Coyote In The Maze:

The Poetics and Politics of the Desert Catrin Gersdorf, 2009 This study explores the ways in which the desert as topographical space and cultural presence shaped and reshaped concepts and images of America Once a territory outside the geopolitical and cultural borders of the United States the deserts of the West and Southwest have since emerged as canonical American landscapes Drawing on the critical concepts of American studies and on questions and problems raised in recent debates on ecocriticism *The Poetics and Politics of the Desert* investigates the spatial rhetoric of America as it developed in view of arid landscapes since the mid nineteenth century Gersdorf argues that the integration of the desert into America catered to the entire spectrum of ideological and political responses to the history and culture of the US maintaining that the Americanization of this landscape was and continues to be staged within the idiomatic parameters and in reaction to the discursive authority of four spatial metaphors garden wilderness Orient and heterotopia

Thoreaus Sense of Place

Richard J. Schneider, 2000-05 Recent Thoreau studies have shifted to an emphasis on the green Thoreau on Thoreau the environmentalist rooted firmly in particular places and interacting with particular objects In the wake of Buell's *Environmental Imagination* the nineteen essayists in this challenging volume address the central questions in Thoreau studies today how green how immersed in a sense of place was Thoreau really and how has this sense of place affected the tradition of nature writing in America The contributors to this stimulating collection address the ways in which Thoreau and his successors attempt to cope with the basic epistemological split between perceiver and place inherent in writing about nature related discussions involve the kinds of discourse most effective for writing about place They focus on the impact on Thoreau and his successors of culturally constructed assumptions deriving from science politics race gender history and literary conventions Finally they explore the implications surrounding a writer's appropriation or even exploitation of places and objects

Mega-Dams in World Literature Margaret Ziolkowski, 2024-04-15 *Mega Dams in World Literature* reveals the varied effects of large dams on people and their environments as expressed in literary works focusing on the shifting attitudes toward large dams that emerged over the course of the twentieth century Margaret Ziolkowski covers the enthusiasm for large dam construction that took place during the mid twentieth century heyday of mega dams the increasing number of people displaced by dams the troubling environmental effects they incur and the types of destruction and protest to which they may be subject Using North American Native American Russian Egyptian Indian and Chinese novels and poems Ziolkowski explores the supposed progress that these structures bring The book asks how the human urge to exploit and control waterways has affected our relationships to nature and the environment and argues that the high modernism of the twentieth century along with its preoccupation with development casts the hydroelectric dam as a central symbol of domination over nature and the power of the nation state Beyond examining the exultation of large dams as symbols of progress *Mega Dams in World Literature* takes a broad international and cultural approach that humanizes and personalizes

the major issues associated with large dams through nuanced analyses paying particular attention to issues engendered by high modernism and settler colonialism Both general and specialist readers interested in human environment relationships will enjoy this prescient book **Season of the Coyote Secret** Kenn Sherwood Roe,2014-02-27 When a family of coyotes the species eliminated from the area by extensive trapping and poisoning settles on my Grandfather's ranch the neighbors become alarmed for fear that their poultry and livestock will be killed After two powerful ranchers Mr Henderson and Mr Diego demand that he take action to destroy the animals Grandfather refuses unless necessary believing that most predators are condemned by the deeds of a few I and my friend Amy Lou Henderson a talented wildlife artist who was crippled in a car accident become involved not only against the neighbors intent on annihilation but involved in secretly observing the family's fascinating growth and interplay from an old shed suggested by Grandfather Ultimately it is I supported by Amy Lou Granddaughter of Mr Henderson who must confront the armed intruders on our ranch who have illegally placed poison and traps on our land when Grandfather is forced to halt because of a chest pain Imagining Wild America John R. Knott,2009-04-03 Sheds light on notions of wilderness as reflected in the works of American authors from Audubon to Mary Oliver *Coyote* Catherine Reid,2005-11-09 A beautifully written tribute to this tenacious and much misunderstood creature of the wild Bill McKibben When Catherine Reid returned to the Berkshires to live after decades away she became fascinated by another recent arrival the eastern coyote This species which shares some lineage with the wolf exhibits remarkable adaptability and awe inspiring survival skills In fact coyotes have been spotted in nearly every habitable area available including urban streets New York's Central Park and suburban backyards Settling into an old farmhouse with her partner Reid felt compelled to learn more about this outlaw animal Her beautifully grounded memoir interweaves personal and natural history to comment on one of the most dramatic wildlife stories of our time With great appreciation for this scrappy outsider and the ecological concerns its presence brings to light Reid suggests that we all need to forge a new relationship with this uncannily intelligent species in our midst More than a book about nature a narrative about home and family and about human attitudes toward the wild and unfamiliar The Boston Globe A captivating read worthy of joining the pantheon of literary ecological writing Booklist Enlightening a heartfelt often poetic case for coexistence between humans and the wild Publishers Weekly **Coyote's Song** Richard D. How to Become a Pokemon Master Hank Schlesinger,2016-03-15 Valuable expert tips that can turn you into a champion Pokemon player **Food Habits of the Coyote in Jackson Hole, Wyo** Olaus Johan Murie,1935 *Operant-Pavlovian Interactions* Hank Davis,Harry M. B. Hurwitz,2021-09-30 The first important distinction between operant and Pavlovian conditioning was made in 1928 by Polish scientists Konorski and Miller Unaware of their work Skinner proposed a similar analysis in 1935 of the manner in which operant and Pavlovian conditioning might differ and interact Konorski and Miller responded to Skinner s statement and by 1937 the now classic debate over two types of conditioned reflexes was in high gear In the years before publication the attention of many learning theorists had returned to the fundamental question of whether there are identifiably different forms of learning The present volume originally published in 1977 contains chapters that reassess our basic learning paradigms of the time They deal with the definitional problems of isolating operant and Pavlovian conditioning as well as the attempt to analyze the inevitable interactions that follow These issues are examined in a variety of settings some authors deal with operant Pavlovian interactions directly by devising procedures to generate them others examine operant Pavlovian interactions by examining their possible contribution to established conditioning paradigms
