Crackhouse Notes From The End Of The Line:

Crackhouse Terry Moses Williams,1992 **Making Trouble** Jeff Ferrell,2017-09-04 In Making Trouble leading scholars in criminology sociology criminal justice women s studies and social history explore the mediated cultural dynamics that construct images and understanding of crime deviance and control Contributors examine the intertwined practices of the mass media criminal justice agencies political power holders and criminal and deviant subcultures in producing and consuming contested representations of legality and illegality While the collection provides broad analysis of contemporary topics it also weaves this analysis around a set of innovative and unifying themes These include the emergence of situated media within and between the various subcultures of crime deviance and control the evolution of policing and social control as complex webs of mediated and symbolic meaning the role of power identity and indifference in framing contemporary crime controversies with special attention paid to the gendered construction of crime deviance and control and the importance of historical and cross cultural dynamics in shaping understandings of crime deviance and control [Drugs in America](#) Ansley Hamid,1998 This basic analysis of the drug problem in America describes the historical and present use of mood altering drugs the economics of drug trafficking theories of addiction and the resulting crime violence and community deterioration In addition the author focuses on the effects of legalizing drugs and the role of law enforcement This is an ideal text for any course discussing drug use and abuse **The Handbook of Drugs and Society** Henry H.

Pooley,2020-12-10 Leading historians trace the changing fortunes of the social science of social problems since World War II *Urban Outcasts* Loïc Wacquant,2013-04-26

Breaking with the exoticizing cast of public discourse and conventional research Urban Outcasts takes the reader inside the black ghetto of Chicago and the deindustrializing banlieue of Paris to discover that urban marginality is not everywhere the same Drawing on a wealth of original field survey and historical data Loïc Wacquant shows that the involution of America s urban core after the 1960s is due not to the emergence of an underclass but to the joint withdrawal of market and state fostered by public policies of racial separation and urban abandonment In European cities by contrast the spread of districts of exclusion does not herald the formation of ghettos It stems from the decomposition of working class territories under the press of mass unemployment the casualization of work and the ethnic mixing of populations hitherto segregated spawning

urban formations akin to anti ghettos Comparing the US Black Belt with the French Red Belt demonstrates that state structures and policies play a decisive role in the articulation of class race and place on both sides of the Atlantic It also reveals the crystallization of a new regime of marginality fuelled by the fragmentation of wage labour the retrenchment of the social state and the concentration of dispossessed categories in stigmatized areas bereft of a collective idiom of identity and claims making These defamed districts are not just the residual sinkholes of a bygone economic era but also the incubators of the precarious proletariat emerging under neoliberal capitalism Urban Outcasts sheds new light on the explosive mix of mounting misery stupendous affluence and festering street violence resurging in the big cities of the First World By specifying the different causal paths and experiential forms assumed by relegation in the American and the French metropolis this book offers indispensable tools for rethinking urban marginality and for reinvigorating the public debate over social inequality and citizenship at century s dawn

Illegal Markets, Violence, and Inequality Jean Daudelin, José Luiz

Ratton, 2018-03-21 This book challenges the quasi consensus that Latin American countries dominate global homicide rankings mainly due to the illegal nature of drug production and trafficking Building on US scholarship that looks at the role of social exclusion and discriminatory policing in drug violence the authors of this volume show that the association between illegality and violence cannot be divorced from the inequality that prevails in those countries This book looks in detail at the functioning of drug markets in Recife the largest metropolitan area in Brazil's North East and over the last 25 years the heart of the country's most violent metropolitan area Building on extensive interviews and field work the authors map out the city's drug markets and explore the reasons why some of those markets are violent and others are not The analysis focuses on the micromechanics of each market looking at consumption patterns and at the workings of retail sales and distribution Such a systematic micro level comparative analysis of the workings of Latin American drug markets is simply not available

elsewhere in current literature These findings point to significant gaps in current understandings of the link between illegal markets and violence and they illuminate the need to factor in the way in which those markets are nested in exclusionary social contexts **Homelessness, Housing, and Mental Illness** Russell K. Schutt,Stephen M. Goldfinger,2011-02-28 Humans are social animals and in general don t thrive in isolated environments Homeless people many of whom suffer from serious mental illnesses often live socially isolated on the streets or in shelters Homelessness Housing and Mental Illness describes a carefully designed large scale study to assess how well these people do when attempts are made to reduce their social isolation and integrate them into the community Should homeless mentally ill people be provided with the type of housing they want or with what clinicians think they need Is residential staff necessary Are roommates advantageous How is community integration affected by substance abuse psychiatric diagnoses and cognitive functioning Homelessness Housing and Mental Illness answers these questions and reexamines the assumptions behind housing policies that support the preference of most homeless mentally ill people to live alone in independent apartments The analysis shows that living alone reduces housing retention as well as cognitive functioning while group homes improve these critical outcomes Throughout the book Russell Schutt explores the meaning and value of community for our most fragile citizens **Consuming Habits**

Jordan Goodman,Andrew Sherratt,Paul E. Lovejoy,2005-07-26 This pioneering collection of original essays explores the rich analytical category of psycho active substances from challenging historical and anthropological perspectives Psychoactive substances have been central to the formation of civilizations and the growth of the world economy Consuming Habits describes how and why tea and coffee replaced beer on the breakfast tables of 18th century Europe in Islamic emirates at the turn of the century kola nuts formed part of tax payments and were given as gifts by so called big men In 1902 opera singers had their doctors prescribe them cocaine to aid singing the original version of coca cola was described as a brain tonic This pioneering collection of original essays explores the rich analytical category of psychoactive substances from challenging historical and anthropological perspectives **Out of the Shadows** Patricia Fernández-Kelly,Jon Shefner,2010-11 Since the beginning of scholarly writing about the informal economy in the mid 1970s the debate has evolved from addressing survival strategies of the poor to considering the implications for national development and the global economy Simultaneously research on informal politics has ranged from neighborhood clientelism to contentious social movements basing their claims on a variety of social identities in their quest for social justice Despite related empirical and theoretical concerns these research traditions have seldom engaged in dialogue with one another Out of the Shadows brings leading scholars of the informal economy and informal politics together to address how globalization has influenced local efforts to resolve political and economic needs and how these seemingly separate issues are indeed deeply related In addition to the editors contributors are Javier Auyero Miguel Angel Centeno Sylvia Chant Robert Gay Mercedes Gonz lez de la Rocha Jos Itzigsohn Alejandro Portes and Juan Manuel Ram rez S iz **Using Women** Nancy Campbell,2002-12-24 From the 1950s girl junkie

to the 1990s crack mom Using Women investigates how the cultural representations of women drug users have defined America's drug policies in this century In analyzing the public's continued fear horror and outrage wrought by the specter of women using drugs Nancy Campbell demonstrates the importance that public opinion and popular culture have played in regulating women's lives The book will chronicle the history of women and drug use provide a critical policy analysis of the government's drug policies and offer recommendations for the direction our current drug policies should take Using Women includes such chapters as Sex Drugs and Race in the Age of Dope Regulating Adolescents in the Postwar US Fifties

Femininity and Regulating Maternal Instinct **Contemporary Drug Policy** Henry Brownstein,2013-02-11 This book focuses on the use of drugs in our lives and how we respond to them Whereas drug policy typically centres on the problems of illicit drugs or licit drugs used in illicit ways or circumstances Contemporary Drug Policy instead considers the wide variety of substances we call drugs as a normal part of our personal and social experience and asks how and when drugs benefit us as well as how and when they are harmful The evidence is clear that at some times in some circumstances and in some places drugs are a problem This book does not ignore these issues but shifts our attention to making policies that also recognize their legitimate and constructive place in society It focuses on asking questions challenging assumptions and developing responses to drugs based on evidence from scientific study as directed by critical criminological theory rather than mainstream theory or unfounded assumptions Different from other books on drug policy this book does not offer answers or solutions Rather it shows how critical criminological theories can lead scientific research in new directions supportive of policies that offer both solutions to problems that are found to be related to drugs and an appreciation for the benefits that drugs can bring to people and society This book will be of interest to those studying or researching drug policy as well as professionals involved in policy making processes

The Poverty of the Ethnography of Poverty Loïc Wacquant,2025-07-02 In The Poverty of the Ethnography of Poverty Loïc Wacquant dissects how sociologists who carry out field studies of the poor write about race class and morality in the city's underbelly the blinders and biases that affect their research and how to overcome them and how to become aware of these biases and develop a better meshing of theory and research
