Courts Law And Judicial Processes:

The Judicial Process Henry Julian Abraham, 1986 Written by one of the nation's most astute observers of the court, this classic text examines the theory, practice, and people behind the judicial process. The new seventh edition brings the work completely up to date by examining important developments and structural changes in these three judicial systems up through the end of 1997, including judicial appointments during the Bush and Clinton administrations, significant alterations in the structure and organization of the United States, British, French, and other European courts, with an emphasis on the ongoing changes in the judiciary of the United Kingdom and the collateral developments on the frontiers of judicial review procedures as well as the judicial role. At once comparative, expository, analytical, and evaluative, this new edition of *The Judicial Process* illuminates even more vividly the judiciary's political, legal, and governmental roles, examining closely that much debated but little understood line between judicial activism and judicial restraint. *Law Clerks and the Judicial Process* John B. Oakley, Robert S. Thompson, 2024-06-12 This is the first in-depth empirical and historical study of the use of law clerks by American judges. Although possessing a hundred-year heritage, the institution has been ignored as an important component of the process of judicial decision making. Law clerks are in the authors' words subordinate, anonymous, but often quite powerful lawyers who function as the non-commissioned officers in the army of the judiciary. American courts are currently altering the traditional use of law clerks through the introduction of important innovations that enhance the ability of judges to dispose of cases rapidly but detract from personal judicial control over individual decisions. The authors investigate the clash of tradition and innovation through interviews with sixty-three judges of federal courts and appellate courts in California. They find distinctly different models of law clerk usage in the state and federal systems, which they analyze on the basis of the judges' own perceptions of the qualitative and quantitative impact on their decision of variations in the character, tenure, and duties of staff assistants. They offer suggestions on how modern courts can cope with the crisis of volume without unduly sacrificing traditional standards of judicial autonomy. Because of the confidential nature of judicial deliberations, judges are rarely willing to discuss publicly their use of law clerks. This study employs unconventional techniques for penetrating the secrecy of judicial chambers while respecting the confidentiality and the individuality of its sources. It presents important new information on the internal operating procedures of the courts, studies collating interview data with facts abstracted from pre-existing but often obscure sources, and providing a particularly close look at the inner workings of the Supreme Court of California and the United States Court of Appeals for the Ninth Circuit. Revealing the significance of public funding of judicial staff in determining patterns of law clerk usage, it should promote further investigation and debate regarding the proper structure and role of staff assistance in the judicial process. Social Research in the Judicial Process Wallace D. Loh,1984-09-17 How to inform the judicial mind Justice Frankfurter remarked during the school desegregation cases is one of the most complicated problems Social research is a potential source of such information Indeed in the 1960s and 1970s with activist courts at the forefront of social reform the field of law and social science came of age But for all the recent activity and scholarship in this area few books have attempted to create an intellectual framework a systematic introduction to applied social legal research Social Research in the Judicial Process addresses this need for a broader picture Designed for use by both law students and social science students it constructs a conceptual bridge between social research the realm of social facts and judicial decision making the realm of social values Its unique casebook format weaves together judicial opinions empirical studies and original text It is a process oriented book that teaches skills and perspectives cultivating an informed sensitivity to the use and misuse of psychology social psychology and sociology in appellate and trial adjudication Among the social legal topics explored are school desegregation capital punishment jury impartiality and eyewitness identification This casebook is remarkable for its scope its accessibility and the intelligence of its conceptual integration It provides the kind of interdisciplinary teaching framework that should eventually help lawyers to make knowledgeable use of social research and social scientists to conduct

Design of Court Systems and Legal Information Systems

Council of Europe, 2000-01-01 The subject of this Colloquy was the design of court systems and legal information systems and methods for setting them up managing and redesigning them cost effectively These proceedings illustrate what is happening with these systems in Europe and the rapid pace of technological developments *Judges and Unjust Laws* Douglas E.

Edlin, 2008-12-02 With keen insight into the common law mind Edlin argues that there are rich resources within the law for judges to ground their opposition to morally outrageous laws and a legal obligation on them to overturn it consequent on the general common law obligation to develop the law Thus seriously unjust laws pose for common law judges a dilemma within the law not just a moral challenge to the law a conflict of obligations not just a crisis of conscience While rooted firmly in the history of common law jurisprudence Edlin offers an entirely fresh perspective on an age old jurisprudential conundrum Edlin's case for his thesis is compelling Gerald J Postema Cary C Boshamer Professor of Philosophy and Professor of Law University of North Carolina at Chapel Hill and author of *Bentham and the Common Law Tradition* Douglas Edlin builds a powerful historical conceptual and moral case for the proposition that judges on common law grounds should refuse to enforce unjust legislation This is sure to be controversial in an age in which critics already excoriate judges for excessive activism when conducting constitutional judicial review Edlin's challenge to conventional views is bold and compelling Brian Z Tamanaha Chief Judge Benjamin N Cardozo Professor of Law St John's University and author of *Law as a Means to an End* Threat to the Rule of Law Professor Edlin's fascinating and well researched distinction between constitutional review and common law review should influence substantially both scholarship on the history of judicial power in the United States and contemporary jurisprudential debates on the appropriate use of that power Mark Graber Professor of Law and Government University of Maryland and author of *Dred Scott and the Problem of Constitutional Evil* Is a judge legally obligated to enforce an unjust law In *Judges and Unjust Laws* Douglas E Edlin uses case law analysis legal theory constitutional history and political philosophy to examine the power of judicial review in the common law tradition He finds that common law tradition gives judges a dual mandate to apply the law and to develop it There is no conflict between their official duty and their moral responsibility Consequently judges have the authority perhaps even the obligation to refuse to enforce laws that they determine unjust As Edlin demonstrates exploring the problems posed by unjust laws helps to illuminate the institutional role and responsibilities of common law judges Douglas E Edlin is Associate Professor of Political Science at Dickinson College

The Procedural and Organisational Law of the European Court of Justice Christoph Krenn, 2022-09-22 How should judges of the European Court of Justice be selected who should participate in the Court's proceedings and how should judgments be drafted These questions have remained blind spots in the normative literature on the Court This book aims to address them It describes a vast yet incomplete transformation Originally the Court was based on a classic international law model of court organisation and decision making Gradually the concern for the effectiveness of EU law led to the reinvention

of its procedural and organisational design The role of the judge was reconceived as that of a neutral expert an inner circle of participants emerged and the Court became more hierarchical While these developments have enabled the Court to make EU law uniquely effective they have also created problems from a democratic perspective The book argues that it is time to democratise the Court and shows ways to do this Courts, Law, and Judicial Processes S. Sidney Ulmer,1981 **Library of Congress Subject Headings** Library of Congress,2004 **The Communist Judicial System in China, 1927-1976** Qiang Fang,2025-10-01 Drawing on hundreds of newly released judicial archives and court cases this book analyzes the communist judicial system in China from its founding period to the death of Mao Zedong It argues that the communist judicial system was built when the CCP was engaged in a life or death struggle with the GMD meaning that the overriding aim of the judicial system was from the outset to safeguard the Party against both internal and external adversaries This fundamental insecurity and perennial fear of loss of power obsessed the Party throughout the era of Mao and beyond prompting it to launch numerous political campaigns which forced communist judicial cadres to choose between upholding basic legal norms and maintaining Party order In doing all of this *The Communist Judicial System in China 1927 1976* Building on Fear fills a major lacuna in our understanding of communist era China **Acts and Laws, Made and Passed in and by the General Court Or Assembly of the State of Connecticut** Connecticut,1890 **Library of Congress Subject Headings: P-Z** Library of Congress.
