For starters this book was well written and flowed easy The characters were well defined and the surroundings were well described Now with those details out of the way this book kept me on pins and needles There were times my skin crawled and creeped me out but I could not put the book down This book is one of the best books that I have read in a long time that actually kept my attention and freaked me out all at the same time This is a 5 star book Was expecting a rip off from James Herbert s the rats trilogy but got a unexpected delightful little book Estranged father and son spend the summer holidays together and things don t go well at first But thankfully an invasion of rats naturally brings them together along with a rat expert and 2 eccentric exterminators Can they stop the rats Read and see Nice gore and rat attacks This book was an awesome read I couldn t put it down even when it creeped me out a few times These rats are scary I hope Lee writes another rat tale I will definitely want to read it I really liked this book I don t know why I was fascinated by rats but I was The story was great the writing was great and anyone who reads this story will enjoy it I really enjoy Gabel s attention to facts and details in his writing I feel like I haven t just read a piece of fiction but have also learned something Gabel s characters are distinct and well rounded and help draw you into the action This one will certainly make you think twice about the critters in your neighbourhood OMG Warning very descriptive With that said I have nothing but praise for Mr Gabel and am anxious to read more of his awesome work I thoroughly enjoyed it the rats are viciously nasty killing machines you would not want to meet

Android Henry Kuttner,Catherine Lucile Moore,2012-01-01 Androids were obviously not human so they claimedExcerptBradley looked at the Director s head His stomach tried to crawl up into his throat He felt suddenly dizzy He knew that he was betraying himself and that would be absolutely fatal He reached into his pocket pulled out a pack of cigarettes and a few coins and let the coins drop as though by accident to the airfoam carpet Oh oh he said and immediately crouched down to recover the money It s a basic principle of first aid in cases of shock or faintness to lower the head and Bradley was doing just that The giddiness began to pass as his circulation picked up In a moment he knew he d have to stand up and face the Director and by that time he was determined to have his feelings under control But how the devil could the Director s head be where it was after last night And then sanity came back He remembered that last night the Director

couldn't possibly have recognized him through the rubber plastic false face he had worn. On the other hand after last night the Director of New Products Inc should have been incapable of living or breathing not to speak of using his memory centers. Bradley had left the man's body in one corner of the room and his head in another. Man. With a violent effort he controlled himself. He recaptured the last coin and stood up. His face flushed. Sorry he said. I came in to deliver that report on the induced mutation project not to act like a horn of plenty. His fascinated stare moved down to the Director's neck and flicked away. The high collar concealed any any mark. Any mark such as might have been left by razor sharp steel shearing through flesh and bone. Was there a reason for the high collar. Bradley couldn't be sure. In the fall of 2060 men's fashions had changed considerably from the uncomfortable styles of a few years before and the Director's flaring half cape with its gilt braided close fitting collar was far from extreme. Bradley owned one like that himself. Lord he thought in white panic. Can't the things even be killed.

Arachnid 2.0 Lee Gabel, 2019-09-23 Spiders. Over 35 000 species. Every person on Earth eaten in one year. Now there's one more a ravenous eight legged hybrid thousands of years in the making and bigger than a dozen burritos. After a summer of exterminator training in New York Bradley returns home ready to face his senior year with renewed confidence. But fate gets in the way of his grand teenage plans especially when eight legs attack instead of four. And these aren't your typical everyday spiders. Their newly acquired taste for raw meat has them casting a wide net over Bradley's sleepy San Fernando suburb. It doesn't take them long to scramble up the food chain. Add a vengeful ex girlfriend casting a web of lies into the mix and things get downright sticky. But Detest A Pest can't resist a challenge. Sam and O Connor rejoin Bradley and his inventive friends as they wage war on an infestation of spiders poised to swallow not only the high school but the neighborhood and everyone within.
