Padilla, Rebecca Romero, 1995-11-15 The progress of a complex educational restructuring project in the US state of Arizona is the focus of this book The goals of the project included to improve dramatically student achievement in the core subjects to develop new assessment and evaluation practices and to develop teaching strategies curricula and school structures that meet the needs of poor minority and bilingual students

**Successful School Change** Claude Nestor Goldenberg, 2004 Drawing on 15 years of research and teaching in low income schools Claude Goldenberg provides a powerful model of school change Illustrating the everyday dynamics experienced by teachers administrators and students the text focuses on successful reform efforts in an elementary school in the metropolitan Los Angeles area that serves a predominantly bilingual Latino population

**Schools That Change** Lew Smith, 2008 Schools That Change integrates equal parts passion and intellect A well crafted contribution to the literature on successful reform and a sophisticated and nuanced book that should be read with care From the Foreword by Michael Fullan Schools have shown themselves to be gifted and talented at resisting and subverting change Lew Smith hands us the keys to the storehouse of insights about how schools can change really change Roland Barth Founder The Principals Center Harvard University Author Lessons Learned Learn from schools that have made meaningful positive and lasting changes With an in depth look at eight schools across the nation winners of the National School Change Awards this illuminating resource shows how schools can transform themselves from low performing into exemplary national status Qualitative research specific examples and portraiture offer an inside view of the day to day dynamics of change in schools This insightful book examines questions such as Why are some schools able to change while other schools cannot Why are people challenged by change What is the best way to measure change What professional characteristics must principals develop to bring about significant and sustainable change Learn how your school can realize substantive change that supports a culture of learning teacher development and enhanced student achievement

*Revisiting "The Culture of the School and the Problem of Change"* Seymour B. Sarason, 1996 Revisiting The Culture of the School and the Problem of Change provocatively and seamlessly joins Seymour Sarason s classic landmark text on school change with his own insightful re ections on those same issues in the face of today s crisis in public schools This is an extensive monograph length revisiting Part I of this book reproduces the second edition of Sarason s ground breaking work The Culture of the School and the Problem of Change in which he detailed how change can affect a school s culturally diverse environment either through the implementation of new programs or as a result of federally imposed regulations Throughout many of the major assumptions about change in institutions are challenged Specific events and examples demonstrate that any attempt to implement change involves some existing regularity within the school Dr Sarason also takes a close look at government involvement in change efforts in

schooling and includes a detailed examination of current efforts to implement PL 94 142 into public schools He presents compelling evidence that the federal effort to change and improve schools has largely been a failure Also included are investigations into the purposes of schooling and how these purposes can be affected by change and the process by which educators and administrators formulate intended outcomes of change efforts In Part II Dr Sarason revisits the text and the issues 25 years after the original publication As he explains in his preface to him the word crisis means a point in time when a dangerous situation contains conflicting forces of an intensity or seriousness that in the near term will be dramatically altered depending on which forces win out When I wrote the book a quarter century ago I did not regard our schools as in crisis though my intuition was that a crisis would come sooner or later It has in my opinion come Believing that what happens in our cities and our schools will determine the fate of our society Dr Sarason is deeply concerned that the reform arena is being manipulated by forces that are at best untroubled by and at worst intent on the dismantling of the public school system That coupled with his fear that even the system's defenders are not focusing on the real issues has infused Dr Sarason's return to the topic of educational change with a great sense of urgency The important things he has to say will be welcomed by all who truly care about the state of the public schools that America's children attend

**Transforming Learning Environments** Fayneese Miller, 2012-10-19 With the influence and pressures of the globalized economy education systems are at a crossroads and need to find a place and or identity that reflect new or transformed realities for learning environments Questions such as to what extent in what way and how are we doing will need to be raised and answered before learning environments can begin

**Designing Performance Assessment Systems for Urban Teacher Preparation** Francine P. Peterman, 2005-05-06 Designing Performance Assessment Systems for Urban Teacher Preparation presents an argument for and invites critical examination of teacher preparation and assessment practices in light of both the complexity and demands of urban settings and the theories of learning and learning to teach that guide teacher education practices This dynamic approach distinguishes the authors stance on urban teacher assessment as one that can help address social justice issues related to gender race socioeconomic class and other differences and at the same time promote the professional development of all educators engaged in the process of learning to teach The contextually bound sociocultural stance that informs this book promises greater teacher and student achievement Culminating six years of vital dialogue and focused local activity among teachers and teacher educators from institutions in the Urban Network to Improve Teacher Education Designing Performance Assessment Systems for Urban Teacher Preparation presents the historical context that was examined for this work a theoretical framework to undergrad teacher preparation assessment and design principles to guide the development of assessment systems four case studies of participants struggles and successes in designing and implementing these systems and a discussion of the importance of context and current trends in assessment practices in urban teaching This volume is particularly relevant for university and school based teacher educators who help prepare

teachers to work in urban schools and for personnel in state departments of education and other agencies who are responsible for certification and beginning teacher support While the focus is on preparing teachers for urban settings the theoretical and practical foundations and the case studies have broad implications and provide useful insights for anyone involved in developing and using performance assessment systems teacher educators university and school administrators classroom teachers and educational researchers

Rethinking Education and Poverty William G. Tierney, 2015-11-01 How can new ways of thinking about education improve the lives of poor students In *Rethinking Education and Poverty* William G. Tierney brings together scholars from around the world to examine the complex relationship between poverty and education in the twenty first century International in scope this book assembles the best contemporary thinking about how education can mediate class and improve the lives of marginalized individuals In remarkably nuanced ways this volume examines education's role as both a possible factor in perpetuating and a tool for alleviating entrenched poverty Education has long been seen as a way out of poverty Some critics however argue that educational systems mask inequality and perpetuate cycles of poverty and wealth others believe that the innate resilience or intellectual ability of impoverished students is what allows those individuals to succeed *Rethinking Education and Poverty* grapples in turn with the ramifications of each possibility Throughout these compelling far reaching and provocative essays the contributors seek to better understand how local efforts to reduce poverty through education interact or fail to interact with international assessment efforts They take a broad historical view examining social economic and educational policies from the postWorld War II period to the end of the Cold War and beyond Although there is no simple solution to inequality this book makes clear that education offers numerous exciting possibilities for progress

School Principals Jianping Shen, 2005 *School Principals* is a timely and important book that fills in a gap in the knowledge base about the principalship In highly readable form the writers of this book address such questions as Who are principals What do they do How do they think What are their working conditions How are they prepared Those in educational leadership programs who aspire to be principals will find this information invaluable Principals who read this will have a better understanding of their everyday work Educational leadership researchers and policy makers will have a better idea of the population who must respond to the new demands of the principalship

**Teachers Doing Research** Gail E. Burnaford, Joseph Fischer, David Hobson, 2000-11 Describes the process of doing teacher action research and provides examples from teachers themselves Textbook for pre service and in service teacher education courses Includes suggested activities sections

*Resources in Education* , 1999-04

**Developing Caring Relationships Among Parents, Children, Schools, and Communities** Dana McDermott, 2008 This book focuses on parents and teachers as adult learners who should be growing and learning along with the children in their care It lays out a theory of what parents and teachers need to care for children and themselves and then it shows how the author has assisted parents and teachers to put these theories into practice McDermott relies on stories and listening to the voices of parents

teachers and children to make her case She weaves together the latest theories and research with these stories She uses narratives of actual school meetings workshops parent planning and discussion groups testimonies newsletters and research of others in the field to demonstrate applications of theory and research She fills a gap by focusing on parents from all socioeconomic backgrounds Key Features o Focuses on parents and teachers as adult learners o Focuses on the dynamic process of parenting and teaching o Provides a theory to practice model to support parents families and teachers o Provides a tool or guide for thinking through problems and finding solutions that take into consideration the needs of all involved

Teaching as a Performing Art Seymour B. Sarason, 1999 In his most recent work and with his usual perceptiveness Seymour Sarason probes the topic of teaching as a performing art Refreshingly Dr Sarason focuses on the often overlooked role of teachers in galvanizing an audience their students Sarason argues that teachers will better engage learners if they are prepared in the artistry of doing so Sarason sees teachers as actors and thus uses the traditions of stage performance to inspire ways to foster connections between teachers and students Sarason elucidates how the rehearsal processes actors undergo and the direction they receive for example would be similarly beneficial for educators Recognizing that implementing his ideas would require a profound rethinking of teacher training programs Sarason urges why they are crucial to excellence in education As always Sarason s writing is rich with insight garnered from 45 years of teaching and a lifetime devotion to educational issues His book is essential for teachers and teacher educators and an excellent resource for anyone interested in educational topics Once again Sarason like other great teachers and artists has us pause at the moral center of what we thought we knew long enough to recognize truths we might otherwise neglect Just as he guided our understanding of school cultures and school reform this book reshapes what we previously thought of as the art of teaching Jeannie Oakes Professor of Education at University of California Los Angeles Seymour Sarason thinks he has something new to say Indeed he has Furthermore he writes about a domain anyone who has taught in educational institutions identifies with immediately but is almost barren of attention There are insight great writing and passion here but don t look for a repetition of anything Sarason has written before To the thousands of psychologists sociologists and teachers of teachers already nourished by Sarason s writing this book will add the audience of teachers in and out of schools that he has always wanted to reach John Goodlad Co director Center for Educational Renewal University of Washington and President Institute for Educational Inquiry

Holding Accountability Accountable Kenneth A. Sirotnik, 2004 Kenneth Sirotnik asserts that however well intentioned past and current accountability practices in public education are miseducative misdirected and misanthropic In this provocative book well respected educators join Sirotnik to provide critical analyses and sophisticated perspectives on prevailing high stakes accountability practices They offer both conceptual and practical foundations for rethinking what it means to act responsibly when it comes to calling our schools school systems educators and students into account
