Coup Tactics In The Seizure Of Power:

The Coup Bruce W. Farcau, 1994-04-30 This book provides a paradigm of the coup and provides a historical basis for that paradigm that is unsurpassed in its objectivity and research The author of this book has spent over a decade living and working with military and political figures throughout Latin America His book is both an educational and an exciting peek into the dark world of military subversion by an observer who has seen it first hand The coup d etat has defied all attempts at rational analysis This is hardly surprising in that it is born in darkness and very frequently dies there only coming to light in the last moments before either a bloody defeat or a stunning success The participants on the military side are frequently reluctant to discuss their activities even long after the fact and their civilian victims can usually only guess at what happened to them Previous studies have often been heavily tainted by the politics of the writer categorizing the coup as a product of class struggle the cold war or outright foreign intervention by the superpowers The author of this book has spent over a decade living and working closely with military and political figures throughout Latin America and has used the fruits of literally hundreds of encounters ranging from simple interviews to longtime friendships to piece together an insightful picture of this nebulous but very real phenomenon He has identified the motives of coup plotters and the means by which they go about building the coalition necessary to overthrow a government Rather than use hypothetical cases to illustrate his points he has drawn on history to demonstrate how coups succeed and why they fail This book is both an educational and an exciting peek into the dark world of military subversion by an observer who has seen it first hand

Dictionary of International Security Paul Robinson, 2008 This dictionary provides readers with a handy reference guide to the field of international security by including over 200 articles on a wide range of concepts issues treaties and institutions from absolute war to weapons of mass destruction

Lebanon Adel Beshara, 2013-01-11 Lebanon examines the ideological political and social underpinnings of the attempted coup against General Chihab s government in Lebanon in 1961 The author analyzes the role of the Syrian Socialist Nationalist Party the history of the army in Lebanon and its role in Lebanese politics and the impact of the coup on Lebanese political life This book provides an extraordinary insight into the mechanisms of military coups in the Arab world and will be of interest to students and researchers of the history and politics of the Middle East

Disobedience and Conspiracy in the German Army, 1918-1945 Robert B. Kane, 2008-04-24 This work examines among other topics the personal oath of loyalty that the officers of the German army swore to Adolf Hitler on August 2 1934 It discusses how the majority of officers those who did not become conspirators against him complied with Hitler s orders until May 1945 despite his cruel treatment of soldiers militarily unsound strategy and tactics and the widespread destruction and crimes he and his forces committed The oath taken by the officers had a strong psychological effect among a proud corps with a long history of obedience and honor They followed Hitler to the end even though they knew they were fighting a losing battle The author also examines why and how only a few officers the conspirators began to break away lose trust in Hitler

oppose him and finally stage an assassination attempt This history traces the development within the German army from 1918 of the philosophies of loyalty and disloyalty and obedience and disobedience as challenged by the Hitlerian oath of loyalty

Shaping Strategy Risa Brooks, 2018-06-05 Good strategic assessment does not guarantee success in international relations but bad strategic assessment dramatically increases the risk of disastrous failure The most glaring example of this reality is playing out in Iraq today But what explains why states and their leaders are sometimes so good at strategic assessment and why they are sometimes so bad at it Part of the explanation has to do with a state's civil military relations In *Shaping Strategy* Risa Brooks develops a novel theory of how states' civil military relations affect strategic assessment during international conflicts And her conclusions have broad practical importance to anticipate when states are prone to strategic failure abroad we must look at how civil military relations affect the analysis of those strategies at home Drawing insights from both international relations and comparative politics *Shaping Strategy* shows that good strategic assessment depends on civil military relations that encourage an easy exchange of information and a rigorous analysis of a state's own relative capabilities and strategic environment Among the diverse case studies the book illuminates Brooks explains why strategic assessment in Egypt was so poor under Gamal Abdel Nasser prior to the 1967 Arab Israeli war and why it improved under Anwar Sadat The book also offers a new perspective on the devastating failure of U S planning for the second Iraq war Brooks argues that this failure far from being unique is an example of an assessment pathology to which states commonly succumb

International Encyclopedia of Military History James C. Bradford, 2004-12 With its impressive breadth of coverage both geographically and chronologically the *International Encyclopedia of Military History* is the most up to date and inclusive A Z resource on military history From uniforms and military insignia worn by combatants to the brilliant military leaders and tacticians who commanded them the campaigns and wars to the weapons and equipment used in them this international and multi cultural two volume set is an accessible resource combining the latest scholarship in the field with a world perspective on military history

IBSS: Political Science: 1994 British Library of Political and Economic Science at the London School of Economics, 1995-12-08 The IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences

Encyclopedia of Conflicts since World War II James Ciment, Kenneth Hill, 2012-12-06 This copiously illustrated A Z reference presents the most in depth information available about the various conflicts the world has endured local regional and international since World War II Some 142 conflicts are discussed and analyzed The *Encyclopedia of Conflict since World War II* with its coverage of all the countries of the world fills a critical need for clear comprehensive explanations of events not covered in such detail in any other reference source Entries end with an extensive bibliography and the encyclopedia includes maps chronologies and a general bibliography as well as an index designed to make the reader understand the correlation and relationships between individual conflicts

Revolution

and Order Ivana Spasić, Milan Subotić, 2001 **The Strategy and Tactics of World Communism** United States. Congress. House. Committee on Foreign Affairs, 1949 **Endgames** Hicham Bou Nassif, 2020-10 Explores the different military responses to popular uprisings during the 2011 Arab Spring in Egypt Syria Tunisia and Libya The Strategy and Tactics of World Communism United States. Congress. Senate. Committee on Foreign Relations, 1949 *United We Stand?* Aaron Belkin, 2012-02-01 It has long been assumed that leaders engage in international conflict to unify their followers what is often called the rally round the flag hypothesis Despite its intuitive appeal however this hypothesis does not always provide a compelling explanation of the relationship between domestic politics and international conflict In *United We Stand* Aaron Belkin shows that in one important realm civil military relations leaders often prefer divisiveness over cohesion When they feel domestically vulnerable leaders use international conflict in order to create and exacerbate rivalries among their own military forces to lower the risk of a coup and to contribute to the consolidation and stability of the political order Case studies include post Soviet Georgia and Syria *Air University Library Index to Military Periodicals*, 1996 **Anthology of Related Topics on Counterinsurgency**, 1963 *Inside War* Fabio Armao, 2016-02-22 The post Cold War era was characterised by both the recurrence of state wars and the spread of forms of organised violence other than wars Asymmetric warfare between alliances led by the USA and groups of insurgents such as those witnessed in Afghanistan and Iraq coexist alongside domestic conflicts such as that of former Yugoslavia and more recently Libya and Syria and still other conflicts involving gangs mafias or narco traffickers The massive military industrial complexes conceived in the context of the threat of nuclear Armageddon are still there of course but they now coexist with irregular armies of insurgents carrying out massacres through the use of light weapons and improvised explosives devices This book oppose the idea that this situation prefigures the return to an anarchical pre political condition by assuming that new wars are rather the product of the blurring of the public private divide induced by the end of the Cold War together with globalisation As a consequence also the internal and external factors are blurred and ever more permeable and elusive is becoming even the border between war and crime *Inside War* goes beyond a state centered analysis and adopts an interdisciplinary and multilayered approach and is intended to foster the dialogue among researchers from different fields It places war at the core of analysis assuming that the reality of war is what we make of it and that the only insurmountable limit to our comprehension of war is our way of knowing and representing it Fabio Armao teaches courses in Politics and Globalisation Processes and Criminal Systems He has been Visiting Professor at Cornell University and co convenor of the Standing Group on Organized Crime European Consortium for Political Research Founding member of T wai Torino World Affair Institute he is also member of the Editorial Board of Global Crime His research interests and publications focus on international wars and geopolitics on violent non state actors and transnational organised crime and on urban security Latin American Politics David Close, 2017-05-18 *Latin American Politics* Second Edition is a thematic introduction to the political systems of all 20 Latin American countries

The approach is self consciously comparative and encourages students to develop stronger comparative analysis skills through such topics as history violence democracy and political economy Fully updated and revised this second edition also includes a new chapter on parties elections and movements Each chapter is now framed by a prologue and an epilogue to engage students and provide more country specific content

Handbook of Latin American Studies Dolores Moyano Martin,P. Sue Mundell,1997-12-01 Beginning with volume 41 1979 the University of Texas Press became the publisher of the Handbook of Latin American Studies the most comprehensive annual bibliography in the field Compiled by the Hispanic Division of the Library of Congress and annotated by a corps of more than 130 specialists in various disciplines the Handbook alternates from year to year between social sciences and humanities The Handbook annotates works on Mexico Central America the Caribbean and the Guianas Spanish South America and Brazil as well as materials covering Latin America as a whole Most of the subsections are preceded by introductory essays that serve as biannual evaluations of the literature and research underway in specialized areas The Handbook of Latin American Studies is the oldest continuing reference work in the field Dolores Moyano Martin of the Library of Congress Hispanic Division has been the editor since 1977 and P Sue Mundell has been assistant editor since 1994 The subject categories for Volume 55 are as follows Anthropology including Archaeology and Ethnology Economics Electronic Resources for the Social Sciences Geography Government and Politics International Relations Sociology

Military Intelligence ,1984 The Transition to Democracy in Latin America Bruce W. Farcau,1996-09-24 This book examines the role of the military in the wave of democratization that has swept through Latin America in the past decade Although much of the leading literature on the transition to democracy recognizes the importance of hardline and softline factions within the military in this process the author takes this study one step further to investigate the motivations of the military officers themselves Using the cases of Brazil and Bolivia and relying on dozens of interviews with military officers politicians jurists and other observers throughout Latin America he determines that the factions attitudes do not depend primarily on ideological commitment but on the leaders calculation as to the career benefits to their followers of either supporting or opposing democratization In terms of policy making it is important to recognize this distinction in order to help preserve the fragile democracies which are already under threat from the military once again

Yeah, reviewing a books **Coup Tactics In The Seizure Of Power** could amass your close friends listings. This is just one of the solutions for you to be successful. As understood, success does not recommend that you have astounding points.

Comprehending as capably as harmony even more than supplementary will have enough money each success. adjacent to, the proclamation as without difficulty as perspicacity of this Coup Tactics In The Seizure Of Power can be taken as competently as picked to act.
