Crack In The Cosmic Egg New Constructs Of Mind And Reality:

The Crack in the Cosmic Egg Joseph Chilton Pearce, 2002-08-01 The classic work that shaped the thought of a generation with its powerful insights into the true nature of mind and reality Defines culture as a cosmic egg structured by the mind's drive for logical ordering of its universe Provides techniques allowing individuals to break through the vicious circle of logic based systems to attain expanded ways of creative living and learning The sum total of our notions of what the world is and what we perceive its full potential to be form a shell of rational thought in which we reside This logical universe creates a vicious circle of reasoning that robs our minds of power and prevents us from reaching our true potential To step beyond that circle requires a centering and focus that today's society assaults on every level Through the insights of Teilhard Tillich Jung Jesus Carlos Castaneda and others Joseph Chilton Pearce provides a mode of thinking through which imagination can escape the mundane shell of current construct reality and leap into a new phase of human evolution This enormously popular New Age classic is finally available again to challenge the assumptions of a new generation of readers and help them develop their potential through new creative modes of thinking With a masterful synthesis of recent discoveries in physics biology and psychology Pearce reveals the extraordinary relationship of mind and reality and nature's blueprint for a self transcending humanity

Education for Sustainability Paul Clarke,2013-06-17 In this book Paul Clarke argues that in order to live sustainably we need to learn how to live and flourish in our environment in a manner that uses finite resources with ecologically informed discretion Education is perfectly placed to create the conditions for innovative and imaginative solutions and to provide the formulas that ensure that everyone becomes naturally smart but to achieve this we need to recognise that an education that is not grounded in a full understanding of our relationship with the natural world is no education at all In other words a total transformation of schools and schooling is needed While acknowledging that the ecological crisis is global in scale Paul Clarke maintains that many of the solutions are already evident in our local communities Drawing on innovative sustainable living programmes from around the world including Sweden s Forest Schools China s Green Schools programme the US Green Ribbon Schools programme and his own school of sustainability project Paul Clarke offers practical solutions about how schools and communities can make their contribution This book examines how we might proceed to empower and actively develop schools and communities to connect hand heart and mind for an eco literate future It is thought provoking timely and challenging and should be read by school leaders community and business leaders as well as anyone grappling with the problems of transition from an industrial past to an ecologically sustainable future

Decentralized Economic Social Organization Reed Camacho Kinney, 2012-04-02 Representational government is not authentic democracy The American Constitution cannot defend us from socioeconomic domination by centralized power Independence means that people organize among themselves in order to meet all of their existential needs which include more than preserving corporal survival It means actualizing a better civil and civic organization and adding to that a civic economic organization explained in my other writings in order to afford every child the support needed to grow as individuated people The genius my father contributed is the means of making consensus based decision making processes a structured organization in

conjunction with mutual banking and its production based economy which as an organization must expand or perish That inbuilt expansive component is what distinguishes DESO from all other attempts to create a better lifestyle By forcing decentralization to expand as a structural component consequent of consensus based organization and its mutual banking and its production based economy it will compete with mass centrist society for members because living in real sovereign community provides a better quality of life a better culture I am encouraged that there are people really interested in making this project move into its actualization and that eventuality is nearing My blog <http://decentralizationblog.wordpress.com>

The Borders of Normal Manuel Matas, M.D.,2017-08-10 DREAMS THAT COME TRUE TELEPATHY ESP VISIONS PREMONITIONS NEAR DEATH AND OUT OF BODY EXPERIENCES Most of us have heard stories of these unusual phenomena as told by millions of people throughout history and across cultures Or perhaps we have experienced them ourselves and we are still grappling with their validity in a world of empirical science and psychiatry that deems anything unseen or spiritual as impossible weird or even disturbed The stigma surrounding the paranormal prevents us from exploring the possibility that there are perhaps events that occur outside the realm of human comprehension inoculating us against the lessons and spiritual significance these events might hold As an experienced psychiatrist Dr Manuel Matas is very familiar with the science of the human brain as well as the possibilities that exist beyond the known borders of consciousness He has never been a classic rationalist as he himself has experienced phenomena that defy logic and the explanations of Western medicine In *The Borders of Normal* Dr Matas reveals just how accepted and studied many of these phenomena are providing a compelling overview of influential thinkers who have over the years recognized events and experiences that fall outside the realm of current scientific thought As a proponent of a nuanced respectful approach that lies between belief and scepticism Dr Matas helps us to view paranormal experiences as normal and indeed endemic to the human species for it is in this space of the unknown that we may learn more about ourselves each other and the bodies and worlds that we inhabit
