Americans if they could afford it liked to emulate the fashions of London and the style and manners of English country society while at the same time thinking of themselves as distinctly American The houses they built reflected this ongoing cultural tension By the mid eighteenth century Americans had developed their own version of the bourgeois English countryseat a class of estate equally distinct in social function and form from townhouses rural plantations and farms The metropolis of Philadelphia was surrounded by a particularly extraordinary collection of country houses and landscapes Taken together these estates make up one of the most significant groups of homes in colonial America In this masterly volume Mark Reinberger a senior architectural historian and Elizabeth McLean an accomplished scholar of landscape history examine the country houses that the urban gentry built on the outskirts of Philadelphia in response to both local and international economic forces social imperatives and fashion What do these structures and their gardens say about the taste of the people who conceived and executed them How did their evolving forms demonstrate the persistence of European templates while embodying the spirit of American adaptation *The Philadelphia Country House* explores the myriad ways in which these estates which were located in the country but responded to the ideas and manners of the city straddled the cultural divide between urban and rural Moving from general trends and building principles to architectural interiors and landscape design Reinberger and McLean take readers on an intimate tour of the fine fashionable elements found in upstairs parlors and formal gardens They also reveal the intricate working world of servants cellars and kitchen gardens Highlighting an important aspect of American historic architecture this handsome volume is illustrated with nearly 150 photographs more than 60 line drawings and two color galleries *A Description of the East and Some Other Countries* Richard Pococke, 1745 **The Country House Revisited** Tereza Topolovská , 2017-08-01 This monograph provides an insight into English country house fiction by twentieth

and twenty first century authors with a focus on the works of E M Forster Evelyn Waugh Iris Murdoch Alan Hollinghurst and Sarah Waters The country house is explored within the wider social and cultural contexts of the period including contemporary architectural development The variety of literary depictions of the country house reflects the physical diversification of buildings which can be classified as such from smaller variants to formerly grand residences on the brink of physical collapse Within the scope of contemporary fiction architecture and poetics of space the country house given its uniquely integrating and exceptionally evocative qualities accentuates different conceptions of dwelling Consequently literary portrayals of the country house can be seen as both prefiguring and reflecting the contemporary practice of living
