Coventry at War Alton Douglas, Gordon Stretch, Clive Hardy, Jo Douglas, 2000 An illustrated history of Britain s motor city Coventry during World War II

Echoes of the Coventry Blitz Gerry van Tonder, 2018-06-30 Smoke rises in the City of Three Spires the smouldering remnant of the Nazi hate Coventry and England will remember and repay From August 1940 Hitler s Luftwaffe mercilessly and indiscriminately bombed cities and towns in Britain The historic West Midlands city of Coventry did not escape the carnage as night after night high explosive and incendiary bombs rained down on the hapless production centre of cars munitions and aero engines Today the iconic shell of Coventry s once majestic medieval cathedral offers a silent memorial of remembrance to that dreadful night For the city s residents of now it is a poignant echo of a violent and destructive part of their history With carefully selected photographs Gerry van Tonder tells the story of Coventry s blitz through a series of ghost photographs where historic wartime images are blended with their modern counterpart to create a fascinating window in to Coventry s past Also drawing from contemporary press accounts of the Coventry Blitz this book presents a totally unique comparative insight into the Nazi bombing of Coventry in the Second World War

Coventry Frederick Taylor, 2015-11-10 The German Luftwaffe s air raid on Coventry England on the night of November 14 1940 represented a new kind of air warfare Aimed primarily at obliterating all aspects of city life it was systematic thorough unconnected to any immediate military goal and indifferent to civilian casualties In a single night roughly two thirds of the city s buildings were damaged or destroyed as the bombers laid waste to legitimate industrial targets and civilian structures alike The old St Michael s Cathedral a 14th century Gothic structure that burned to the ground that night still stands in ruins today as a testament to the city s destruction during the raid Pragmatic British government propagandists would exploit Coventry s perceived status as a historic town playing down the city s industrial reputation This would prove to be a powerful tool and as Frederick Taylor shows was instrumental in tipping public opinion in the then neutral United States away from isolationism and in favor of help for Britain But the bombing would also set a dangerous and destructive precedent as Allied air forces would study the Germans methods in the attack and ultimately employ similar tactics in their equally ruthless and destructive attacks on German cities eventually leading to the bombing of Hamburg in 1943 and Dresden in 1945 that killed hundreds of thousands mostly civilians On the 75th anniversary of the Coventry bombing acclaimed historian Frederick

Taylor brilliantly narrates this momentous act and analyzes its impact on World War II and the moral quandaries it still engenders about the nature of warfare

The Blitzed City Karen Farrington, 2015-09-03 The Luftwaffe's targetting and destruction of Coventry city remains the biggest and most destructive air raid on British soil during the Second World War. Seen as a centre of British armaments production the German high command wished to inflict terror and panic on the British public a plan that had paid dividends during their relentless conquest of France that year. Attacking over two nights in November 1940 they systematically bombed and destroyed the bulk of the city making thousands homeless and killing over 400 men, women and children. Such was the devastation, panic and disorder it wrought that Winston Churchill ordered a news blackout for three weeks in order to quell the unease and morale sapping effect that the raid had. But people at the time acted with great bravery to save those trapped in bombed out and burning buildings as well as caring for those badly injured of which there were thousands and fighting the Nazi planes coming in to attack the city itself. Now for the very first time we interview those veterans who survived the raid and helped fight the flames and bombs to tell the story of this iconic event. Such was the effect it had on the country that when Bomber Command began night time raids against German cities Hamburg, Cologne and most famously Dresden the call Remember Coventry went up

Coventry at War in Photographs, 1987-01-01 Veterans' Voices Caroline Freeman-Cuerden, 2005-01-01 Turning the focus away from the city itself Caroline Freeman Cuerden has listened to the memories of 23 veterans just a few of the thousands of Coventry men and women who served and fought in World War II. Their stories are recounted here in their own words interspersed with letters, documents, diary excerpts and photographs

Coventry's Blitz David McGrory, 2015-08-15 The first book on the blitz that blighted Coventry during the Second World War commemorating its 75th anniversary

Great War Britain Coventry: Remembering 1914-18 Peter Walters, 2016-07-07 The First World War claimed over 995 000 British lives and its legacy continues to be remembered today. Great War Britain Coventry offers an intimate portrayal of the city and its people living in the shadow of the war to end all wars. A beautifully illustrated and highly accessible volume it describes local reaction to the outbreak of war, charts the experience of individuals who enlisted, the changing face of industry, the work of the many hospitals in the area, the effect of the conflict on local children, the women who defied convention to play a vital role on the home front and concludes with a chapter dedicated to how the city and its people coped with the transition to life in peacetime once more. The Great War story of Coventry is told through the voices of those who were there and is vividly illustrated through evocative images from the archives of Culture Coventry

Coventry and the Great War David McGrory, 2016-03-15 The incredible story of how the First and Second World Wars changed Coventry forever

Coventry New Architecture Grant Lewison, Rosalind Billingham, 1969

Coventry Frederick Taylor, 2016 On the evening of Thursday 14 November 1940 began the most severe bombing to hit Coventry during the Second World War. This raid represented a new kind of air warfare, one which sacrificed any immediate military goals and instead focused on obliterating all aspects of city life. By playing down

the fact that Coventry was an industrial city and key centre for British armaments and therefore a fair target attention was drawn to the destruction of an ancient historic town and the total indifference of the bombers to civilian casualties in this way the systematic bombing of this city was successfully exploited by the British by several means Initially the media used reports and horrific images to tip American opinion away from isolationism and in favour of help for Britain Also while the politicians and military establishment were furiously condemning this raid in public they were busily appreciating the effectiveness of this method Finally the German tactics provided not only a blueprint for obliteration but also allowed the Allied forces to justify later bombing raids of Germany which resulted in over half a million victims many of whom were civilians Frederick Taylor draws upon numerous sources to reveal the true repercussions of the bombing of Coventry in November 1940 He teases out the truth behind the persistent rumours and conspiracy theories that Coventry may have been left undefended to protect Britain's knowledge of the Enigma codes This major work of history assesses this significant turning point in modern warfare considers how it affected Britain's status in the war and looks at whether this attack really could provide justification for the horror of Dresden 1945 Book jacket

Coventry in the Great War Leonard Markham, 2014 During World War One the city of Coventry was a powerhouse that kept the barrels loaded and the engines of war purring An industrial giant Coventry produced munitions by the million and built tanks aircraft and fighting vehicles of every description It never slept Coventry in the Great War commemorates the centenary of the outbreak of the conflict in 1914 telling the dour and ungilded story of the people who labored and endured for over four grueling years This eclectic narrative of the lives of city residents and incomers alike is juxtaposed with often bloody accounts from the many theaters of war to give a representative and nuanced picture of one of the darkest chapters in world history The 100th anniversary of the firing of the first fateful bullet is not a time for celebration but rather an opportunity for quiet reflection and studied lesson learning The 2 599 men of Coventry who died in the cause of freedom deserve no less During the First World War the advanced state of the machine tooling industry in the city meant that pre war production could quickly be turned to war production purposes with the Coventry Ordnance Works assuming the role of one of the leading production centres in the UK manufacturing a quarter of all British aircraft produced during the war But the experience of war also impacted on the inhabitants of the area from the initial enthusiasm for sorting out the German Kaiser in time for Christmas 1914 to the gradual realization of the enormity of human sacrifice the families of Coventry were committed to as the war stretched out over the next four years The Great War affected everyone At home there were wounded soldiers in military hospitals refugees from Belgium and later on German prisoners of war There were food and fuel shortages and disruption to schooling The role of women changed dramatically and they undertook a variety of work undreamed of in peacetime Extracts from contemporary letters reveal their heroism and give insights into what it was like under battle conditions

Coventry Caroline Gould, 2015-07-15 The Coventry Blitz of 14 November 1940 was a key event of the Second World War and in the growth of public consciousness of the destructive power of warfare The medieval city already undergoing rapid change was largely destroyed on that night The destruction was seen as an opportunity by some including the then City Architect Donald Gibson The result was the first of the master plans for post war redevelopment of Britain's bombed city centres The redevelopment of Coventry city centre to plans by Gibson and his successors provided an intensely urban and civilised centre embodying new planning principles Post war Coventry was hugely influential and Gibson's ideas helped to shape the rebuilding of other city centres the post war new towns and developments in Europe Despite incremental change in the subsequent decades the planning and architecture of Gibson's city centre are still clearly legible The modern demands of a growing city on its centre are now very different from those of the post war years Coventry needs to grow and plan for its future and change will inevitably affect the city centre This book aims to inform the public and decision makers of the significance of Coventry and especially its centre so that change can be managed in ways that will continue the life use and enjoyment of the best of Coventry's remarkable post war heritage **A Coventry Kid** Les Ryan, 2012-09-19 This collection of memoirs and newspaper articles previously printed in The Coventry Evening Telegraph charts the fascinating story of an ordinary boy growing up in extraordinary times Les Ryan offers a priceless snapshot of working class life during the twentieth century Starting from his birth during the First World War Les memoirs progress through 1920s poverty and strife the 1930s Depression early manual jobs his time spent serving in the army during World War II the tough post War years working on a car factory assembly line and his time working as a Special for the Coventry Police during the 1960s A priceless piece of social history with tales of sadness joy and hilarity Coventry and Warwickshire 1914-1919 Chris Holland, 2012

The City of Coventry Adrian Smith, 2006-10-27 The image of Coventry in flames was one of the most haunting of the Second World War Yet the excitement and optimism of the 1950s and 1960s were succeeded by a quarter century of urban blight and economic slump The collapse of manufacturing industry machine tools aeroplanes cars left a proud community adrift and demoralised Today a revitalised twenty first century city Coventry has embraced the new millennium and evolved from bleak post industrial desert to vibrant cultural oasis in the process rediscovering a sense of purpose and a vision for the future The City of Coventry tells the story of an experiment in social democracy carried out by a Labour controlled council which envisaged the bomb shattered city as a model of urban regeneration and imaginative planning Post war reconstruction could be a striking success as in the pedestrian friendly Precinct and the bold new cathedral or a notable failure as in the ever more intrusive ring roads and grim high rise flats In offering a fresh perspective on the city this innovative volume of essays rediscovers Coventry as an inspiration for poets and painters such as Philip Larkin and Terry Frost musicians as

varied as Benjamin Britten and The Specials and film makers such as Humphrey Jennings whose Heart of Britain was shot in the immediate aftermath of the Blitz Adrian Smith skilfully mixes memoir family history and meticulous scholarship to paint a complete and incisive portrait of Coventry Drawing on new research into topics as diverse as the place of Surrealism in West Midlands culture and the shadowy presence of rugby league in a union bastion Smith brings a unique insight into the recent history of his native city Attractively presented highly readable and with broad appeal The City of Coventry is a lively re examination of an iconic city of the twentieth century illuminating the profound changes that engulfed industrial England during and after the Second World War **Air Raid** Norman Longmate,1978
