**End Time Rewind: An Exploration In Bible Prophecy And The Fate Of The World** Steven Sabatino, Remember when End Time Rewind warned you not to fall for the Doomsday Rapture theories of Dispensational Premillennialism and their Zionist partners Well now that we've survived John Hagee's Four Blood Moons Jonathan Cahn's Super Shemitah and the menacing tentacles of the now defunct European Union and Islamic State the supposed Beast Kingdoms of Revelation 17 the Futurist's next false claim centers around the 70-year anniversary of Israel's founding Is the Jewish State really the prophetic clock by which God aligns world events and the return of Christ Many Doomsday Rapture forecasts have been put forth in the name of Futurism since the 2nd century AD none of which have come to fruition This is disconcerting because failed predictions and false expectations promoted by our Christian counterparts diminishes the credibility of the Bible and scars the reputation and integrity of the Prophetic Office of Jesus Christ The age-old tried and true Orthodox aka Partial or Classical Preterist approach maintains that the majority of Bible prophecies were already fulfilled by the end of the first century AD and included Jesus appearing in an Old Testament styled non-physical manifestation with power and great glory All that remains to be accomplished in the future is for Jesus Christ to physically return to raise the dead which is when the rapture also occurs preside over the final judgment and create a new heaven and earth devoid of sin and death where the new and holy Jerusalem from heaven descends as per Revelation 20:7 Revelation 22:5

*Europeans to the Close of the Territorial Government, in 1816* John Brown Dillon, 1859      *The History of Indiana, from Its Earliest Exploration by Europeans, to the Close of the Territorial Government, in 1816* John Brown Dillon, 1859      *Lyric Poetry and Space Exploration from Einstein to the Present* Margaret Greaves, 2023-05-23

Poetry and astronomy often travel together in the political sphere from Milton's meeting with Galileo under house arrest to NASA's practice of launching poems into space. Anchored in the post-war period but drawing on a long history of poetry and science, *Lyric Poetry and Space Exploration from Einstein to the Present* charts the surprising connection between poetry and extra-terrestrial space. In an era defined by the vast scales of globalization, environmental disaster, and space travel, poets bring the small scales of lyric intimacy to bear on cosmic immensity. While outer space might seem the domain of more popular genres, lyric poetry has ancient and enduring associations with cosmic inquiry that have made it central to post-war space culture. As the Cold War played out in space, American institutions and media from NASA to *Star Trek* enlisted poetry to present space exploration as a peaceful mission on behalf of humankind. Meanwhile, poets from across the globe have turned to the cosmos to contest American imperialism, challenging conventional ideas about lyric poetry in the process. Poets including Elizabeth Bishop, Adrienne Rich, Seamus Heaney, Derek Walcott, Agha Shahid Ali, and Tracy K. Smith invoke the extra-terrestrial to interrogate national histories alongside their craft. Dazzled by the aesthetics of astronomy but wary of its imperial uses, poets employ astronomical figures and methods to imagine how we might care for both ourselves and others on a shared planet.
