Communication as a Life Process Małgorzata Haładewicz-Grzelak, 2017-05-11 This volume presents the meta proposals of the ecolinguistic paradigm within contemporary language and communication studies and will serve to incite further scholarly work within this research program Eclectic and interdisciplinary as the contributions gathered here are they all pertain to a dynamic multilayer approach to human communication The ecolinguistic framework delineated and put forth for consideration here is founded on the large and vibrant scientific plane of the holistic paradigm also referred to in the book as the post Newtonian paradigm As such the contributions complement the mainstream linguistic focus on the cognitive and material forms of the language system with another perspective pointing to non cognitive communication modalities active in the communication process along with the neuro cognitive machinery The human communication process is seen here as a life process occurring in the context of other life processes intraorganismically interorganismically transpersonally and ecosystemically to enumerate these layers of the communication grid

History of Nigeria Sir Alan Burns, 2023-05-03 History of Nigeria 1969 was first published in 1929 and completely revised by its author and gives the history of Nigeria from before its first encounters with the British through colonial rule and up to independence in 1960 It describes the peoples of Nigeria and the British conquest and colonial administration and is full of detailed and valuable information relating to trade and industry transport housing land tenure education religion and tribal customs Appendices feature royal genealogies and the texts of treaties

Hebrewisms of West Africa Joseph J. Williams, 1999 In this massive work Joseph J Williams documents the Hebraic practices customs and beliefs which he found among the people of Jamaica and the Ashanti of West Africa He initially examines the close relationship between the Jamaican and the Ashanti cultures and the folk beliefs He then studies the language and culture of the Ashanti of whom many Jamaicans have descended by comparing them to well known and established Hebraic traditions William s findings suggest stunning similarities And he challenges the reader by concluding that Hebraic traditions must have swept across negro Africa and left its influence among the various tribes While Williams presents a strong case his evidence including hundreds of quoted sources also builds a strong case for the reverse that an indigenous continent wide belief system among African people stands at the very root of Hebrew culture and Western religion First published in 1931 and long out of print today s reader will find Hebrewisms a valuable resource for understanding the cultural unity of African people
