Justice and Cities Mark Davidson, 2023-06-20 This book explores different theories of justice and explains how these connect to broader geographical questions and inform our understanding of urban problems Since philosophers like Socrates debated in the ancient agora cities have prompted arguments about the best ways to live together Cities have also produced some of the most vexing moral problems including the critical question of what obligations we have to people we neither know nor affiliate with The first part of this book outlines the most well developed answers to these questions the justice theories of Utilitarianism Libertarianism Liberalism Marxism Communitarianism
